| Total Insurance paid on Property | 2,332.50 |
| Net Loss | 429.00 |
| Total feet of Hose laid | 22,650 |
| Total gallons of Chemical used | 2,139 |
| Total feet Ladders raised | 2,749 |
| Miles Apparatus traveled | 555 |

Respectfully submitted,

G. F. FERGUSON,
Clerk.

REPORT OF THE BOARD OF ENGINEERS SANFORD FIRE DEPARTMENT, 1931

To the Municipal Officers of the Town of Sanford:

The Board of Engineers of Sanford Fire Department hereby submit their report for the year ending December 31, 1931:

This Department has responded to 222 alarms; 31 bell, 183 still, 2 house calls and 6 fire drills, this being in the whole forty more than for the year 1930.

Use of the telephone has lessened the number of bell alarms and increased the still alarms, this method for fires in chimneys gets quicker response from the department and saves calling the entire department for a fire that four men can handle and we recommend to the public the continued use of the phone for fires of this nature.

This department has been connected with the department at Springvale with the alarm systems, this means that on second alarms no phone call is necessary to get extra apparatus when needed.

Your equipment at the Fire Station is in excellent condition due to the care given by the permanent men; we are assured of the necessity of keeping this part of your fire service at its present number and do not recommend any decrease either in men or salary paid, this is now being recommended for your consideration at the Annual Town Meeting for 1932. The permanent men have made 1,100 business inspections during the year 1931. The Board of Engineers extend to these men their thanks for their efficient services during the year.

We believe that economy is necessary for the ensuing year, 1932, and are preparing our budget with this thought in view and will cut all expense in the purchasing of supplies to the minimum allowing only such necessary purchases as will keep the efficiency required, we do not feel that lowering the present efficiency is economy as any deterioration to the present equipment only means greater cost later.

Your Board of Engineers extend to the officers and members of the department their sincere thanks for their

loyalty to duty and for the services rendered, also to the permanent firemen for the ever clean condition of the entire fire station and the equipment and general attendance to their respective duties.

Thanks is also extended to the departments of Sanford Mills and Springvale for their readiness to respond when needed.

Respectfully submitted:

VON E. GERRY, Chief

LINWOOD J. EMERY, 1st Asst.

ROBERT RANKIN, 2nd Asst.

Clerk.

**THE ANNUAL REPORT OF THE BOARD OF
ENGINEERS OF THE SPRINGVALE
FIRE DEPARTMENT**

To the Municipal Officers of the Town of Sanford,
Maine:

The Board of Engineers of the Springvale Fire Department hereby submit their Annual Report for the year ending December 31, 1931:

Your Equipment, in our custody is in excellent condition, also the Fire Station itself is in a very good state of repair. This is due principally to the efforts of the permanent men, to whom, we are greatly indebted and we wish to take this opportunity to express our appreciation.

The past year has been very successful. We have answered an average number of calls and by early discovery and prompt response of the Department, we have been able to keep the Fire Loss at a very low figure.

In addition to their usual duties, the permanent men have made approximately 500 building inspections.

We wish to mention that the property owners have given us wonderful cooperation in the matter of reducing fire hazards in the mercantile buildings. The owners have been unusually prompt to carry out our requests and by so doing have greatly assisted in the elimination of a large number of unnecessary fire hazards.

This past year we have connected our Fire Alarm System with the Sanford Station. This hook-up has greatly increased the efficiency of both fire departments.

In spite of several unexpected bills of expense and by the application of rigid economy to our expenditures, we have been able to keep within our reduced appro-

priation, which was somewhat less than previous years. Excepting unforeseen conditions which may arise, we feel confident that we will be able to make further reduction in our operating costs for the ensuing year. It is our desire to operate this department at the lowest possible cost and not impair its efficiency.

Business depression has a tendency to increase rather than decrease the demands for fire protection. Building and heating equipment are allowed to get in poor state of repair. Inflated insurance policies are also a great temptation. General business decline is always accompanied by increased fire loss. Therefore we do not believe it good policy to reduce the Fire Department Appropriation to a point which might be detrimental.

In closing we wish to express our thanks to the officers and members of the Sanford Fire Department for their hearty cooperation.

Respectfully submitted,

CLYDE E. HARTFORD,
RAYMOND Y. LORD
STANLEY G. TURNER

(\$1,400.00 expended in 1928-29-30)

Due to the unemployment situation which forced families on the town, we believe it advisable to omit the detail of the Relief Accounts. These itemized expenditures are on file in the Selectmen's Office, for inspection by any taxpayer or voter.

REPORT OF SANFORD TOWN FARM

To the Selectmen of Sanford:

The following is a list of articles and produce on the Farm, December 31, 1931:

One horse, two cows, forty hens, eleven tons of hay and oats, five hundred fifty pounds grain, one bag of salt, one bag oyster shells, one bag charcoal, twenty tons of coal, fifteen cords of fitted dry wood, seventeen cords unfitted wood, the cellar contains the usual supply of vegetables with three hundred seventy quarts of canned goods.

At the present time there are eleven inmates: Roger Carr, 46; Theodore Eustase, 69; Willis Fogg, 71; Mellissa Ham, 75; Charlotte Harding, 54; Dr. James Hutcheson, 67; (Board Paid); Emulus Johnson, 87; Mary Liberty, 54; James Palmer, 80; Napoleon Perreault, 26; Benjamin Spivey, 63. Total number during the year, seventeen.

This institution was inspected in October by the State Department of Charities and Corrections and made very favorable comments about the home.

Respectfully submitted,

GEORGE S. LOWD,

Superintendent.

REPORT OF PLAYGROUND COMMITTEE

To the Honorable Gentlemen, the Selectmen of
Sanford:

We hereby submit our annual report on the conditions and workings of the Elizabeth Benton Playground situated on Kimball Street, Sanford.

We average daily attendance during the period of operation 75 to 125; variety of games and exercises, 8 in number, covering various forms of playground and recreational activities. Sanitary conditions excellent, through the erection of a building covering all these necessities.

• Mr. Hillman O. Fallon and assistant, Miss Wiggin, have presented an excellent morale, thereby assisting in the furtherance of all development both moral and physical.

We recommend a greater beautifying of the grounds, through the planting of trees, flowers, and so forth, such things esthetic adding to the general ensemble and beauty.

A decorative fence surrounding the entire ground would be of great benefit in giving to such an air of exclusiveness.

Respectfully submitted,

HARRY STOTT,

STILLMAN BODWELL,

ALLISON C. NICKERSON,

Committee.

**REPORT OF ROAD COMMISSIONER—
SOUTHERLY DISTRICT**

To the Citizens of Sanford:

I would like to present a brief explanation concerning the cutting of bushes on the roads for the year 1931.

The bushes beside all roads were cut by unemployed men who were given aid by the town. This work has greatly improved the outside roads making it possible for easier upkeep during both summer and winter.

The amount of wood hauled in from the cutting of these bushes was approximately 175 cords which was for the use of the poor of Sanford.

In conclusion I wish to express my appreciation to the voters for their support to the business men for their cooperation, to the members of all departments in the Town Hall, including the Police and Fire Departments, for their help during the past year.

Respectfully submitted,

FRANK L. FALL,

Road Commissioner,

Southerly District.

REPORT OF THE COUNTY NURSES

To the Selectmen

Town of Sanford, Maine.

Gentlemen:

I herewith submit to you and the citizens of Sanford a report of the Tuberculosis work accomplished by the County Nurses since June 1, 1931.

Beginning in June, 1931, a special Tuberculosis Program was started for Sanford under the direction of the Maine Public Health Association of Augusta. This association is affiliated with the National Tuberculosis Association of New York, and controls the state-wide circulation of Christmas Seal Sale money. For many years, the citizens of Sanford have generously contributed to the Christmas Seal drive, making it possible to establish this service which at present is carried on by the York County nurses.

One day a week or its equivalent is set aside for this program.

In order to carry on this program to the best advantage of the patients, a complete list of active, suspicious, arrested and contact cases was given the County Nurse by Miss Tabor of the Sanford and Springvale Public Health Association. From this list a new set of records was made, also a spot map of Sanford and Springvale designating the location of the cases.

Three (3) patients, 2 adults and 1 child, were admitted to the Sanatorium at Hebron, Maine, for treatment. Arrangements were made for the transportation of the two adults, but the child was taken to the Sanatorium by the County Nurse.

Since the child's admission, very close touch has been kept with the family in order to know his condition. The last report showed that he had gained 8 pounds and undoubtedly could be discharged home before many months.

Seven patients have been taken to the Dispensary and Children's Hospital in Portland for X-ray and medical examination. All of these patients were either contact cases or suspicious cases diagnosed at the Tuberculosis Clinic held in Sanford, November, 1930.

At the present time, there are 9 active cases, 19 suspicious cases, 2 arrested cases and 71 contacts. One hundred and twenty-three home visits for instruction and care of these cases have been made.

The entire cost of the service including Tuberculin tests, X-rays and transportation to hospital and Sanatoria has been taken care of through the Seal Sale Funds.

Assistance has been given and arrangements made for the securing of necessary clothing for patients at the Sanatoria, also for medication and extra nourishment. Books, written for the benefit of tuberculosis patients, have been distributed among Sanford families and have been invaluable to them.

It has been necessary many times to visit family physicians in regard to patients, and make visits in behalf of patients to arrange for treatment, care and occasionally family aid.

Cases are constantly being referred to the County Nurse for home visits and treatment; and arrangements are now being made for another clinic to be held this year at which all contact and suspicious cases may be given the Tuberculin test and X-rayed when advocated by the physician.

Respectfully submitted,

CHARLOTTE BALDWIN, R. N.

LILLY C. MOBERG, R. N.

REPORT OF THE SANFORD AND SPRINGVALE PUBLIC HEALTH ASSOCIATION

To the Seletmen, Town of Sanford:

I hereby submit the annual report of the Public Health Association for the year 1931:

| | |
|---|--------|
| Total number of visits | 12,849 |
| Number of General Nursing Visits | 4,919 |
| Number of visits to babies | 1,975 |
| Number of visits to school children | 788 |
| Number of visits to maternity patients | 1,021 |
| Number of visits to new-born babies | 904 |
| Number of visits to tuberculosis patients .. | 201 |
| Number of deliveries attended | 30 |
| Number of Visits for Health Supervision | 6,159 |
| Number of instructive visits to babies, pre- school and adults | 4,166 |
| Number of instructive visits to school chil- dren | 881 |
| Number of instructive pre-natal visits | 808 |
| Number of absent visits | 304 |
| Number of Visits of Investigation | 1,238 |
| Number of Social Service visits | 907 |
| Number of visits behalf of patient | 321 |
| Number of School Visits | 533 |

The purposes of a Public Health Nursing program are to promote health, to prevent sickness and to provide adequate nursing care for the sick in their homes. These principles have been carried out by this association during the year 1931. Besides this work, the arranging for adequate care for ill people, who are not able to be cared for in their homes, and the assisting with programs whereby material relief could be given to families who have suffered because of unemployment has been part of our program.

The clinics and conferences held are as follows:

| | | | |
|---|----|------------------|-------|
| Dental clinics | 40 | Attendance | 400 |
| Vaccination clinics | 11 | Attendance | 216 |
| Baby conferences | 47 | Attendance | 1,624 |
| Conferences for under weight school children | 26 | Attendance | 1,918 |
| Tonsil and adenoid clin- ics | 5 | Attendance | 25 |

The tonsil and adenoid clinics were held at the Goodall Memorial Hospital.

The following activities were begun during the year, namely: The establishing of a Charity Fund to be used in giving emergency relief in families where there were physical abnormal conditions; the establishing of a more complete and accurate record system; the employing of an office clerk, so as to give the townspeople better service when office or telephone calls are made and also to relieve the nurses from office work, enabling them to be in the homes a greater part of the time; the establishing of a definite health program for the schools; and the transferring of the preventive Tuberculosis program to the York County Nurse, whose services are paid for from the sale of Christmas seals. Students from the training school of the Goodall Memorial Hospital have been given nursing experience with our association during the past year so as to assist them in their education as to the value and principles of Public Health Nursing in a community.

The citizens of Sanford are making contacts with the association for assistance in health problems to a greater extent than has been done since the association was started and the staff attempts to meet these demands in a manner whereby a lasting benefit will be given. It is the hope of the staff that better health has been experienced during the past year by many of the citizens through the efforts of the nursing program.

Respectfully submitted,

LAURA E. TABOR, R. N.

REPORT OF HISTORICAL COMMITTEE

Sanford, Maine,
February 15, 1932.

To the Selectmen of Sanford:

Your Historical Committee has met at regular intervals during the year with an attendance of from four to eight members.

Not much constructive work has been accomplished but there are several old records which the committee would like to secure to copy and hope to do so this coming year.

Any material relative to the early history of families of the town would be appreciated to have copies made for the records. The committee has cooperated with the Historical Committee of Benapeag Chapter, D. A. R., in copying and indexing vital records and statistics.

Respectfully submitted,

CHARLES S. PIERCE, Chairman

MARY TRAFTON, Secretary

REPORT OF HEALTH OFFICER

To the Selectmen, Town of Sanford.

Gentlemen:

Your health officer begs leave to submit the following report of health work from Oct. 1, 1931 to Feb. 15, 1932.

Frequent inspections of grocery stores, markets, restaurants and lunch carts have been made, and where suggestions were offered for the benefit of cleanliness and preservation of food from contamination, they were readily complied with.

The proprietors and help are obliged to have Health Certificates which are issued to them when they are examined by a doctor and found free from any contagious diseases.

The incinerators and dumps are controlled efficiently.

The garbage has been collected once a week and no complaints have been made.

There were a few complaints of nuisances made, which were abated without delay.

With the assistance of Miss Tabor, the children of the parochial school were examined. The defects were recorded and parents notified with the request that they solicit medical advice.

I believe the public school children were examined prior to Oct. 1, 1931.

The dairies have been inspected and a few were found which were not very clean or sanitary, however, upon advice, this defect has been remedied. Samples of milk, selected at random, are taken from the milkmen and stores, and analyzed, and a report of the result of the analysis sent to the milkmen as an endeavor to induce them to improve and keep up the quality of their milk.

During the past winter months, the village of Sanford experienced a mild epidemic of measles, which at this writing has subsided. The usual precautions were exercised to keep the disease from spreading, otherwise, we might have had many more cases.

Infectious diseases were reported as follows:

| | |
|---------------------------|-----|
| Measles | 282 |
| Whooping Cough | 24 |
| Chicken Pox | 4 |
| Infantile Paralysis | 1 |
| Diphtheria | 7 |
| Tuberculosis | 4 |
| Pneumonia | 13 |
| Typhoid Fever | 2 |

In conclusion, I wish to thank the doctors and public health nurses and the citizens in general for their cooperation.

Respectfully submitted,

W. H. KELLY, M. D.

Local Health Officer.

WOODLAWN CEMETERY

Seventy-seven bodies have been removed from Woodlawn Cemetery to Oakdale Cemetery. Later I learned that a child of Mr. and Mrs. George Gerry was buried in Woodlawn Cemetery. Not knowing the whereabouts of the mother of the child (the father is dead) I have not been able to get permission to remove the remains. I also learned that an infant child of Mr. and Mrs. George Lees was buried there, and have received permission to remove the remains.

All lots in Woodlawn Cemetery have been deeded to the Inhabitants of the Town of Sanford with the exception of four.

The expense for removing the remains, trees and brush amounts to \$513.97.

Respectfully submitted,

NEWELL T. FOGG.

February 17, 1932.

REPORT OF GOWEN MEMORIAL PARK COMMITTEE

According to Article 57 of Warrant for the Annual meeting of the town of Sanford, held on Monday, March 9, 1931, a committee of five was appointed to formulate and draft plans for the creation of a park commission, and to formulate and draft necessary ordinances for the governing of the activities of said Commission, and fixing their powers and duties, and also to authorize said Committee to inquire into the laying out of Gowen Memorial Park, and have necessary surveys made to that end, and report the same to the town for action thereon, and the necessary expense of making said survey and lay out shall be paid from the income of the fund created for the improvement and maintenance of said park.

Your committee pursuant to the vote taken at above town meeting has had made a very careful survey of the premises, and plans drawn in conformity thereto.

The property in question is an ideal location for a permanent park, and with proper development can be made a beauty spot, of which the citizens of Sanford will always be proud. It has a very fine growth of timber, borders an arm of the Mousam River, and has many natural existing advantages which in most park developments require the expenditure of vast sums of money to obtain. It is your committee's recommendation that the town authorize the election of a Park Commission in accordance with the provision of the Laws of the State of Maine. The commission to consist at present, of three members, and that the authority of the legislature be obtained to increase the membership of the commission to five members. Your committee makes this recommendation in view of the fact that it is convinced from its investigations that the ideal park commission should consist of five members, each member holding office for five years, and one retiring each year.

REPORT OF SELECTMEN, ASSESSORS, AND OVERSEERS OF THE POOR

To the Voters of Sanford:

In submitting our report for the year 1931, we want to call your attention again, as we have in past years, to the Relief Account. This account was overdrawn \$40,425.03. We have investigated every case where help has been given and firmly believe that we have kept the account as low as we possibly could. The unemployment situation in the town throughout the whole year has been realized by no one probably better than by your Overseers.

Wherever we could we have used as many men as possible who were receiving aid to work toward the support of their families, in cutting bushes, fire wood, etc., and we are very thankful to those men who have been so faithful.

At the last annual town meeting it was voted to charge fire insurance and industrial accident insurance to the Incidental Account. This together with the expense in cleaning up State Street dump, caused us to overdraw the account considerably. This account, to not show an overdraft, should be increased, as it is the dumping ground of miscellaneous expenditures, namely, salary of Selectmen, clerk to Selectmen, clerk to Town Treasurer, Truant Officer, cost of forest fire fighting, and contingent expenses.

In behalf of this Board and the Town Treasurer we wish to express our appreciation to the local banks for the advice and aid given us during this difficult year.

Respectfully submitted,

ANSON QUINT,

CHAS. G. ROBERTS,

HARRY M. TURNER,

Selectmen of Sanford.

AUDITOR'S REPORT

Mr. Anson Quint, Chairman

Board of Selectmen

Sanford, Maine

At the time of election of officers in March, 1931, the audit of the Town Records from the first of the year to the date of election had been completed and the audited warrants and receipts of the Treasurer were on file.

The same system of preparing the weekly warrants, auditing the bills and payrolls before payment has been continued through the year and a summary of each week's orders issued by the Selectmen and paid by the Treasurer has been published in the "Sanford Tribune."

All of the bills paid by the Town have had the approval of the auditor.

The same system of handling the orders for the Poor Department has been continued. A difference in color of the order distinguishes orders for groceries for the local poor and the State poor, also for clothing and fuel. The grocery list issued last year has continued to be in effect this year.

A daily cash receipts record has been installed in the Town Clerk and Tax Collector's office. This, I believe,

provides a permanent record which is worth while and also facilitates the audit and reconciliation with the Treasurer's records.

The Tax Collector's records have been checked at regular periods during the year and the collections for the fiscal year and past years proven.

The records of the Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector have been checked with my records and are, I believe, correct.

Consideration should be given to the fact that this has been a very unusual year with many unusual problems for the Town Officials to decide.- In spite of the extraordinary conditions, I have always received heartiest cooperation from each department and express my appreciation.

Respectfully submitted,

MARGARET M. SHAW,

Auditor.

Sanford, Maine
February 9, 1932.

Report of Town Clerk and Tax Collector

1931

To the Citizens of the Town of Sanford:

Your Town Clerk renders the following report for the year 1931:

Report of Vital Statistics

Three hundred twenty-nine births (329) have been recorded as received in the office of the Town Clerk during the year 1931. This shows an increase of eleven (11) births as compared with the year 1930.

Of this number, one hundred seventy (170) were male sex, and one hundred fifty-nine (159) were of the female sex.

The number each month is shown below:

| | 1931 | 1930 |
|-----------------|-----------|-----------|
| January | 28 | 35 |
| February | 32 | 22 |
| March | 23 | 27 |

Deaths

One hundred thirty-six deaths (136) were recorded as occurring within the town, being a decrease of forty-six (46) as compared with the year 1930.

Of this number seventy-one (71) were of the male sex and sixty-five (65) were of the female sex.

One hundred nine (109) were buried within the town and twenty-seven (27) were taken outside for burial. In addition to this, twenty-four (24) were brought in from the outside for burial.

The number each month is shown below:

| | 1931 | 1930 |
|-----------------|-----------|-----------|
| January | 12 | 19 |
| February | 12 | 14 |
| March | 3 | 14 |

DOG LICENSES**1931**

| | |
|--|------------|
| 484 Licenses, Male Dogs | \$ 484.00 |
| 123 Licenses, Spayed Female Dogs | 123.00 |
| 74 Licenses, Female Dogs | 370.00 |
| 3 Kennel Licenses | 30.00 |
| | <hr/> |
| | \$1,007.00 |
| Paid to Treasurer | \$1,007.00 |

FEES AND LICENSES**1931**

By vote of the town all fees and licenses, except dog licenses, were payable to the town. The following report is rendered of the amount received and paid to the Treasurer account of fees and licenses for the year 1931:

| | |
|------------------------------------|-----------|
| Received account of licenses | \$ 329.00 |
| Received account of fees | 533.50 |
| | <hr/> |
| Total | \$ 862.50 |
| Paid to Treasurer | \$ 862.50 |

TAX COLLECTOR'S REPORT**1931**

The 1931 committment of Poll Taxes reached the sum total of \$11,196.00; the Real Estate and Personal

Property committment, \$443,519.48; Excise Tax committment, \$22,000.00; making a total committment of \$476,715.48, being an increase of \$3,579.06 over the 1930 committment.

Poll taxes were, as in prior years, committed May 1st, to comment on the collection of this tax seems unnecessary; all known means have been used to collect, work has been furnished to many as a means of making the payment and this has saved some abatements, committment to jail would not help, except perhaps in a few rare cases which I could recommend. I would call your attention to the list of abatements, 235 out of 3732 were abated for various reasons, as set forth in the list below; 109 polls were in hands of Constables at the time of making of this report. Any errors noted will, if reported to this office, receive attention and collection made.

AUTOMOBILE EXCISE TAX

1931

The committment for Excise Tax for 1931 was \$22,000.00, this committment can only be made by comparison with the year prior; the fact that fewer new cars were purchased than in 1930 caused the collections to be only \$20,907.07, being \$1,092.93 less than the amount committed; in 1930 an excess of \$2,601.04 was collected over the committment of \$22,500.00—3484 vehicles were taxed in 1930; 3531 were taxed in 1931; an increase of 47 over 1930, this can be explained as follows: owing to the change in the law it was possible in 1931 to license automobiles for one-half the fee—and to tax same for one-third the tax, on and after September 1st, the car would then be licensed to March 1st of the following year, this caused the licensing of many second-hand cars after September 1st.

REAL ESTATE TAXES

1931

The collection of real estate and personal property taxes has been the real problem, owners of real estate

have had the unemployment condition to meet, this means empty rents or the lowering of rentals to the tenants, your merchants also had the condition of unemployment to meet, and if there is no money being earned none can be spent, both the merchant and real estate owner have met their taxes to the town in full when possible and by installments where full payment at once was impossible, this office has accepted part payments in any amount agreeable to the tax payer and will so continue, I will assist in any way that I can to help the tax payer to meet his full payment. It was necessary to advertise 618 parcels of real estate for 1931.

LINWOOD J. EMERY,

Town Clerk and Collector.

POLL TAXES

1931

ANNUAL REPORT
OF THE
School Department
OF THE
Town of Sanford
Maine

For the Year Ending December 31, 1931.

SCHOOL COMMITTEE FOR 1932-33

JOHN V. TUCKER, Chairman, term expires March, 1932.

DR. A. C. HANSCOM, term expires March, 1933.

OLIVIA W. MOULTON, term expires March, 1934.

Superintendent of Schools and Secretary of the School Committee, James A. Hamlin; residence Main Street. Telephone, Office, 265; residence, 308-M. Office hours, 4 to 5 P. M.; Saturdays, 10 to 11.30 A. M.; while the schools are in session.

Office clerk, Millicent A. Harmon, residence 10 Edmund Street, Springvale. Office hours, 8.30 to 11.30 A. M.; 1.15 to 5 P. M.; Saturdays, 8.45 to 11.30 A. M.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee of the Town of Sanford:

I herewith submit to you and to the citizens of Sanford the following report concerning your public schools, this being the thirty-third in the series of annual reports from the Superintendent of Schools of this town.

No one, without fooling themselves, can deny that our town, our country, and the world is in the midst of a tremendous crisis. In fact the whole world is at war with the most ancient and the most dangerous foes of the human race, unemployment, need, and depression. The American people have always met the hard, unpleasant conditions of every conflict with fortitude and courage, and have always conquered the obstacles that confronted them.

During such times as these, the task of administering the financial affairs of the schools is a tough one. In any community, the schools, even the most economical ones spend from thirty-five to forty per cent of the communities' taxes. School officials are obliged to face two points of view, both of which are unchangeable. The first is evident, every dollar of unnecessary taxation should be avoided. The second is equally as serious. In times of depression the enrollment in the schools increases and the problems multiply. The need for an education is much greater when the competition for each position is increased. In our homes our children must be fed and clothed, no matter whether times are good or bad. In the same way, the children must be educated. Many of our teachers have dependents, or are the sole supporters of families. Teachers are not common laborers. Teaching is a profession, and a profession that requires outstanding ability, character, years of training, and a large capital invested in schooling.

In the past pupils have left school in the sixth or seventh grades and have soon earned more than the teachers were paid. Men have come into my office and

asked me, "What is the use of educating our boys and girls, when they can earn more with a strong back than they can with a trained mind?" This is not true today and it should never be true. The teacher is the heart of the school system, and every economy should be exercised and every luxury and unessential should be eliminated before any steps should be taken to impair the heart of the system.

In a factory the morale of the workmen who deal with inanimate objects is important, but in a school where the teachers deal with live boys and girls, it is of much greater importance. We have traffic signs to protect the bodies of our boys and girls, saying, "School, go slow." I believe the same sign should be borne in mind in curtailing the education of your children.

This idea has been expressed by Governor Alfred E. Smith, who says:

"Whatever may be the exigencies, one thing must not happen. There must be no curtailment of educational facilities. The school systems for the education of our children in every State must be kept up to 100 percent efficiency.

"A State can afford to lose time on the construction of a road, a bridge, or a building and by speeding up construction at a later time possibly catch up, but education must be continuous.

"Time lost in preparing our children to take their places in the world cannot be made up. There are only certain years in which the great majority of them can attend school and during that period it is the solemn duty of every State to provide full and complete education.

"At no time in our history was there greater need for the influence of education upon our future citizens. It goes without saying that at this critical period, it would be a great mistake to weaken the services of any of our educational institutions. On the other hand they should be strengthened, no matter what the drain may be. Let the watchword be therefore—not only will we not permit them to fall back in their educational serv-

ices, but we will, in spite of the demands upon us, do what we humanly can to improve them."

The cost of education in Sanford, either from a per capita or valuation basis is very low compared with the rest of the State, and the State of Maine stands thirty-sixth, out of the forty-eight states in the salary paid her teachers. No state north of the Mason and Dixon line has such a low wage scale. Maine's wage scale is \$225 lower than that of the adjoining State of New Hampshire.

The total enrollment in the High School is about seventy more than ever before recorded, and it would have been absolutely impossible to do effective work if it had not been for the generosity of the people of Sanford in providing more room. The price of tuition for pupils coming from the towns that do not support a High School had been increased to \$90, and is now billed every half year to correspond with the closing of our fiscal year. This has given us nearly \$2,000 extra money to use this year.

TEACHERS

There have been very few changes this year in the teaching force. We have three new teachers in the High School and two in the grades. In the High School, Helen Emery, head of the English Department and Dorothy Jordan in the Latin Department were married. Berta Rogers accepted a position in Deering High, so that she might be at home. We were very fortunate in securing Rufus Grindle, who has been principal of smaller high schools, and Head of the English Department in Dean Academy, to take charge of the English work. Mr. Grindle recently received his Master's Degree from the University of Maine. Miss Edith Lenfest, who was an assistant at Bates last year, is doing very good work in the Latin Department. Miss Dorothy Hanson is a distinct addition to the school as a teacher of English and French. In the grades Eleanor Walker and Marion Clark were married, and Vannie Oakes Duplisea and Bessie Littlefield were added to the force. The former was a Sanford teacher with many years of experience,

and the latter was an experienced Portland teacher. Miss Nash, the Domestic Science teacher in the grades, decided not to return after a year's leave of absence. We secured Miss Phyllis M. Johnson, of Portland, for this position.

The instrumental work in the grades and High School has been in charge of William O. Hayden, and the results have caused considerable favorable comment, especially the work of the band at the football games.

All school officials appreciate the help and cooperation we have received during the past year, and wish to acknowledge our gratitude for all the assistance that has made the work both pleasant and profitable.

Respectfully submitted,

JAMES A. HAMLIN,

Superintendent of Schools.

ANNUAL REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Sanford:

Your School Committee beg leave to submit the following report concerning the schools of Sanford for the year ending December 31, 1931.

The past year has been a difficult one from a financial point of view, but the school work has been decidedly successful. The enrollment in both grades and high school has been very much larger than ever before, in spite of the fact that there were 150 less children between the ages of 5 and 21 in town. This loss in the census made \$450 less State Aid. Of course, every one feels that it is much better for pupils to be in school than it would be to have them loafing, but yet textbooks and supplies for these extra pupils cost money.

We feel that the budget submitted to you last year was a correct one, and that we could have paid all bills connected with the regular school work with the money asked for, but it seemed best to us and to the Building Committee for us to accept and pay several unforeseen bills connected with the High School addition. The Town raised \$40,000 to build and equip the new part of the school, and the contracts were let within that figure. When the work was started quick sand was found under one corner, and the extra excavation and cement work cost nearly \$800. Other unforeseen difficulties like clogged water pipes brought the total extra expense to over \$1400. The Building Committee could not exceed the amount voted, so it became necessary for the School Committee to pay for this amount of supplies and equipment from the supply and repairs and equipment account. This accounts for the overdraft in any school account for the past ten years.

We feel that every economy should be exercised next year, but any curtailment in school expenditures at the expense of your children's preparation for life would be the poorest kind of economy.

We would call your attention to the report of the Superintendent of Schools for a detailed report about the schools and the financial expenditures.

We would recommend the following appropriations:

| | |
|-------------------------------|-------------|
| High School | \$30,000.00 |
| Common School | 52,500.00 |
| Industrial Education | 8,000.00 |
| Text Books and Supplies | 8,000.00 |
| Repairs | 7,000.00 |
| Superintendence | 2,600.00 |
| Evening School | 900.00 |
| Incidentals | 1,600.00 |

Respectfully submitted,

JOHN V. TUCKER

ALPHEUS C. HANSCOM

OLIVIA W. MOULTON

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

February 15, 1932

Mr. James A. Hamlin
Superintendent of Schools
Sanford, Maine

Dear Mr. Hamlin:

I beg to present herewith my seventh annual report of the High School. The work of the school has progressed steadily and satisfactorily during the year.

There have been only three changes in the faculty, Mr. Rufus M. Grindle, head of the English department, Miss Edith Lenfest, Latin, and Miss Dorothy Hanson, English and French, take the place of Miss Helen Emery, Mrs. William Clark, and Miss Berta Rogers. All have entered heartily into the school system and are doing good work.

There is no depression in the high school. Approximately 475 pupils have registered and the legal attendance is 451, an increase of 75 pupils, or 17 per cent. A large percentage of the pupils have maintained a high standard of attendance and scholarship. One hundred seventy-three pupils were present every day during the fall term.

The summary of the reports sent to parents at the end of the half year indicates an unusually high degree of scholarship and achievement. Out of 419 reports checked, 96 were very good, 138 good, 150 fair, 29 bad, 6 very bad. Too much credit cannot be given to both teachers and pupils for this really remarkable showing.

In this connection I would call your attention to a study which I have made this year of teacher loads and hours of work. Assuming 1250 pupil-periods as the

maximum load that any teacher should carry, I find our average load to be 909 pupil-periods per week. In a 5-day week they work on an average 10.03 hours per day, for which they receive an average of 76 cents per hour. They have spent on their education and professional training an average of \$3665 each. Their total experience averages 5.75 years, of which 4.2 years have been spent in the service of the Sanford schools. It seems to me that these are thought provoking figures.

Some changes have been made in the curricula this year. Social Science courses introduced last year have been continued and are providing for a real need among the non-college pupils. We are experimenting at the present time in the Commercial Course with a view to more adequately preparing the girls to take up positions as stenographers and bookkeepers. Naturally, no expansion is being considered until the financial outlook becomes clearer. The afternoon help class, which was started with Mrs. William Clark in charge, and has since been continued by different members of the faculty, has proved very successful in preventing failures. The cafeteria, this year, is very successful under the supervision of Mrs. Alice Eaton. A splendid quality of food, both hot and cold dishes, is served at a reasonable price. We have tried to buy quality foods at the cheapest rates and prices have been made as reasonable as is consistent with a safe margin for expenses.

This year, a beginning has been made of supervised study which I hope will be carried further in the coming years. The plan is thoroughly sound pedagogically. It has the approval of the most progressive educators and it appeals to common sense as the way of helping the great number of pupils who labor under the handicap of bad home conditions for study.

I have no recommendations to make at this time in view of the stagnation in business and the acute financial situation. But I cannot refrain from saying in closing something that you already know, that the teachers of the high school are ready at all times to do everything they can for the good of this school. But as our im-

mediate interest is in the young people of this community, I want to say just as strongly as possible that there should be no curtailment in the education of our boys and girls. We should not make them even in this critical time bear the burden of the mistakes of their elders.

Respectfully submitted,

GEORGE C. PURINGTON,

Principal.

REPORT OF DIRECTOR OF VOCATIONAL TRAINING

To the Superintendent of Schools:

I herewith submit my twelfth annual report of Vocational Training as given in the Sanford Public Schools.

The instruction in the three upper grades of the elementary schools is of the trade-informative type. It is not only arranged for manipulative skill, but for guidance in the choice of a life work. The instruction is as thorough as time and the age of the students permit. Woodworking, Mechanical Drawing, Electric Wiring, Plumbing, and Sheet-metal work are the subjects taught the boys. Instruction and training is given the girls in Cooking, Sewing, and Household Economics.

The first two years of the High School course is Industrial Arts. Instruction is given in Advanced Woodwork and Cabinet Making, Mechanical Drawing, and Architectural Drawing.

A Smith-Hughes Textile Course is given in the last two years of the High School course.

The Home Economics course in the High School is of four years duration. The course is complete in its equipment and contents, and amply serves the requirements. This course is one of the few in the State that complies with the Smith-Hughes requirements.

All of these courses are rigidly inspected by both State and Federal Government Inspectors yearly for subjects taught, hours, methods of teaching, and qualification of teachers. This is done before either State or Federal Aid is received.

Sanford receives more State and Federal money for Vocational Courses in its schools than any other community of its size in the State.

Because of the increased number of students in the schools, the classes are larger than usual.

The enrollment in the Evening School is about the same as last year. Two hundred and twenty-four students enrolled at the beginning of the school year. An increasingly large number of our evening school students are those who have been obliged to stop school because of economic conditions and who now are working in Evening School for High School credit. The Evening School does occupy an important place in an industrial town's educational program, and will become more and more effective as time goes on. The Federated Women's Clubs and the American Legion are now backing a program for adult education, and the results will soon be evident.

State and Federal aid is received for all courses that are given in the Evening School. This makes possible its low cost to the town.

I wish to express my thanks to all of my co-workers for their fine spirit of cooperation in this work; and also to the townspeople and the School Board for their part in our growth.

Respectfully submitted,

LESLIE W. MacKAY,

Director of Vocational Education.

CALENDAR 1932-33

Spring term, February 29, 1932 to April 22, 1932.
Eight weeks. Vacation one week.

Summer term, May 2, 1932 to June 17, 1932, High School. Seven weeks. May 2 to June 10, 1932, Grade Schools. Six weeks.

Fall term, September 13, 1932 to December 23, 1932.
Fifteen weeks. Vacation one week.

Winter term, January 3, 1933 to February 24, 1933.
Eight weeks. Vacation one week.

Spring term, March 6, 1933 to April 28, 1933. Eight weeks. Vacation one week.

Summer term, May 8, 1933 to June 23, 1933, High School. Seven weeks. May 8 to June 16, 1933, Grade Schools. Six weeks.

School year: High School, thirty-eighth weeks.
Grades, thirty-seven weeks.

This calendar is subject to change whenever it seems advisable.

HOLIDAYS

The schools have the following holidays:

Patriot's Day, April 19.

Memorial Day, May 30.

Armistice Day, November 11.

Two days at Thanksgiving.

NO SCHOOL SIGNALS

The No School Signal will not be used except in extreme cases where there can be no doubt about its advisability. On stormy mornings parents are urged to use their own judgment about sending their children, as one street may be nearly impassable while others are all right.

Signals:

3 blasts blown at 7.50—No school for the High School.

3 blasts blown at 7.45—No school for the Grades for the forenoon session.

4 blasts blown at 7.45—No school for the Sub-Primary, 1st, 2nd and 3rd Grades for the forenoon session.

3 blasts blown at 11.30—No school for the Grades during the afternoon session.

4 blasts blown at 11.30—No school for the Sub-Primary, 1st, 2nd and 3rd Grades during the afternoon session.

REPORT OF THE BUILDING COMMITTEE FOR ERECTING AN ADDITION TO SANFORD HIGH SCHOOL

At the regular Town Meeting held in March, 1931, it was voted to raise \$30,000 for the purpose of building and equipping an addition to Sanford High School, and a committee consisting of Edward Titcomb, Howard Perkins, Roy Stiles, and Kenneth Sanborn, together with the three members of the Superintending School Committee were appointed to have charge of the work. The committee organized March 18 with Dr. A. C. Hanscom as Chairman, and Superintendent James A. Hamlin as Secretary.

On March 23, the Committee voted to authorize Harry S. Coombs, the architect of the original building, to draw up plans and specifications according to the general ideas presented at the previous meeting. These plans were submitted to the committee May 6, and it was voted to obtain bids for the various kinds of work required. These bids were opened May 27. From these bids your committee found that the needed changes would cost more than \$30,000, so a Special Town Meeting was called June 6, at which time it was voted to raise \$40,000 by a bond issue to build and equip the new addition.

On June 16, the Committee awarded the contracts as follows:

| | | |
|----------------------|---------------------|-------------|
| General Contract: | H. Trembley | \$26,240.00 |
| | Lewiston | |
| Heating and Plumbing | Fred H. Parant . . | 6,244.00 |
| | Sanford | |
| Electrical Work | G. A. Close | 1,355.00 |
| | Portland | |

The Committee decided that it would be cheaper to have a local inspector rather than pay the architect the extra fee for inspection, and Leslie W. MacKay was

engaged for this work. On July 29 the contract for installing oil burners was awarded to N. J. Prescott for \$2,000. All these contractors were obliged to furnish bonds for the full amount of their contracts that all work should prove satisfactory for one year from date of completion.

All the work has been finished in a very satisfactory manner, and a public inspection of the building was held on the evening of November 19. Very many of the citizens were present at this time.

Several unforeseen extras occurred in the construction of the building, like quick sand under one corner of the building. These extras used up money that was planned for equipment so that the School Committee had to pay for a considerable amount of equipment from their funds.

Every contractor agreed to use local labor as much as possible. Your Committee feel that they did very well in this respect, but they did not receive enough applications for some kinds of work. In July there were twenty-eight local men and twelve outside men on the job, and in August there were thirty-two local and twelve outside help employed.

The Financial Statement of all expenditures by your Committee is as follows:

RECEIPTS

| | |
|------------------------------------|-------------------|
| Raised by Bond Issue | \$40,000.00 |
| Received discount on Furniture ... | 26.28 |
| Refund from School Department .. | 24.75 |
| | ————— \$40,051.03 |

EXPENDITURES

| | | |
|-------------------------------------|-------------|-------------------|
| General Contract | \$26,960.89 | |
| Heating and Plumbing | 6,244.00 | |
| Electrical Contract | 1,355.00 | |
| Oil Burners | 2,000.00 | |
| Furniture | 1,314.00 | |
| Architects Plans and Supervision .. | 2,146.19 | |
| Installing Seats | 24.75 | |
| | | <hr/> \$40,044.83 |
| Balance | \$ | 6.20 |

\$2,873.62 of this amount has been paid since the town accounts closed December 31.

| Balance carried forward to 1933 .. | | | 285.19 |
| | | \$113,089.82 | \$113,089.82 |

It has been suggested that the names of those who have received aid from the Town be omitted from the Annual Report. However much the Selectmen might like to grant the request, the State law is very plain and provides a penalty of \$50.00 for each offense, if any town official refuses or neglects to perform the requirements of the law, which is that all names shall be published.

WELFARE AND PENSIONS

| | Receipts | Expenditures |

**EXHIBIT—SHOWING COST OF WOOD CUT ON
THE FRANK HURD LOT**

| | |
|---|------------|
| Frank Hurd | \$1,436.50 |
| Transportation of Men | 264.00 |
| Labor | 1,767.87 |
| Yarding | 1,429.00 |
| Surveying | 65.45 |
| Insurance | 112.64 |
| Transporting wood from lot to Sanford | 2,600.78 |
| Sawing 7,600 feet of lumber | 61.00 |

\$7,737.24

Credit for lumber 250.00

Total cost of 1414 Cords of wood delivered
in Sanford \$7,487.24
Cost per cord delivered in Sanford \$5.30.

By purchasing the above lot, more than \$1,100 in back taxes were collected, the greater part of which would have remained uncollected, if this project had not been carried out.

WELFARE AND PENSIONS

The following list is published simply as an exhibit showing to whom money was paid from the general relief account.

It includes money paid for groceries, rent, clothing, lights, medicine, hospital bills, labor cutting bushes, labor on wood, and other supplies.

HIGHWAY DEPARTMENT

Garage Account

*The income from the Highway Department trucks was based on a per diem charge as follows:—

| | |
|--------------------------------|--------|
| Ford, Model T. | \$2.00 |
| Ford, new | 4.00 |
| Ford, Commissioner's Car | 1.00 |
| Chevrolets, 1 ½ T | 3.00 |
| Chevrolets ½ T..... | 2.00 |
| Cascos | 4.00 |
| F. W. D. | 5.00 |
| Monarch Tractor | 5.00 |
| Adam's Grader | 2.00 |

Until this year, no operating cost of these trucks has been available. Since July 1st the operating cost of every Highway truck has been kept in detail. These costs showed that the trucks that were being used the greater part of the time could be cared for on the above per diem basis. However, the trucks that were used less than half the time, would not earn enough on the above schedule to take care of their actual operating expense. Therefore, it was necessary to make an adjustment to cover this expense.

By having all of the Highway trucks housed in one garage has proved our assertion, made early in the municipal year, that it was a move for economy. By purchasing oils, gasoline and new parts direct and having a full time mechanic do the repair work; a saving for the six months period, July 1 to December 21, of \$426.50 was made possible.

The following table shows the actual operating cost of all of the Highway trucks and also the Town Car:

HIGHWAY DEPARTMENT

OPERATING COSTS OF HIGHWAY TRUCKS

From July 1 to December 31, 1932

| | | TOWN OF SANFORD | | | | | | | | |
|--------------------|-----|--------------------------------|----------------|-------------|-------------|-----------------|---------------|--------------------|----------|--|

In Memoriam

FRANK D. FOLSOM

No man ever held the standard of responsibility higher than he. His words and acts are ours, and all he so nobly did is living still.

REPORT OF THE TOWN CLERK AND TAX COLLECTOR

1932

To the Citizens of the Town of Sanford:

Your Town Clerk renders the following report for the year 1932:

Report of Vital Statistics

Three hundred four birth (304) have been recorded as received in the office of the Town Clerk during the year 1932. This shows a decrease of twenty-five (25) births as compared with the year 1931.

Of this number, one hundred sixty-two (162) were of the male sex, and one hundred forty-two (142) of the female sex.

The number each month is shown below:

| | 1932 | 1931 |
|-----------------|-----------|-----------|
| January | 27 | 28 |
| February | 24 | 32 |
| March | 26 | 23 |
| April | 24 | 29 |
| May | 39 | 30 |
| June | 24 | 25 |
| July | 30 | 24 |
| August | 22 | 25 |
| September | 18 | 30 |
| October | 27 | 26 |
| November | 24 | 22 |
| December | 19 | 35 |
| | <hr/> 304 | <hr/> 329 |

Deaths

One hundred fifty-four (154) deaths were recorded as occurring within the town, being an increase of eighteen (18) as compared with the year 1931.

Of this number, ninety-five (95) were of the male sex, and fifty-nine (59) of the female sex.

One hundred twenty (120) were buried within the town, and thirty-four (34) were taken outside for burial. In addition to this, twenty-five (25) were brought in from the outside for burial.

CLERK'S REPORT

The number each month is shown below:

| | 1932 | 1931 |
|-----------------|-----------|-----------|
| January | 15 | 12 |
| February | 9 | 12 |
| March | 18 | 3 |
| April | 10 | 17 |
| May | 17 | 14 |
| June | 12 | 17 |
| July | 16 | 12 |
| August | 17 | 12 |
| September | 12 | 7 |
| October | 9 | 8 |
| November | 10 | 8 |
| December | 9 | 14 |
| | <hr/> 154 | <hr/> 136 |

Marriages

One hundred five (105) marriages were recorded in the office of the Town Clerk for the year 1932, being a decrease of eight (8) as compared with the year 1931.

The number each month is as follows:

| | 1932 | 1931 |
|-----------------|-----------|-----------|
| January | 4 | 2 |
| February | 3 | 3 |
| March | 7 | 4 |
| April | 8 | 10 |
| May | 15 | 6 |
| June | 5 | 13 |
| July | 7 | 3 |
| August | 9 | 15 |
| September | 11 | 17 |
| October | 18 | 15 |
| November | 8 | 20 |
| December | 10 | 5 |
| | <hr/> 105 | <hr/> 113 |

Dog Licenses

Six hundred ninety (690) licenses were issued during the year 1932, for which the sum of ten hundred eight (\$1,008.00) dollars was received and paid to the Town Treasurer.

The following licenses were granted:

| | |
|--|-----------|
| Four hundred seventy-eight (478) male dogs | \$ 478.00 |
| One hundred thirty-five (135) spayed female dogs | 135.00 |
| Sixty-seven (67) female dogs | 335.00 |
| Six (6) Kennel Licenses (10 dogs each) | 60.00 |

\$1,008.00

CLERK'S REPORT

Fees and Licenses

Received account of fees and licenses for 1932\$ 610.00
Same paid to treasurer.

TAX COLLECTOR'S REPORT

1932

The 1932 commitment of Poll Taxes reached the sum total of \$10,950.00; the Real Estate and Personal Property commitment, \$527,552.75; Excise Tax commitment, \$17,000.00; making a total commitment of \$555,502.75 being an increase of \$78,787.27 over the 1931 commitment.

Poll taxes were, as in prior years, committed May 1st. To comment on the collection of this tax seems unnecessary. The unemployment of the majority of tax-payers has made the collection of poll taxes especially difficult in comparison with prior years. The overseers of the poor have finished work, also the road commissioners, for a large number of poll tax payers who would have been unable to pay otherwise. There are at the time of this report but seventy unpaid poll taxes, which are in the hands of the constables. It has been necessary to take poll taxes in partial payments in many cases.

It has been necessary to abate two hundred forty-two (242) poll taxes for various reasons as shown in the list which follows.

It will be noted that the outstanding poll taxes are in the amount of \$217.91. This amount is uneven, owing to the fact that there are still some poll taxes on which partial payments have been received, and the balance is uncollected to date. With reference to abatements, would say that many abatements could be eliminated if the census takers would inquire into the facts regarding compensation, cripples and men over 70 years of age. This makes it difficult for the Collector and causes unnecessary abatements. Any errors noted, will, if reported to this office, receive attention and collection made.

AUTOMOBILE EXCISE TAX

1932

The commitment for Excise Tax for 1932 was \$17,000.00. This commitment can be made only by comparison with the year prior. The amount of \$16,246.06 has been collected for the year 1932, being \$753.94 less than the commitment. 2,954 vehicles were taxed in 1932; this being 577 less than for the year 1931. There is little comment to be made on the excise tax situation as apparently less people were riding and less new cars purchased in 1932.

CLERK'S REPORT

REAL ESTATE TAXES

1932

The collection of Real Estate and Personal Property Taxes has been the real problem. Unemployment, empty rents, and the necessity of lowering the rents has decreased the income greatly of the real estate owner. Personal property taxes have also been a problem. To enforce the extent of the law in these cases would have been disastrous, and as your merchants have been barely making a living and in many cases have, and in still are, paying their tax in installments. This refers also to other personal property tax payers.

It was necessary to advertise the property of 1,003 real estate owners for the year 1932. Considerable comment has been directed to the collector for this advertising and the mailing of notices to owners of real estate on which the taxes were unpaid on December 21, 1932. This criticism is unjust for the fact that the collector can do nothing else according to tax laws. He has stood willing to assist the property owners in paying their taxes by accepting partial payments in any amount that the property owner felt that he could pay. A casual inspection of the tax collection records for the year 1932 will substantiate the fact that partial payments on real estate have been greatly in excess of any year on record for the town and we are still receiving payments by installments.

This office is glad to assist the taxpayer in any way that it can, but there are certain laws that must be complied with, and the collector has no voice in the matter.

LINWOOD J. EMERY,
Town Clerk and Tax Collector.

REPORT OF THE BOARD OF ENGINEERS SANFORD FIRE DEPARTMENT—1932:

To: The Municipal Officers of the Town of Sanford:

The Board of Engineers of Sanford Fire Department hereby submit their report for the year ending December 31, 1932:

This department has responded to 294 alarms, 42 bell, 249 still, 3 house calls, this being 72 more than for the year 1931 and the largest number of alarms of record for the department.

The increase in number of still alarms is due to the use of telephone for chimney and fires of minor nature rather than sounding a bell alarm, this method gives quicker response and saves the necessity of calling the entire department; we continue to recommend the use of the phone for fires of this nature.

Your equipment at the fire station is in excellent condition due to the continued good care by the permanent men; these men have made 1,125 business inspections and 180 inspection cards have been issued to property owners. The thanks of the Board of Engineers is hereby extended to these men for their efficient and general attendance to their respective duties during 1932.

This department shows an overdraft of \$39.17 in its appropriation, this was caused by the payment of \$177.20 for forest fire fighting. The department had some of the worst forest fires of record for several years, forest fire pumps were used for 115 hours during the year, 14 continuous hours being required at the Lion Hill fire.

Your Board of Engineers extend to the officers and members of the department their sincere thanks for their loyalty to duty and services rendered.

It is with regret that we note the passing of Sanford Mills Department, they being disbanded during 1932; we extend to this department our thanks for past services rendered and to Springvale Department for their readiness to respond when needed.

Respectfully submitted,

VON E. GERRY, Chief,
LINWOOD J. EMERY, 1st. Asst.,
ROBERT RANKIN, 2nd. Asst.

REPORT OF CLERK OF SANFORD FIRE DEPARTMENT

Sanford, Maine, January 1, 1933.

To the Municipal Officers of the Town of Sanford Maine:

I hereby submit the following report of the Sanford Fire Department for year ending December 31, 1932.

The Department has responded to 294 alarms, 42 bells, 249 stills and 3 house calls.

| | |
|--|----------------|
| Total value of property endangered | \$1,034,500.00 |
| Total damage on property | 11,888.15 |
| Total insurance paid on property | 9,095.15 |

| Total gallons of chemical used | 1,185 |
| Total feet of ladders raised | 3,608 |
| Miles of apparatus traveled | 1,058 |

Respectfully submitted,

G. F. FERGUSON, Clerk.

THE ANNUAL REPORT OF THE BOARD OF ENGINEERS OF THE SPRINGVALE FIRE DEPARTMENT

To the Municipal Officers, Town of Sanford:

The Board of Engineers of the Springvale Fire Department, hereby submit, their annual report for the year ending December 31, 1932.

The Springvale Fire Department has just passed the most active year in its history. We have answered a total of 126 calls which greatly exceeds any year on our records. Through early discovery and prompt response by the Department, the fire loss has been kept to a surprisingly low figure.

The Department has made approximately 700 building inspections during the past year and we wish to express our thanks to the property owners who have given us such valuable cooperation in the matter of elimination of Menaces to Public Safety and Fire Hazards.

For a more detailed account of the activities of this Department we would refer you to the Clerk's Report.

Your equipment in our custody is in excellent condition and the Station is in very good repair and will need only a few minor repairs for the coming year.

We have discarded the Robinson Truck which has been useless to us for several years and have replaced it with a truck which the Permanent Men have rebuilt at a very small cost. This truck will carry our Forest Fire Equipment and will relieve the Chemical Truck of part of its load. The Chemical Truck for several years has been loaded with about double its intended capacity. This excessive overload caused considerable trouble and expense in the matter of repairs to the truck.

Through the application of rigid economy to our expenditures we have been able to keep well within our greatly reduced appropriation. Our largest expenditure for the past year was the purchase of 500 feet of 2½ inch hose. This purchase was unavoidable. We do not believe that any further reductions in the appropriation for this department should be made, as we have operated the past year as economical as possible and still maintain our equipment in first class condition.

It is our opinion that the Town of Sanford is entitled to a lower insurance rate than that which has prevailed for the past several years. Recent improvements in our fire protection facilities, namely: Connection of our two water supplies and also the connection of our fire alarm systems. These improvements, together with our low fire loss during the past five years should have a tendency to reduce our fire insurance rates, especially in the "High Value or Mercantile Districts." We would suggest that a new survey by the underwriters be requested this coming year.

We wish to avail ourselves of this opportunity to express our thanks to the Permanent and Regular Members of this Department for the unselfish loyalty with which they have served us this past year and we also extend our thanks to the Officers and Members of the Sanford Fire Department for their hearty cooperation.

Respectfully submitted,

CLYDE E. HARTFORD,
RAYMOND Y. LORD,
STANLEY G. TURNER.

REPORT OF THE CLERK OF THE SPRINGVALE FIRE DEPARTMENT

To the Municipal Officers of the Town of Sanford, Maine:

I hereby submit the following report of the Springvale Fire Department from January 1, 1932 to December 31, 1932.

The Company has responded to 126 alarms, consisting of 99 stills, 14 bells, 7 out-of-town and 6 house calls.

The Company has also made 17 inspections and held 5 drills.

| | |
|---|--------------|
| Total value of property endangered | \$328,600.00 |
| Total damage to property endangered | 2,050.45 |
| Total insurance on property damaged | 1,500.45 |
| Loss | 500.00 |
| Number of feet of hose laid | 4,000 |
| Number of feet of ladder raised | 2,523 |
| Number of gallons of chemical used | 1,972 ½ |
| Number of gallons of Foamite used | 10 |
| Number of miles apparatus traveled | 264.4 |

Respectfully submitted,

CARLTON P. BICKFORD, Clerk.

REPORT OF HEALTH OFFICER

Sanford, Maine, December 31, 1932.

To the Selectmen, Town of Sanford, Maine:

Gentlemen:

Your Health Officer herewith submits his report of health work from February 15th to December 31, 1932.

The health conditions of our town during the past ten and one-half months have been favorable.

We have not had an epidemic of any disease, yet, we had a few sporadic cases of the various communicable diseases, as follows:

| | |
|------------------------------|----|
| Whooping Cough | 13 |
| Measles | 59 |
| Chicken Pox | 17 |
| Pneumonia | 16 |
| Scarlet Fever | 5 |
| Diphtheria | 4 |
| Tuberculosis | 21 |
| Influenza | 2 |
| Meningitis (Tubercular) | 1 |
| Encephalitis | 1 |
| Undulant Fever | 1 |

There were no cases of Small Pox in Sanford.

There were no diseases that could be traced to the food, milk, water or ice supply.

Free vaccination was given with the assistance of the Public Health Nurses in the Town Hall, one week in March, and one week in August to all that applied. Quarantine of communicable diseases have been maintained and fumigation and disinfection carried out when and where required to prevent further spread of the disease. Seventy-seven cultures were examined for the purpose of discovering "carriers" of disease germs.

During the first few months of this year, all cows whose milk or cream is sold in Sanford have received the Tuberculin Test.

The dairies whose products are sold in town, have been frequently inspected and suggestions for sanitary improvement were given when advisable, which were complied with.

Many samples of milk and cream have been selected at random from the vehicles of the milk-men and stores, and with a few exceptions were found satisfactory as to cleanliness and food value.

Occasional visits were made to hotels, restaurants, lunch-wagons, stores, markets and barber shops for sanitary inspection.

All food handlers have received a physical examination by a physician every six months.

No person is allowed to work in a public eating or drinking place, store or market, who has a communicable disease of any kind.

Samples of water from the Sanford Water District are sent monthly to the State Chemical Laboratory for analysis and a report of the results are received at the office in due time.

The results of the water examination have never shown any thing that could be classed as a menace to the health of the consumers.

There were several complaints of nuisances, which were promptly abated.

The garbage is collected once a week, and apparently satisfactory to all, as I have had no complaints.

The incinerators and dumps are controlled in an efficient manner.

With the assistance of Miss Tabor, all children in the Public and Parochial grade schools have received a physical examination, and where defects were found, the parents were notified, with a request that they solicit medical aid for the child.

A detailed report of our work in this line will be found in the section devoted to the School Department.

Antitoxins and vaccines purchased and given free to the people of Sanford from January 1st, to December 31, 1932, \$148.20.

As Town Physician, the writer has attended several cases of illness daily among the families of the unemployed.

In conclusion, I wish to extend my sincere thanks to the doctors, public health nurses and the citizens in general for their cooperation.

Very truly yours,

W. H. KELLY, M. D.,

Local Health Officer.

REPORT OF THE SANFORD POLICE DEPARTMENT

January 1, 1932—December 31, 1932

During the year 65 arrests have been made by members of the Sanford Police Department. The arrests were as follows: Intoxication, 23; Violation of Motor Vehicle Laws, 11; Assault and Battery, 6; Breaking and Entering, 6; Forgery, 4; Larceny, 3; Non-support, 3; Peddling without License, 2; Carrying Concealed Weapons, 1; Counterfeit Bills, 1; Bigamy, 1; Violation of Mann Act, 1; Arrested for other Police Departments, 3. Of these arrests there was 48 convictions, 6 placed on probation, 4 suspended sentences, 2 nolprossed, 1 settlement made and 1 taken by Federal Authorities.

On the night patrols of the officers 401 doors have been found open or unlocked, keys found in store doors, 5; windows found open or unlocked, 118; safe doors found open, 3, and 5 gasoline pumps found unlocked.

Night lodgers at the Sanford and Springvale Police Stations total 1,206 for the year.

I feel that the Department could operate more efficiently with the addition of two more men. As it is now, Springvale is without an officer during the day and from 4 a. m. until 9 a. m., there is no officer on duty in either end of the town.

I wish to take this opportunity to thank the Selectmen, permanent men of the Springvale Fire Department, local State Police and Deputy Sheriffs for their cooperation.

Respectfully submitted,

LLOYD W. BATCHELDER, Chief.

REPORT OF THE SANFORD AND SPRINGVALE PUBLIC HEALTH ASSOCIATION

To the Selectmen, Town of Sanford:

I hereby submit to you the annual report of the Sanford and Springvale Public Health Association for the year 1932.

| | |
|---|--------|
| Total number of visits | 12,898 |

| Number of Health Supervision Visits | 6,071 |
| Number of instructive visits to babies, pre-school children and adults | 3,937 |
| Number of visits to school children | 954 |
| Number of visits to pre-natal patients | 855 |
| Number of absent visits | 325 |
| Number of Visits for Investigation | 945 |
| Social Service | 571 |
| Behalf of patient | 374 |
| School Visits | 535 |

During the year 1932 the Public Health Association has continued its policy of caring for the sick in their homes, helping families to prevent disease and instructing individuals as to the correct way of living so as to experience a normal mental and physical life.

The Conferences and Classes held are as follows:

| | |
|--|---------------------|
| Well Baby and Pre-School Conferences 51 | Attendance 1,997 |
| Conferences for Underweight School Children | 38 Attendance 3,638 |
| Red Cross Class in Home Nursing for Girl Scouts | 30 Attendance 240 |
| First Aid Classes for Girl Scouts | 8 Attendance 96 |
| Pre-Natal Classes | 10 Attendance 101 |
| Nutrition Classes | 6 Attendance 44 |

The Pre-Natal Classes and Nutrition Classes are new projects and proved beneficial to those attending.

Assistance was given with the following clinics:

| | | | |
|----------------------|----|-----------------|-----|
| Dental | 31 | Attendance..... | 326 |
| Vaccination | 6 | Attendance..... | 117 |
| Tonsil and Adenoid . | 6 | Attendance..... | 34 |
| Tuberculosis | 3 | Attendance..... | 236 |

At the beginning of the school year, assistance was given the Health Officer in the routine inspection of children in the Public and Parochial schools. Parents were notified of any defect discovered and urged to secure correction. Some of these corrections have been made possible by our Charity Fund and through the cooperation of the Women's Board and Women's Auxiliary of the Goodall Hospital.

There has been an increase in calls for nursing service and for bed-side nursing care, alone, 428 more visits were made in 1932 than in 1931. Also free care has been given to a greater number of patients. However, the staff of nurses has been able to investigate all demands for service coming to their attention and necessary care has been given.

Adequate nursing care when needed has been the basis for all work carried on during the year.

Respectfully submitted,

LAURA E. TABOR, R. N.

REPORT OF THE SANFORD TOWN FARM

To the Selectmen of Sanford:

The following is a list of articles and produce on the farm, December 31, 1932:

Three hundred ninety quarts of canned fruits and vegetables, forty-seven bushels of potatoes, 30 bushels of apples, one hundred seventy-five pounds of squash, six bushels of beets, four bushels turnips, eighteen cords of dry wood, eight cords of green wood, twenty-four tons of coal, one horse, two cows, sixty hens, ten tons of hay and oats.

At the present time there are twelve inmates: Willis Fogg, 72; Charlotte Harding, 55; Emulus Johnson, 88; Mary Liberty, 55; Benjamin Spivey, 64; James Palmer, 81; Joseph Perreault, 27; Theodore Eustace, 70; Joseph Beauchesne, 75; Grace Hussey, 18; Carlton Gowen, 16; and Walter Edgerly, 64. Total number during the year, fifteen.

Respectfully submitted,

GEORGE S. LOWD,

Superintendent.

REPORT OF PARK COMMISSION

The activities of the Park Commission were largely directed to planning for the future development of the Edward H. Gowen Memorial Park and the operation of the Elizabeth-Benton Playground during the summer months. The detailed survey of the Edward H. Gowen Estate was completed and plans made of same.

The Elizabeth-Benton Playground was under the direct supervision of Hillman O. Fallon and the program carried out corresponded closely to that of the previous years. No new apparatus was added this year. There were on an average of about one hundred and fifty children on the grounds every pleasant day.

RALPH B. EMERY,

F. EVERETT NUTTER,

HARRY STOTT,

Park Commission Committee.

AUDITOR'S REPORT

Mr. Myron E. Bennett, Chairman
Board of Selectmen
Sanford, Maine

At the time of election of officers in March 1932, the audit of the Town Records from the first of the year to the date of election had been completed and the audited warrants and receipts of the Treasurer were on file.

The same system of preparing the weekly warrants, auditing the bills and payrolls before payment has been continued through the year. Either a summary of each week's orders issued by the Selectmen and paid by the Treasurer or a Financial Statement at stated periods showing the Amount Reserved, Income and Appropriation, total Amount Expended and Balance of Appropriation has been published in the Sanford Tribune.

The same system of handling the orders for the Poor Department has been continued, orders being required for groceries, clothing and fuel. The grocery list has been revised by the Selectmen.

Orders have been required for any purchase for any department, the duplicate order to be returned with the bill for payment and the original kept on file at the Selectmen's office.

The Tax Collector's records have been checked at regular periods during the year and the collections for the fiscal year and past years proven.

The records of the Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector have been checked with my records and are, I believe, correct.

Each department has always given me the heartiest cooperation for which I wish to express my appreciation.

Respectfully submitted,

MARGARET M. SHAW, Auditor.

Sanford, Maine,
January 24, 1933.

REPORT SELECTMEN, ASSESSORS AND OVERSEERS OF POOR

Pursuant to Section 63, of Chapter 5, of the Revised Statutes of Maine, the Selectmen, Assessors and Overseers of the Poor, hereby submit their report of all their financial transactions in behalf of the Town during the Municipal year ending December 31, 1932. It is spread over all the pages of this Annual Report, and its importance is such that we trust you will give it your most thoughtful attention.

Several items are of especial interest, and deserve, we believe, the most careful consideration of all citizens who feel some concern about the future of Sanford.

First among these is the matter of taxation. It is a significant fact that, in the hardest year that the Town has ever been through, the total assessment, including State and County taxes, amounted to \$555,502.75, the highest in the history of the Town and \$42,740.45 in excess of the next highest assessment, that of 1928. In this connection, we suggest that you turn to page 112 where you will observe that in 1922, the total assessment, including State and County taxes was \$289,909.09, approximately 48% of the amount of the assessment of 1932, notwithstanding the fact that the total valuation of taxable property in 1932 was only 19% more than the total valuation of taxable property in 1922. This, too, in the face of the fact that in 1922, real estate was highly profitable, and therefore, the real estate owner could well afford to pay taxes to the Town; that business in 1922, was conducted at a profit, and, for this reason, could pay a portion of those profits to defray the expenses of Town Government; and that in that same year 1922, wage-earners had no difficulty in paying their poll taxes, where now real estate is an undesirable burden, business, almost without exception, is carried on at a loss, and many unfortunate wage-earners are compelled to look to the Town for their support. This is a picture painful to paint, and it indicates, if anything does, that every voter must make it his duty to attend the next Annual Town Meeting and conscientiously help to prepare an intelligent budget for the year 1933. Otherwise, there must need be more foreclosures upon real estate, more business failures, and consequently, more people dependent upon the public treasury for their daily bread.

Among the important financial transactions negotiated by the present Board of Selectmen, not least in significance for the good of the Town was the issue and sale, upon proper authorization of a special Town Meeting held for that purpose, of \$90,000. of the Town's Refunding Bonds to take care of Temporary Notes issued in the year 1931. While the Selectmen were given power to issue these bonds, with interest not to exceed the rate of 6%, the Selectmen feel pleased

that their Town had sufficient credit as to enable them, in the face of adverse market conditions, to sell these same bonds at a rate of interest of $4\frac{1}{2}\%$.

Two other matters of considerable importance are the Abatement obtained upon the State Tax payable by the Town of Sanford, and the Third Class Road construction done on Third Class Road. Early in the administration of the present Board, assurance was given by a regional representative of the State Highway Commission, that enough money had been raised at the Annual Town Meeting of 1932, for the construction and maintenance of roads and bridges, to entitle the Town of Sanford to the money allowed by the Commission for the Third Class Highways, under the Mill Tax Law, so-called. This law provides, substantially, that the money raised by the State for the Mill Tax Highway Fund shall be apportioned by the Highway Commission among the various towns according to the number of miles of third class roads maintained therein, "PROVIDED THAT SUCH TOWNS SHALL HAVE APPROPRIATED IN ADDITION TO THE APPROPRIATION FOR STATE AID WORK AND APPROPRIATION UNDER THE SO-CALLED BRIDGE ACT, AN AMOUNT NOT LESS THAN FOUR MILLS ON THE VALUATION OF SUCH TOWN FOR ROADS AND BRIDGES, SUMMER AND WINTER." The money so apportioned must be expended by the Towns before November 1 of each year. It was found in October, 1932, that the Town of Sanford had not raised enough money to entitle itself to share in this State bounty, in spite of our previous assurance to the contrary. Fortunately, negotiations for a reduction in our valuation for State Tax having been successful, due, in large measure, to the good offices of Harmon G. Allen, of Springvale, it was possible by one fell stroke to reduce our State Tax by \$3,075.00 and to ensure our right to Third Class Road money to the extent of \$3,350.00, which the Town will obtain if the Legislature does not change the Mill Tax Law, a thing of which there is no prospect. With this Third Class Highway money, nearly a mile was built on the extension of High Street toward Kennebunk.

The care of the needy of the Town has been the mighty problem of the present Board. \$112,804.63 was expended during 1932 for that purpose, which sum includes Relief of Poor, Relief of Soldiers' Families, Mothers' Aid, Unemployment Relief, the Hartley Trust so-called, the Town Farm and State Pensions, and also includes \$26,143.30 paid out by the previous Board from January 1, 1932, to March 15, 1932, the date upon which the present Board came into office. From this amount of money, help of some form, at some time during 1932, was given to 530 families and 2,508 individuals. This is undoubtedly the most momentous job of relief ever done by the Town of Sanford. These figures compare well with those of 1931, where \$84,226.98 was spent for 408 families, and approximately 2,025 individuals. It must be con-

ceded, of course, that the price of groceries has gone down, but the Selectmen have been very stern to see that the people receiving aid should not live in better homes, nor have a larger allowance for food, than those furnishing the money with which the aid was given. Much saving was affected through the generous cooperation of the Sanford Mills, the Goodall Worsted Company, including its subsidiary, The Goodall Company, the Universal Shoe Corporation and the Allied Novelty Shoe Company in graciously furnishing copies of their respective payrolls to the Overseers of the Poor. In this manner it has been possible for the Overseers to cut off a surprisingly large number of families with incomes of \$25. and \$30. per week, and sometimes more, from relief previously obtained by them under representation that they were in need. Our thanks, for hearty cooperation, are also due to Mr. John R. Allard, and to his successor, Miss Myrtle V. Fletcher, whose help in this work has been inestimable.

At this juncture, we must mention the operations done by the Town upon the Hurd and Tebbetts' wood lots. In the spring of 1932, when the present Board came into office, wood was purchased from dealers in Sanford at the price of \$8. per cord. Moreover, fitted wood was bought at \$5. per load, and this last item, especially, proved to be a very expensive one. It was decided, upon full consideration of this problem in a joint session of the Board held early in the year, that something had to be done to remedy this situation. The solution of the difficulty was aided materially by an offer made by Mr. Frank Hurd, of Springvale, whereby he offered to sell the Town all the hard wood standing upon a certain lot owned by him, for \$1. per cord, on the stump. After mature consideration, it was decided to purchase this lot. The result: 1,414 cords of hard wood landed in Sanford, in the yard of the Road Commissioner, furnished free of charge to the Town, or at the homes of consumers for \$5.30 per cord. Another result: 20 to 25 families receiving help from the Town made self-supporting. This success, and the consideration that more wood was needed, prompted the purchase of the Tebbetts' wood lot, at \$1.50 per cord, for hard wood only, on the stump. The difference in price per cord, in this case, was thought to be more than offset by the shorter transportation. Nor should it be forgotten that in both of these cases, back taxes due the Town and not collectable, at the present, were taken out and are being taken out of the proceeds owing to the seller.

Seven persons were committed, during the present year, to the Augusta State Hospital, a surprisingly large number, a regrettable spiritual by-product of these strenuous times.

The Red Cross has helped substantially in distributing Federal Government flour and cotton. And in the earlier part of the year, the Chamber of Commerce's contribution of employment also prevented many families from the obligation

of asking for help. In this connection, it would be unfair not to mention the generous work of Mr. Ralph B. Emery.

It is appropriate that we should pause for a moment, at this point, to note the passing of our esteemed friend and collaborator, the late Frank D. Folsom.

It has been the painful duty of the present Board, in order to keep within the appropriations made for Town needs in 1932 and to carry out the spirit of economy which was so plainly manifested at the last Annual Town Meeting, to refuse work to many worthy men who prayed that work be given them that they might not have to ask for help. The Board heartily desires, as do all true Americans, to see this country in such state that a man who wants to work may have it for the asking. The Board sympathizes very deeply with those afflicted by the present crisis of unemployment. However, in their humble opinion, to give work to all those who need it would have wrought havoc with the financial structure of the Town and bring about unspeakable conditions of hardship to all, including those very men who presently depend upon the Town for their support.

We wish to take this opportunity to thank Mr. Lloyd W. Batchelder, whose generous service made it possible for the Town to have more adequate police protection and to make purchases of uniforms and equipment which would necessarily have been omitted, had it not been for the extra money thus made available for the needs of the Department. Also our thanks are due, in no small measure to the Advisory Board, whose wise and judicious counsel has helped to weather the storms of an unusually difficult and perilous year.

Nor shall we omit to express our deepest appreciation to those officers and members of the different municipal departments who have extended us their cooperation, to our office staff which has borne patiently with us, and to all the citizens of the Town, who, in the spirit of true progress, have helped us in our humble efforts to make Sanford a better Town.

Respectfully submitted,

MYRON E. BENNETT,

HOWARD E. PERKINS,

J. ARMAND GENDRON,

Selectmen, Assessors and Overseers of the Poor

Annual Report

of the

Sanford School Department

For the Year Ending December 31, 1932

School Committee for 1933-34

Dr. A. C. Hanscom, Chairman, term expires March 1933.

Olivia W. Moulton, term expires March, 1934.

John V. Tucker, term expires March, 1935.

Superintendent of Schools and Secretary of the School Committee, James A. Hamlin; residence, Main Street. Telephone, Office, 265; residence, 308-M. Office hours, 4 to 5 P. M.; Saturdays, 10 to 11.30 A. M.; while the schools are in session.

Office Clerk, Millicent A. Harmon, residence 16 Edmund Street, Springvale. Office hours, 8.30 to 11.30 A. M.; 1.15 to 5 P. M.; Saturdays, 8.45 to 11.30 A. M.

ANNUAL REPORT
of the
SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Sanford:

Your School Committee beg leave to submit the following report concerning the public schools of Sanford for the year ending December 31, 1932.

The enrollment in the elementary schools has increased very rapidly during the past year. So many new families moved into Sanford during the fall term that the problem of placing the children in the various grades so that the rooms would not be overcrowded was a critical one. The teachers have accepted the additional burdens with a fine spirit and the parents have cooperated in solving many difficult situations.

Every one has tried to do the most effective work they could with the material our finances would warrant. The task of formulating a school budget for next year is a very difficult one. In the first place our schools run nearly three months from the time the books are closed before the appropriations are made. In the second place we are not notified about the amount we shall receive from the State until nearly the end of the school year. We realize that we shall lose nearly \$2,500.00 of State Aid next year on account of the teachers who were let go last year. If the valuation of the State is decreased, and it seems probable that it will be, the amount of State Aid will be decreased.

Your School Committee would call your especial attention to the matter of closing the Lincoln School in Springvale. We would be very glad to reopen the school, provided you care to pay the extra cost of \$6,500 a year. That would mean that our budget would have to be increased \$3,000 this year in order to run the school during the fall term.

We would recommend that \$92,000. be appropriated this year for all school purposes, including High School, Common School, Text Books and Supplies, Repairs and Equipment, Incidentals, Industrial Education, Evening School, Superintendent of Schools, and Superintending School Committee, according to the estimates in the School Budget printed in this Town Report.

Last year \$102,270.00 was raised for these items.

Respectfully submitted,

ALPHEUS C. HANSCOM, Chairman
OLIVIA W. MOULTON
JOHN V. TUCKER

If the Lincoln School is to be reopened, it will require \$6,500.00, and the expense under this budget would be \$3,000.00. If music should be put back, it would require \$1,200.00 for the year, and \$400.00 under this budget.

EDUCATION

Superintendent of Schools

To the Superintending School Committee of the Town of Sanford:

I herewith submit to you and to the citizens of Sanford the following report concerning your public schools, this being the thirty-fourth in the series of annual reports from the Superintendent of this town.

Like every other individual and corporation, the schools have carried on their work this year with decreased funds.

Several items of school work and items that under normal conditions are essential to a successful school system have been entirely omitted. Every one regretted that Physical Training and Music under trained supervision had to be omitted in both the elementary and high school. We all realize that poorer work must be accomplished by combining Drawing and Penmanship than could be done with separate departments. The teaching force in the grades and high school have been decreased and the size of the classes have been increased in several cases to the very limit of efficiency.

Every school official regretted the necessity of closing the Lincoln School. We fully realize that pupils in classes less than twenty have better chances to succeed than they do in classes double that size. We found that the Lincoln School could be closed and the pupils from that building sent to the Hamlin School. The classes after this combination were as small or smaller than in any other grade building in town.

Every school official would be glad to have the building reopened, provided the taxpayers feel that they can afford the six thousand, five hundred dollars that would be required to run that school.

In the same way, we would be very glad to have music supervision whenever the town feels that it can furnish twelve hundred dollars for this purpose.

Any one would naturally believe that the town would save the full amount of a teacher's salary if that teacher were not employed. When one stops to consider that one factor in the distribution of State Aid is the number of teaching positions, he can see that Sanford will lose over two thousand dollars next year because of letting teachers go. This is especially true in all courses receiving special State and Federal Aid. For instance, if the four teachers of Vocational work at the High School should be let go, other subjects would have to be provided and new teachers secured. These new teachers would cost Sanford more than the four High School and

EDUCATION

two elementary Vocational teachers are now costing the town as can be seen by examining the page about the State Aid in the Financial Report.

We fully realize that the schools must accept their share in the duty of meeting present conditions. There are many fine things that we must do without. Milton has expressed this well, when he says, "It is your duty, mine, and everyone's, not to see what were good if it might be, but seeing what is, learn to make that good."

The work in the schools has been hard this year on account of large classes, but still more difficult on account of the unnatural condition of many of the children themselves. In some cases the children have been undernourished and poorly clothed. Too much praise cannot be given the teachers, the school nurse, the ladies of the Searchlight Club and many others who have helped relieve this condition. In many cases, the children have unconsciously caught the worry and anxiety that is so prevalent today, and have come to school with nerves and minds in a condition that makes effective work very difficult.

The hardest condition, and we are very thankful the cases are few, is where the home is openly hostile to the school and the teacher. Whenever a parent finds fault with a teacher before a pupil, he has ruined both the pupils' and teachers' chances of success. Children who intend to tell the truth, and some times they do not, often misunderstand and report things as incorrectly as though their statements were intentional.

We realize that we are all human and likely to make mistakes. Whenever a mistake has been made or any misunderstanding has arisen, we are more than glad to have it called to our attention, and we assure you that we will use our best efforts to correct any condition that is wrong.

Miss Sarah Blaisdell was the only new teacher added to our force this year, and her work has been very successful.

Very few repairs were made on the school buildings during the past year, and we advise letting all this kind of work go for another year, if it can be done with safety. Nearly \$2,500 of the repairs account is spent for insurance, and all permanent equipment comes under this heading.

We appreciate the efforts the town officials have made to see that all school bills were paid promptly, the help of the firemen of the two villages in inspecting all of the schools, and the cooperation of the citizens, parents, teachers and pupils, which has made a difficult year a successful one.

Respectfully submitted,

JAMES A. HAMLIN,

Superintendent of Schools.

EDUCATION

FINANCIAL STATEMENT

The Superintending School Committee submitted their Annual Report in the form advised by the State and in the same form that has been used in Sanford for more than fifteen years, showing in the Financial Summary the totals of all the moneys received and paid out, and the balances left in each account. This summary checked so closely with the first part of the financial summary in the beginning of the Town Report that the Selectmen did not feel that it should be printed again. There were five items included in the Selectmen's report that were not included in the School Report for the following reasons:

"The total financial expenditure as given by the School Department does not agree with the total amount expended for education as given by the Selectmen as five appropriations were raised under articles not pertaining to the schools, and the money was not expended by the School Department, and so these amounts were not included in their report.

"The money raised for the Dental Clinic and School Nurse was given to the Sanford-Springvale Public Health Association and was expended by them for both public and parochial schools.

"The salary of the Attendance Officer was raised by law under Town Incidentals and was paid by the Selectmen under that account, as his work is with both public and parochial schools.

"The Interest on School Bonds was raised under the article to raise money for town debts and paid under that article.

"The expense of selling the bonds for the High School addition was not contracted or paid by the Special Building Committee elected by the town and so was not included in their report.

"These items included the following amounts:

| | |
|---|-----------|
| Dental Clinic | \$ 100.00 |
| One-half appropriation for School Nurse | 1,100.00 |
| Salary Attendance Officer | 1,027.70 |
| Expense for Selling Bonds for High School Addition .. | 780.47 |
| Interest on School Bonds | 10,025.00 |

EDUCATION

"If these items are taken into consideration, the two accounts agree perfectly."

The School Committee also submitted an itemized list showing to whom and for what purpose each expenditure was made, as the State Law requires. As the total amount paid each individual was the same as given by the Selectmen in their report, they refused to have this printed. As the Superintending School Committee feel that itemized expenditures showing both to whom and for what purpose the money is spent are required, a limited number of reports are being printed in full and can be obtained as long as the supply lasts at the rooms of the School Department.

The amounts received this year by the teachers, janitors, and conveyance drivers, as shown in the Town Report do not represent their present salaries, as cuts in pay did not take effect until the beginning of the school year in September.

No School Signals

The No School Signal will not be used except in cases where there can be no doubt about its advisability. On stormy mornings parents are urged to use their own judgment about sending their children, as one street may be nearly impassable while others are all right.

Signals:

3 blasts blown at 7.15—No School for the High School.

3 blasts blown at 7.45—No school for the Grades for the forenoon session.

4 blasts blown at 7.45—No school for the Sub-Primary, 1st, 2nd and 3rd Grades for the forenoon session.

3 blasts blown at 11.30—No school for the Grades during the afternoon session.

4 blasts blown at 11.30—No school for the Sub-Primary, 1st, 2nd and 3rd Grades during the afternoon session.

EDUCATION

Calendar 1933-34

Spring term, March 6, 1933 to April 28, 1933. Eight weeks. Vacation one week.

Summer term, May 8, 1933 to June 23, 1933, High School. Seven weeks. May 8 to June 16, 1933, Grade Schools. Six weeks.

Fall term, September 12, 1933 to December 22, 1933. Fifteen weeks. Vacation one week.

Winter term, January 2, 1934 to February 23, 1934. Eight weeks. Vacation one week.

Spring term, March 5, 1934 to April 27, 1934. Eight weeks. Vacation one week.

Summer term, May 7, 1934 to June 22, 1934, High School. Seven weeks. May 7, 1934 to June 15, 1934, Grade Schools. Six weeks.

School year: High School, thirty-eight weeks. Grades, thirty-seven weeks.

This calendar is subject to change whenever it seems advisable.

Holidays

The schools have the following holidays:

Patriot's Day, April 19.

Memorial Day, May 30.

Armistice Day, November 11.

Two days at Thanksgiving.

Enrollment December, 1932.

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

In presenting this my eighth annual report I shall confine myself to a very brief survey of the school as it is. No recommendations are possible in view of conditions and the uncertainties of the future.

In material things whenever a tax is placed upon a commodity that tax is immediately passed on to the ultimate consumer with little effect on the intermediaries. Not so in education. The tax you place upon your teachers not only must be borne by them, but without their wish or consent is passed on to their ultimate consumer—your children. There is no escape.

The teachers who were carrying heavy loads last year are carrying much heavier loads this year. Both teachers and pupils are doing their work in a spirit of good sportsmanship.

Five, whole or part-time, teachers are missing from the faculty this year: Mr. Nunan, Miss Everett, Mrs. Webster, Miss Frohock, and Miss Hanson. Miss Sarah Blaisdell takes the place of Miss Eaton in the Home Economics Department.

All Physical Education has been given up together with Drawing and Music. This especially affects the two hundred girls in the school. The other courses have been crowded by increasing the number of pupils in each class.

We have registered more than 450 pupils this year—a slight falling off from last year. At present the registration is 418 divided into 111 Freshmen, 130 Sophomores, 80 Juniors, and 91 Seniors.

The courses of instruction remain unchanged from the previous year except as noted above.

In closing may I express the hope that a way out may be found without further penalizing our teachers and pupils.

Very truly yours,

GEORGE C. PURINGTON, Principal

EDUCATION

REPORT OF DIRECTOR OF VOCATIONAL EDUCATION

To the Superintendent of Schools:

I herewith submit by thirteenth annual report of Vocational Training as given in the Sanford Public Schools.

The instruction in the two upper grades of the elementary schools is of the trade-informative type. It is not only arranged for manipulative skill, but for guidance in the choice of a life work. The instruction is as thorough as time and the age of the students permit. Woodworking, Mechanical Drawing, Electrical Wiring, Plumbing, and Sheet-Metal Work are the subjects taught the boys. One hundred sixty boys received this instruction during the past year.

The first two years of the High School course is Industrial Arts. Instruction is given in Advanced Woodworking and Cabinet Making, Mechanical Drawing, Architectural Drawing, and Freehand Drawing.

A Smith-Hughes Textile Course is given in the last two years of the High School course.

Thirty-one and 23/67% of all the boys in High School are in one course—the Industrial.

Boys taking this course are required to take all of the English, Mathematics, and Sciences that the school offers plus their shop courses. Graduates of this course are eligible for entrance to normal schools and technical schools. Our graduates of recent years have had splendid records in higher institutions of learning.

All of these courses are rigidly inspected by both State and Federal Government Inspectors yearly for subjects taught, hours, methods of teaching, and qualifications of teachers. This is done before either State or Federal Aid is received.

Sanford receives more State and Federal money for Vocational Courses in its schools than any other community of its size in the State. By referring to the financial statement of the School Committee it will be readily seen that these courses cost but little to the town because of this aid.

The enrollment in the Evening School was two hundred and twenty-one. An increasingly large number of our evening school students are those who have been obliged to stop school because of economic conditions and who are now working in Evening School for High School credits.

EDUCATION

The Evening School does occupy an important place in an industrial town's educational program, and will become more and more effective as time goes on. The rapid machination of industry will compel more adult education in order to fit persons to new jobs who have been displaced by the machine.

State and Federal Aid is received for all courses that are given in the Evening School. Two-thirds of each teacher's salary is paid by State and Federal Aid.

I wish to express my thanks to all of my co-workers for their fine spirit in a time of stress; and also to the townspeople and the School Board for their part in our growth.

Respectfully submitted,

LESLIE W. MacKAY,

Director of Vocational Education.

EDUCATION

REPORT OF DIRECTOR OF HOME ECONOMICS

To the Superintendent of Schools:

I herewith submit my report of Home Economics Training as given in Sanford High School during the past year.

Within a comparatively short time the secondary school has changed from an institution which was primarily for college preparatory students, to one which represents every group of the population of this country. With this rapid change have come numerous and important school problems. The solution of which has meant a curriculum to meet the needs of this girl who is to become a nurse, a homemaker, or perhaps a vocational teacher and that boy who must earn his living in a machine shop, as well as for the youth of superior intelligence who is preparing for a professional career.

One course in this new curriculum is the home economics training for girls. A few years ago the teaching of so-called cooking and sewing were the outstanding features of the course, but there has been a steady growth and improvement in the content of the course and at present the objectives to which Home Economics contributes are:

First, **WORTHY HOME MEMBERSHIP** which should result from the training in family and social relationships (getting along with other people); child development; training and care; efficient management of time and energy; spending the family income; health problems of the family; elementary nutrition; management of leisure time; surroundings and furnishing of the house; sanitation; choice and care of clothing.

Second, **VOCATIONS**; some girls wish to prepare for certain vocations; others marry and become wage-earners outside their homes, they must be trained and efficient in both jobs; new equipment constantly coming into the home demands that the homemaker be trained in its use and care. One cannot prophesy with accuracy the educational, the marital, or the economic future, and it is not safe to exclude such vocational training.

Third, **HEALTH**: Home Economics teaches the kinds and amounts of foods needed, right food combinations, good food habits, certain hygienic requirements as to kinds of clothing, types of shoes and care of clothing.

Fourth, **CIVIC, MORAL, and SOCIAL ACTIVITIES**: The informal atmosphere of the average home economics class

EDUCATION

room, the limited size of the classes and the type of subject matter combine to help the pupils form the right ideals of conduct under proper guidance.

Besides the required English and certain elective academic subjects the four year course includes: Household arithmetic, 1 year, food study, 1 year, household problems, including accounting and budgeting, $\frac{1}{2}$ year, sanitation and laundering, $\frac{1}{2}$ year, home nursing, $\frac{1}{2}$ year, home decoration and improvement, $\frac{1}{2}$ year, costume design and clothing appreciation, 1 year, child care and training, $\frac{1}{2}$ year, dietetics, $\frac{1}{2}$ year, household chemistry, $\frac{1}{2}$ year, and family relationships, $\frac{1}{2}$ year.

During the past year one of the most successful projects has been the continuation of the "play school" which was organized by Miss Alfreda Eaton in 1930. From fifteen to eighteen children between the ages of two and five years came three days each week for eight weeks to the High School. Under the direction of Miss Sarah Blaisdell and the observation of the senior girls in the child care course these children were given opportunities for directed plays, games and habit formation. This was a live project and one very much worthwhile.

Miss Blaisdell is a graduate of Farmington Normal School, and has taught three successful years in Maine before coming to Sanford last fall. Already she has rendered very valuable service to the school.

There have been two satisfactory visits from the State Home Economics Director, Miss Jenkins, and one from the Federal Agent, Miss Amidon from Washington.

Respectfully submitted,

BLANCHE C. PHILBRICK,

Director of Home Economics.

REPORT OF THE TOWN CLERK AND TAX COLLECTOR

1933

To the Citizens of the Town of Sanford:

Your Town Clerk renders the following report for the year 1933:

Report of Vital Statistics

Two hundred eighty-seven (287) births have been recorded as received in the office of the Town Clerk during the year 1933.

This shows a decrease of seventeen (17) births as compared with the year 1932.

Of this number, one hundred fifty-nine (159) were of the male sex, and one hundred twenty-eight (128) were of the female sex.

The number each month is shown below:

| | 1933 | 1932 |
|-----------------|-----------|-----------|
| January | 23 | 27 |
| February | 18 | 24 |
| March | 19 | 26 |
| April | 22 | 24 |
| May | 26 | 39 |
| June | 25 | 24 |
| July | 29 | 30 |
| August | 32 | 22 |
| September | 26 | 18 |
| October | 20 | 27 |
| November | 25 | 24 |
| December | 21 | 19 |
| | <hr/> 287 | <hr/> 304 |

Deaths

One hundred eighty-five (185) deaths were recorded as having occurred within the town in 1933, being an increase of thirty-one (31) as compared with the year 1932.

Of this number, ninety-five (95) were of the male sex, and ninety (90) were of the female sex.

One hundred thirty-three (133) were buried within the town, and fifty-two (52) were taken outside for burial. In addition to this, thirty-three (33) were brought in from the outside for burial.

CLERK'S REPORT

The number each month is shown below:

| | 1933 | 1932 |
|-----------------|-----------|-----------|
| January | 20 | 15 |
| February | 9 | 9 |
| March | 23 | 18 |

Dog Licenses

Six hundred thirty-eight (638) licenses were issued during the year 1933, for which the sum of nine hundred twenty-four (\$924.00) dollars were received and paid to the Town Treasurer.

CLERK'S REPORT

The following licenses were granted:

| | |
|---|-----------|
| Four hundred fifty-one (451) male dogs | \$ 451.00 |
| One hundred twenty-three (123) spayed female dogs | 123.00 |
| Fifty-eight (58) female dogs | 290.00 |
| Six (6) Kennel Licenses (10 dogs each) | 60.00 |
| | <hr/> |
| | \$ 924.00 |
| Paid Treasurer | \$ 924.00 |

Fees and Licenses

| | |
|--|-----------|
| Received account of fees and licenses for 1933 | \$ 648.00 |
| Paid to Treasurer | 648.00 |

Note:—The amount of \$25.00 paid Treasurer as of December 31.

Credited by his office as of January 1, 1934.

TAX COLLECTOR'S REPORT

1933

The 1933 Commitment of Poll Taxes reached the sum total of \$11,442.00; the Real Estate and Personal Property Commitment, \$452,133.84; Excise Tax Commitment, \$15,000.00, making a total commitment of \$478,575.84, being a decrease of \$76,926.91 less than the 1932 commitment.

The collections in general have been somewhat harder than in prior years due to the fact that many persons, when work was obtainable, made payments on taxes due for prior years to 1933 which, in most cases, took most of the money they had available for this tax proposition. I can offer no suggestions other than the fact that until work is again on a more permanent bases, collections of all taxes will be difficult and recourse to the law will, in most cases, hinder rather than help.

If there are any errors in the following lists of taxes unpaid, or otherwise, if reported, will receive attention at once.

AUTOMOBILE EXCISE TAX

1933

The commitment for Excise Tax for 1933 was \$15,000.00, being \$2,000.00 less than the commitment for 1932. The amount of \$15,322.01 has been collected for the year 1933, being \$924.05 less than 1932. There were 3,399 motor vehicles taxed in Sanford for 1933, being a gain of 445 over 1932. The fact that the collections for the greater number of vehicles was less than 1932 is for the reason that few new cars were purchased in 1933, which brought most of those paid, near or at the minimum tax of \$2.00.

CLERK'S REPORT**REAL ESTATE TAXES****1933**

The collection of real estate taxes is still a problem, not only to the collector, but the property owner as well. Sufficient comment has been made priorly in my report and you will note that there was less property advertised in 1933 than in 1932, that is, the amount of tax involved is less, but the number of parcels is equal or greater than in 1932. The fact that there is a lesser amount unpaid is perhaps due mostly to the lesser tax rate.

Partial payments have been, and are still being collected in any amount that the property owner feels he can afford. The real pinch comes when the interest is added, and many tax payers feel that, notwithstanding the fact that this interest is the result of the vote of the town meeting, they should not be taxed for it when they are overdue on their tax payment.

This office will assist the tax payer in any way that it can with reference to partial payments or otherwise.

LINWOOD J. EMERY,

Collector.

AUTOMOBILE EXCISE TAX

| | |
|---|-------------|
| Received from Automobile Excise Tax | \$15,322.01 |
| Paid Treasurer | 15,322.01 |

| | |
|-------------------|-------------|
| Committment | \$15,000.00 |
|-------------------|-------------|

Note:—The amount of \$8.16 paid Treasurer as of December 31, 1933.

Credited by his office as of January 2, 1934.

POLL TAXES**1933**

| | |
|------------------------------------|-------------|
| Paid Treasurer | \$10,195.00 |
| Abatements (210 @ \$3.00) | 630.00 |
| Polls in hands of Constables | 620.00 |

| | |
|-------------------|-------------|
| | \$11,445.00 |
| Committment | 11,442.00 |

| | |
|--|---------|
| See Supplemental Taxes for explanation | \$ 3.00 |
|--|---------|

Note: The uneven amount in the above settlement is due to the partial payments on Poll Taxes.

CLERK'S REPORT

POLL TAXES FOR ABATEMENT

1933

Allaire, Joseph P. S., 30 Brook St. Same as Joseph Allaire.

REPORT OF THE BOARD OF ENGINEERS SANFORD FIRE DEPARTMENT—1933.

Sanford, Maine,
January 16, 1934.

To the Municipal Officers of the Town of Sanford:

The Board of Engineers of Sanford Fire Department hereby submit their report for the year ending December 31, 1933:

This Department has responded to 268 alarms, 48 bell, 215 still, 5 house calls; this being 26 less than for the year 1932; the decrease being in still alarms, there having been 6 more alarms than in 1932.

Our still alarm card is still active and we still recommend the use of phone for chimney and other fires similar the use of the alarm boxes for these fires are unnecessary and the Engineers feel that they are slowly proving this fact to many who are persistent in calling the entire department for chimneys.

Your equipment at the fire station is in excellent condition, this is to the credit of the permanent men, they have made 1,400 inspections, business, and 200 inspection cards have been issued to property owners.

Two bad forest fires, Shaw's Ridge and Sand Pond were handled with a minimum of loss, but required about one week of fighting to completely extinguish same, many smaller fires of similar nature were handled during the year.

Your Board of Engineers extend to the permanent men, their appreciation of the services rendered, to the officers and members of the Department their sincere thanks for loyalty to duty and services rendered.

This Department wishes to extend to Springvale Fire Department our thanks for services rendered and their readiness to respond when needed.

Respectfully submitted,

VON E. GERRY, Chief.

LINWOOD J. EMERY, 1st. Asst.

ROBERT RANKIN, 2nd Asst.

Board of Engineers.

REPORT OF CLERK OF SANFORD FIRE DEPARTMENT

Sanford, Maine,
January 4, 1934.

To the Municipal Officers of the Town of Sanford, Maine:

I hereby submit the following report of the Sanford Fire Department for the year ending December 31, 1933.

| | |
|---|--------------|
| The Department has responded to 268 alarms, 48 bell, 215 stills, and 5 house calls. | |
| Total value of property endangered | \$927,500.00 |
| Total damage to property | 14,362.90 |
| Insurance paid on property | 13,262.90 |
| Total feet of hose laid | 40,055 |
| Total feet of ladders raised | 4,720 |
| Total gallons of chemical used | 421 |
| Miles apparatus traveled | 650 |

Respectfully submitted,

G. F. FERGUSON,

Clerk.

THE ANNUAL REPORT OF THE BOARD OF ENGINEERS OF THE SPRINGVALE FIRE DEPARTMENT

To the Municipal Officers:

The Board of Engineers of the Springvale Fire Department, hereby submit their annual report for the year ending December 31, 1933.

The Department has answered an average number of calls as the Clerk's report will show and by early discovery and prompt response by the Department the fire loss for the year has been kept at a very low figure.

By the application of strict economy, we have been able to keep the station and equipment in excellent condition and still keep within our appropriation and we do not anticipate any unordinary expense for the coming year.

The Underwriter's Bureau have completed their investigation of the town's fire protection and they strongly recommend the purchase of a 750 gallon motorized pumper to be stationed in this district. Their reasons for this recommendation is not only that this piece of apparatus is badly needed in our de-

partment but that the town as a whole has not enough pumping capacity for safety.

Your Engineers also strongly urge that this recommendation be carried out not later than next year as the two light Reo trucks we now have are fast reaching the end of their usefulness. These two trucks have been in service twelve years and it is almost impossible to get repair parts for them. We have been forced to get our repair parts from junk yards this past year and this is not a healthy condition for fire apparatus.

We wish to take this opportunity to thank the officers and men of the Sanford Fire Department for their hearty cooperation.

Respectfully submitted,

CLYDE E. HARTFORD,

RAYMOND Y. LORD,

STANLEY G. TURNER,

Board of Fire Engineers.

REPORT OF THE CLERK OF THE SPRINGVALE FIRE DEPARTMENT

Springvale, Maine,
January 1, 1934.

To the Municipal Officers of the Town of Sanford:

I hereby submit the following report of the Springvale Fire Department from January 1, 1933 to December 31, 1933.

The Company has responded to 91 alarms, consisting of 71 stills, 8 bells, 6 out-of-town, and 5 house calls.

The Company has also made 738 inspections and held 6 drills.

| | |
|--|--------------|
| Total value of property endangered | \$383,600.00 |
| Total damage to property endangered | 19,837.50 |
| Total insurance paid on property endangered | 19,662.50 |
| Loss | 175.00 |
| Number of feet of hose laid | 11,500 |
| Number of feet of ladder raised | 2,032 |
| Number of gallons of chemical used | 1,384 ½ |
| Number of gallons of Foamite used | 2 ½ |
| Number of miles apparatus traveled | 206 |

Respectfully submitted,

CARLTON P. BICKFORD,

Clerk,

REPORT OF SANFORD POLICE DEPARTMENT

January 1, 1933 to January 1, 1934.

The records show that 25 arrests were made for intoxication with 24 convictions and one release on probation. Seven arrests were made for driving motor vehicles while under the influence of intoxicating liquor and seven convictions were secured.

Other cases were: Assault and battery, arrests four, convictions four; breaking and entering, arrests four, convictions four; larceny, arrests nine, convictions nine; violation of motor vehicle laws, arrests 19, convictions 19; non-support, arrests five, convictions four, settlement out of court one; carrying concealed weapons, arrest one, conviction one; operating lotteries, arrests two, convictions two; vagrancy, arrests two, convictions two.

Five prisoners were taken for out-of-town police, ten stolen cars were reported and eight recovered locally while five cars also were recovered for out of town police.

The night patrolmen have found 605 store doors and windows unlocked and open as follows: Front doors unlocked 150, back doors unlocked 159, side doors unlocked 73, windows unlocked and open 74, lights left burning in stores 84, night lights out in stores 51, safe doors open three, keys found in store doors 7, gas pumps unlocked 4.

Transient night lodgers put up here during the year numbered 1,158.

Respectfully submitted,

ERNEST CHADBOURNE,

Chief of Police.

REPORT OF THE SANFORD TOWN FARM

To the Selectmen of Sanford:

The following is a list of articles and produce on the farm, December 31, 1933:

Four hundred quarts canned fruits and vegetables, 65 bushels apples, five bushels beets, 35 bushels potatoes, 1 bushel carrots, 4 bushels beans, 250 pounds cabbage, 300 pounds pumpkins, 1 bushel onions, 18 tons coal, 10 tons hay and oats, 1,300 pounds grain, 25 cords dry fitted wood, 20 cords unfitted wood, 70 sows, 2 cows and 1 horse.

At the present time there are nine inmates:

Willis Fogg, 73; Charlotte Harding, 56; Mary Liberty, 56;
James Palmer, 82; Theodore Eustace, 71; Walter Edgerly, 65;
James Cleveland, 74; John Robinson, 54; Blanche Daigle, 24.
Total number during the year, sixteen.

Respectfully submitted,

GEORGE S. LOWD,

Superintendent.

REPORT OF HEALTH OFFICER

To the Selectmen, Town of Sanford, Maine:
Gentlemen:

Your Health Officer herewith submits his report of health work from January 1 to December 31, 1933.

With the exception of an epidemic of Influenza during January and the first half of February, our health conditions have been fair.

No human case of rabies was reported during the year, but canine rabies was reported in two dogs which died of the disease.

A strict quarantine was at once proclaimed on all dogs, and with the aid of the town officials and policemen, was continued until the danger of the spread of the disease was passed.

Several persons were bitten by dogs that did not have the rabies, but were simply naturally vicious. However, the wounds of the bite were cauterized as a precaution, and the dog kept under observation.

Other contagious diseases were reported as follows:

| | |
|--|------|
| Whooping Cough | 4 |
| Mumps | 8 |
| Influenza | 1307 |
| Pneumonia | 39 |
| Tuberculosis | 17 |
| Scarlet Fever | 18 |
| Diphtheria | 3 |
| Chicken Pox | 6 |
| Typhoid Fever | 1 |
| Encephalitis Lethargica ... (Sleeping Sickness) | 1 |
| Vincent's Angina | 1 |

Free vaccination was given with the assistance of the Public Health Nurses in the Town Hall, one week in March and one week in August to all that applied.

Quarantine of communicable diseases have been maintained and fumigation and disinfection when and where required to prevent further spread of the disease.

Thirty-four cultures were examined for the purpose of discovering "carriers" of disease germs.

Many samples of milk have been collected and tested and reports sent to the milk producers as an endeavor to stimulate interest in the production of good, clean milk.

The dairies have been frequently inspected and suggestions for sanitary improvement were given when advisable.

Occasionally, visits have been made to hotels, restaurants, lunch wagons, stores, markets and barber shops for sanitary inspection.

All food handlers have received a physical examination by a physician every six months.

There were several complaints of nuisances which were promptly abated.

With the assistance of Miss Taber, all children in the Public and Parochial grade schools have received a physical examination, and where defects were found, the parents were notified.

As Town Physician, the writer has attended several cases of illness daily among the families of the needy unemployed.

In conclusion, I wish to extend my sincere thanks to the selectmen, doctors, public health nurses and the citizens in general for their cooperation.

Very truly yours,

W. H. KELLY, M. D.,

Local Health Officer.

REPORT OF THE SANFORD AND SPRINGVALE PUBLIC HEALTH ASSOCIATION

To the Selectmen, Town of Sanford:

I hereby submit to you the annual report of the work of the Sanford and Springvale Public Health Association for the year 1933.

The betterment of the health of the citizens of this community has been the major interest of the Association for the past year. Assistance has been rendered toward this goal whenever and wherever asked. The program has been carried on by clinics, conferences, home and school visits.

| | |
|---|--------|
| Total number of visits | 12,856 |
| Number of visits for bed-side nursing | 5,767 |
| Visits to babies | 1,678 |
| Visits to maternity patients | 864 |
| Visits to tuberculosis patients | 318 |
| Visits for adult nursing | 1,993 |
| Deliveries attended | 11 |
| Number of visits for health education | 6,834 |
| Instructive visits to babies, pre-school children and adults | 3,059 |
| Visits to pre-natal patients | 668 |
| Total visits in connection with school age group | 3,139 |
| Total visits to school buildings | 493 |
| Visits to ill school children | 903 |
| Visits to homes of well school children | 1,743 |
| Absent visits | 248 |
| Visits in behalf of patients | 878 |

The corrections of defects and improvement of health of individuals has been made possible by our Charity Fund, the Milk Fund of the Searchlight Club, and the Tonsil Clinics sponsored by the Women's Board and Women's Auxiliary of the Hospital. An extensive Tuberculosis program has been carried on to protect the tuberculosis contacts from acquiring the disease.

Conferences, Clinics and Classes have been held as follows:

| | |
|---|------------------|
| 49 Well Baby and Pre-school Conferences .. Attendance | 1,373 |
| 49 Conferences for Underweight School Chil- dren | Attendance 5,345 |
| 2 First Aid Classes for Girl Scouts | Attendance 24 |
| 1 First Aid Class for 4-H Club | Attendance 38 |

| | | | |
|----|----------------------------------|------------|-----|
| 30 | Dental Clinics | Attendance | 345 |
| 10 | Vaccination Clinics | Attendance | 286 |
| 15 | Tonsil and Adenoid Clinics | Attendance | 61 |
| 3 | Tuberculosis Clinics | Attendance | 191 |
| 11 | Health Talks to various clubs. | | |

A family health service of nursing and preventative work which has insured better individual health has been, we hope, a help to many of the citizens during this difficult year of world wide economic disturbance.

Respectfully submitted,

LAURA E. TABOR, R. N.

REPORT OF PARK COMMISSION

To the Honorable Board of Selectmen, Town of Sanford:

The Park Commissioners do hereby submit the following report for the year 1933.

Due to the lack of funds, there has been very little that the Park Commission could accomplish in the past year. No appropriation was made for playground maintenance and operation, so that the children were without the usual opportunity of supervised play as in the past.

At the instance of the Overseers of the Poor, a crew of men who were working for the aid given them by the town, was put to work constructing a driveway across the Edward H. Gowen Memorial Park, connecting Riverside Drive with Main street. However, progress on this, with hand labor, was at such a slow rate that monies were appropriated at a special town meeting for the completion of the work under the direction of the Road Commissioner.

The shade trees bordering the streets of the two villages are in a deplorable, and often times, dangerous condition, and immediate attention should be given them. Additional funds were asked for at the December town meeting for the purpose of improving their condition. These funds were appropriated and will be available for the coming year.

During the late summer and fall extensive plans were made for the future development of park and recreational areas in the two villages. Many of these plans originated outside of this commission, but if successful must be developed and maintained by it. They are all very worthy and will be of untold benefit to the community in future years.

Park and playground development is necessarily very slow and sometimes rather discouraging, unless there are unlimited funds available. The Elizabeth-Benton Playground has been developed to a point where it is of great benefit to the children of Sanford, but this was years in attainment. There are still many improvements that are needed and will no doubt come with time. This applies, also, to other park areas. However, careful plans and development usually result in more satisfactory areas than if hurried.

Respectfully submitted,

F. EVERETT NUTTER,

HARRY STOTT,

RALPH B. EMERY, Chairman,

Park Commission.

AUDITOR'S REPORT

To the Selectmen of the Town of Sanford, Maine:

At the time of election of officers in March 1933, the audit of the Town Records from the first of the year to the date of election had been completed and the audited warrants and receipts of the Town Treasurer were on file.

The same system of preparing the weekly warrants, auditing the bills and payrolls before payment has been continued through the year. A summary of each week's orders issued by the Selectmen and paid by the Town Treasurer has been published in the Sanford Tribune. Several times during the year a statement showing the Appropriations, Reserves and Income, total amount Expended and Balance of Appropriation has been published.

The same system of handling the orders for the Relief of Poor has been continued, orders issued by the Selectmen being required for groceries, rent, clothing and fuel.

The Tax Collector's records have been checked at regular periods during the year and the collections for the fiscal year and past years proven.

In accordance with the request of the Chairman of the Board of Selectmen to ascertain the amount of uncollected interest on taxes paid during the year 1933, I have submitted a report to the Selectmen showing my findings.

With this exception in the records of the Town Treasurer and Tax Collector, the records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector have been checked with my records and are to the best of my knowledge and belief, correct.

At this time I wish to express my appreciation for the hearty cooperation which each department of the Town of Sanford has always given me.

Respectfully submitted,

MARGARET M. SHAW,

Auditor.

Sanford, Maine,

February 19, 1934.

REPORT OF SELECTMEN, ASSESSORS AND OVERSEERS OF THE POOR

The year 1933, fifth year of the depression, has been a hard one for Sanford and its people. Early in March two of the three local banking institutions were closed by government orders. The closing of these banks meant a serious impairment of the town's finances.

At the time of the closing of these banks, the town had on deposit, including Oakdale Cemetery trust funds of \$24,780.32, a total of \$64,736.15. Not all of these funds have as yet become available for use, and some part, in all probability, never will.

Shrinkage in values, due to the depression, together with business failures and firms going out of business, made necessary an easing of valuations for real and personal property of \$378,543.50. However, in spite of this there was a reduction in the tax rate of \$5.60 per thousand, as compared with the previous year.

Providing food, shelter and clothing for the needy continues to be the major problem for the Selectmen, Assessors and Overseers of the poor. There has been an easing up along this line, however, as compared with the previous year, \$112,804.63 having been spent in this work in 1932 and \$86,068.72 during 1933, or \$26,735.91 less than the previous year.

The number of families receiving aid in some form or other the past year was 510, or only slightly less than 1932, but the amount each received was considerably less than in the previous year. Seventy-seven families received Soldiers' Aid and thirteen mothers received Mothers' Aid during some part of the year. In connection with the above subject we desire to call attention to the often repeated criticism of the Selectmen for not putting more of those receiving aid to work. We call attention to the following figures as to just who some of those are who do not work. Just a hasty check up shows that among those receiving aid were 68 women, including widows with families, single women and others who have been deserted by husbands, 37 families where the breadwinner was crippled or sick and unable to work, 21 families where they were old and infirm, several families where neither parent was able to work, if living. Further check up discloses the fact that of the 510 families receiving aid some 77 received \$10.00 or less and that 132 other families received aid to the extent of \$50.00 or less, so in many instances it is obvious to any person giving this matter serious thought that those receiving this small amount of aid are not available for work since they already have jobs, but do require a small amount of fuel, some assistance for a while on their rent, or

some aid in the way of clothing. Piecing the above figures and facts together we find something like 185 families where more or less steady aid is required and here is where we get to the matter of getting work done.

An examination of our welfare list in this report shows that 171 of the men aided have done work and received credit for same on their grocery accounts to the extent of \$10,455.02 so that instead of their getting their groceries free they have actually paid for a large part of them in work for the town.

Many requests were received by real estate tax payers for a chance to work out their taxes, or at least a part of them, and as a result of these requests the Selectmen called a special town meeting for September 16 and the town voted to appropriate \$4,000.00 to be matched by a like sum from the state so that \$8,000.00 was made available for that purpose and many were enabled to pay their taxes in this manner.

An appropriation of \$1,800.00 was made for work by delinquent poll tax payers on Riverside Drive through Gowen Memorial Park. Only a comparatively few embraced this opportunity to work out their poll taxes, however.

The Selectmen purchased the wood on several lots during the year and the entire work of chopping this wood was done by men on the welfare lists. 1,816 cords of wood were cut and 1,400 cords of it have been delivered in the two villages at a net cost to the town of \$5.24 per cord.

The extreme and unusual cold since November has caused an unusual demand for fuel for the needy which has been consistently met by your Board.

Attention is called to the financial statement of the town at the close of the year 1933 which shows a debt reduction during the year of \$62,508.52, leaving the total net debt at \$208,672.26 as compared with \$271,180.78 at the close of 1932.

During the past year the Selectmen have deemed it advisable to purchase a fourteen thousand gallon storage tank which has been installed at the Municipal Garage as a supply base for all town trucks and cars. This involved an outlay of approximately \$500.00 which has been offset by savings made over the amount which would have been paid at retail prices.

An improvement was made at the Springvale Incinerator plant during the year by having a small room with heater installed for the benefit of the manager during the severe winter weather.

The Selectmen had the bridge rails on all bridges and around the shoe factories painted with aluminum paint, the work being done by unemployed.

Improvements have been made at the Town Infirmary consisting of the laying of hard wood floors in three rooms.

We have purchased during the past year a small truck for the use of Road Commissioner Ridley and a large Casco truck and a smaller one for road work in the Southerly District.

In passing, we desire to express our sympathy for all the aged, infirm, crippled, poor and needy, and wish for them a time to come when each and all will be enabled to enjoy a more abundant life; for the overburdened tax payer a time to come when he can enjoy the use of more of his own money; and for all who have in any way assisted the Board, our sincere thanks.

In passing out our appreciation we do not forget the untiring efforts of Miss Myrtle Fletcher, Mrs. Marion Roberts and Mrs. Alice Chadbourne to keep the wheels turning.

Very respectfully yours,

ROSCOE C. BUTLER,

CHAS. G. ROBERTS,

MYRON E. BENNETT,

Board of Selectmen, Assessors

and Overseers of the Poor.

ANNUAL REPORT

of the

Sanford School Department

For the Year Ending December 31, 1933.

School Committee for 1934-35

Olivia W. Moulton, Chairman, term expires March, 1934.

John V. Tucker, term expires March, 1935.

Saul Shalit, term expires March, 1936.

(Phidelem Demers will take office at the expiration of Mrs. Moulton's term in March, 1934.)

Superintendent of Schools and Secretary of the School Committee, James A. Hamlin; residence, Main Street. Telephone, Office, 265; residence, 308-M. Office hours, 4 to 5 P. M.; Saturdays, 10 to 11.30 A. M.; while the schools are in session.

Office Clerk, Millicent A. Harmon, residence 16 Edmund Street, Springvale. Office hours, 8.30 to 11.30 A. M.; 1.15 to 5 P. M.; Saturdays, 8.45 to 11.30 A. M.

EDUCATION**REPORT OF THE SUPERINTENDING
SCHOOL COMMITTEE**

To the Citizens of Sanford:

Your School Committee beg leave to submit the following report concerning the public schools of Sanford for the year ending December 31, 1933.

We would call your attention to one change in the No School Signal. Hereafter the three blasts for no school in the high school will be blown at 6:45 A. M. and the No School Signal for the grades will be blown as formerly at 7:45 for no school for the forenoon session and at 11:30 A. M. for no school for the afternoon session.

We have been very fortunate in having a strong, capable teaching force. The teacher is the foundation of any school system, yet the whole structure needs more than a good foundation. We need the results of active sympathetic cooperation of the pupils, parents, and community. If there are policies or situations that you do not understand, talk the matter over freely with the teachers and school officials.

Increased interest and knowledge of school affairs will result in better schools. We earnestly urge your continued cooperation and help.

We have, as we feel we should, conducted our schools with the money given us without an overdraft in any account.

Respectfully submitted,

OLIVIA W. MOULTON, Secretary

JOHN V. TUCKER

SAUL SHALIT

EDUCATION

Superintendent of Schools

To the Superintending School Committee of the Town of Sanford:

I herewith submit to you and to the citizens of Sanford the following report concerning your public schools, this being the thirty-fifth in the series of annual reports from the Superintendent of this town.

The school year of 1933 has been a difficult one, and yet we feel that it has been marked by some progress. The enrollment in the grades has been so large that the work has been retarded, yet a spirit of cooperation between teachers, pupils, and parents has made the best of the situation, and the results have been as satisfactory as could be expected. Last year we had four seventh grades and only two eighth grades at the Emerson School. In September we were obliged to have another eighth grade. Miss Florence Morrill returned to the Emerson Building and Justin Nunan took charge of the eighth grade at the high school and during the time his grade was taking industrial work and during the afternoon periods teaches physical education to all the seventh and eighth grades. After school hours he coaches the boys in the grade schools in the various sports.

Hillman O. Fallon and Helen Fowler have taken up the work of Physical Education in the High School so that all students in the three lower classes are again gaining the benefit of health work. Miss Agnes Skillin was engaged as Music Supervisor and the results obtained have fully justified the expenditure. Florrie Wright was married during the summer and Vannie Oakes Duplisea was returned from the Hamlin to the Longfellow Building where she had formerly taught for several years. Mrs. Gertrude Hennigar was engaged to take Mrs. Duplisea's place at the Hamlin Building. All the other teachers remain the same as last year. Sanford has great reason to be proud of her teachers.

During the summer electric lights were installed in the Longfellow School and an iron fence was put up around the school grounds. These repairs have added much to the effectiveness of the work and to the safety of the children.

The three rural schools were repaired and painted on the inside during the summer and sanitary drinking fountains were installed.

During the fall two school projects were approved under the Civil Works Act. The Edison grounds have been greatly enlarged and improved under one project and under the other the class rooms and corridors have been repaired and painted.

EDUCATION

Several new sheetrock ceilings have been put in, new stair treads laid, a new teachers' room built and a fire door installed.

We are in hopes these projects will be continued as many rooms like the locker rooms, and all the basements could not be touched, and there are many outside repairs that could not be done on account of the season of the year.

Free milk and one hot dish to supplement the lunch children bring from home is also being provided from federal funds. Parents night was observed in the various schools and from these meetings parent-teacher associations have been formed.

Through the efforts of the various organizations of the town and the Women's Board connected with the local hospital, outstanding work has been done in correcting defects among the school children. On account of the cooperation of these women, and the skilful work of Miss Tabor as school nurse, the condition of the school children of Sanford has improved until today the defects rank very low compared with the average throughout the State.

The congested condition in the grades makes some radical change an absolute necessity. No final vote has been taken, but the school officials are considering very seriously, putting all four eighth grades in the high school building. Changes have been made so that the eighth grades can all have departmental work in the new wing toward Springvale.

In closing I wish to mention the splendid gift of an electric driven mimeograph machine to the School Department by Mr. Lloyd Batchelder. We appreciate this gift and the cooperation of all who have helped make the schools a success.

Respectfully submitted,

JAMES A. HAMLIN,

Superintendent of Schools.

EDUCATION**CALENDAR 1934-35**

Spring term, March 5, 1934 to April 27, 1934. Eight weeks. Vacation one week.

Summer term, May 7, 1934 to June 22, 1934, High School. Seven weeks. May 7, 1934 to June 15, 1934. Grade Schools.

Fall term, September 11, 1934 to December 21, 1934. Fifteen weeks. Vacation one week.

Winter term, January 1, 1935 to February 21, 1935. Eight weeks. Vacation one week.

Spring term, March 4, 1935 to April 26, 1935. Eight weeks. Vacation one week.

Summer term, May 6, 1935 to June 21, 1935, High School. Seven weeks. May 6, 1935 to June 14, 1935, Grade Schools. Six weeks.

School year: High School, thirty-eight weeks. Grades, thirty-seven weeks.

The calendar is subject to change whenever it seems advisable.

Holidays:

The schools have the following holidays:

Patriot's Day, April 19.

Memorial Day, May 31.

Armistice Day, November 11.

Two days at Thanksgiving.

Enrollment December, 1933

EDUCATION

NO SCHOOL SIGNALS

The No School Signal will not be used except in cases where there can be no doubt about its advisability. On stormy mornings parents are urged to use their own judgment about sending their children, as one street may be nearly impassable while others are all right.

Signals:

3 blasts blown at 6.45—No School for the High School.

3 blasts blown at 7.45—No School for the Grades for the forenoon session.

4 blasts blown at 7.45—No School for the Sub-Primary, 1st, 2nd and 3rd Grades for the forenoon session.

3 blasts blown at 11.30—No School for the Grades during the afternoon session.

4 blasts blown at 11.30—No School for the Sub-Primary, 1st, 2nd and 3rd Grades during the afternoon session.

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

The Faculty of the High School have carried on faithfully during the past year. Working conditions, study schedules, and, I may add, salaries have not been satisfactory. I hope that it may be possible to remedy these conditions in the near future.

The courses of instruction are unchanged except for the replacement of music and physical education.

The attendance at the time of this report, February 7, 1934, is 392—the smallest school in several years. It represents the cumulative effect of the depression which we hope is now passing away.

In view of conditions I have no recommendations to make, but individual reports from the members of the Faculty indicate that many things may be done to improve the school just as soon as the economic outlook becomes clearer. We all hope that this time may soon come. The things we want and will ask for are those things that make for the lasting good of the whole community.

Very truly yours,

GEORGE C. PURINGTON,

Principal.

EDUCATION**REPORT OF DIRECTOR OF VOCATIONAL
EDUCATION**

To the Superintendent of Schools:

I herewith submit my thirteenth annual report of the Vocational Department of the Sanford Public Schools.

The class instruction in the grades is as in the past, trade informative. We try to open the eyes of the students to opportunities for life employment in a number of vocations.

In the high school classes we present vocational education, and the courses are fully recognized by the Federal government. The cost of these courses is largely borne by the government through the Smith-Hughes Act.

No new equipment has been added during the past three years, due to the economy program of the town.

The people are becoming aware of the fact that it is poor economy to expect the children to earn a living in a complex world with a meagre education.

There will be more vocational subjects taught instead of fewer. We must prepare these girls and boys for life, and the first preparation for life is that they be able to hold down a job. We must educate or train these young people for life in the town of Sanford, which means work in the town of Sanford.

I firmly believe that our schools will offer more of the practical things in life. This change will come within the schools by the cooperation of parents and teachers, not by destruction by irate tax-payers.

The Evening School was reopened after insistent demands by citizens. We have the largest enrollment in the history of the school. There will be more demand for Adult Education as is plainly shown by this large school. The shorter working week permits the adult to go to Evening School where he not only has an opportunity to improve himself along lines that occupy his working day, but to prepare for a better position in life and more intelligent use of his increased leisure.

Respectfully submitted,

LESLIE W. MacKAY,

Director of Vocational Education.

EDUCATION

REPORT OF THE DIRECTOR OF HOME ECONOMICS

To the Superintendent of Schools:

I herewith submit my report of the Home Economics Training as given in Sanford High School during the past year.

There has been no change in the course of study for the Home Economics training. The four year course includes Household Arithmetic, Food Study, Household Problems, Accounting and Budgeting, Improvement, Costume Design and Clothing Appreciation, Child Care and Training, Family Relationships, Dietetics and Household Chemistry. Besides these studies each girl is required to take four years of English, Social Science and other required elective subjects.

Out of the one hundred and ninety-three girls in High School, seventy-four girls have taken all or a part of the Home Economics subjects. It is always true that a certain percentage of our girls leave school at the end of the first or second years and, occasionally, girls enter the course at the beginning of their second or third years. While they derive the benefit of the studies, they cannot receive a Home Economics diploma, because they do not complete the required four years of Home Economics studies.

The Home Economics work in the Sixth, Seventh, and Eighth Grades includes Cooking, Sewing, Household Problems and Health Education, as well as social problems taken up in the Home Economics Club. This work is in charge of Miss Phyllis Johnson, and the girls receive excellent training and develop proper attitudes toward this phase of their education. This fact probably is responsible for the large number of Freshman girls choosing the Home Economics Course in High School last fall.

Other activities which are directly connected with the High School Home Economics Course are:

- (a) Home Projects: The purpose of which is to enable the girls in cooperation with their mothers to take certain responsibilities of the home, which will give them actual and valuable experience in real home surroundings.
- (b) The Play School: This project was very successfully conducted again last fall for eight weeks under the direction of Miss Sarah Blaisdell. The group of children who came to the Play School offered many opportunities for observation and man-

EDUCATION

agement to the Senior girls in the Child Care and Training class. The School is valuable for the little children, as well as the girls, because of the group contacts.

- (c) The High School Home Economics Club is an organization of the Home Economics girls and for two years has been affiliated with the State Home Economics Association. This Club affords opportunity for the girls to develop right social attitudes, to conduct meetings, to work in committees and groups, to prepare exhibits, and to come in contact with larger Home Economics organizations.

In closing I wish to express my sincere appreciation to all who make the maintenance of this course possible, and also to the teachers for their valuable service.

Respectfully submitted,

BLANCHE C. PHILBRICK,

Director of Home Economics.

Expenditures

8,821.85

HIGHWAY DEPARTMENT**Receipts Expenditures**

Note: The Selectmen and Advisory Council deemed it advisable to purchase a tractor, as it was costing approximately \$150.00 a day for tractor hire breaking snow. At the time of purchase it was the opinion of the Advisory Council and Selectmen that money might be available from the Poor Account or back taxes. The town voted against such a transfer.

REPORT OF WORK ACCOMPLISHED BY CIVIL WORKS ADMINISTRATION FEDERAL EMERGENCY RELIEF ADMINISTRATION

The Federal Work Relief Projects began on November 23, 1933. The first projects were operated under the Civil Works Administration and continued under this division until April 5, 1934. At this time all projects were transferred to the Federal Emergency Relief Administration, and has continued under this division until present date.

From November 23, 1933 to November 15, 1934, thirty-four projects have been approved by the Federal Administration for the Town of Sanford. For this period the Government contributed for relief of unemployment in Sanford \$103,721.81, and the Town has contributed for material, equipment, etc., the sum of \$20,971.78.

Following is a list of projects:

| SEWERS | Village of Sanford |
|----------------------------------|----------------------------|
| Errol St. | 442.85 ft. of 8 in. pipe |
| Beulah St. | 720.24 ft. of 8 in. pipe |
| Vaness St. | 388.43 ft. of 8 in. pipe |
| Lavin Court. | 374.10 ft. of 8 in. pipe |
| Whitman St. | 836.83 ft. of 8 in. pipe |
| Alfred Road. | 402.23 ft. of 8 in. pipe |
| Alfred Road to Septic Tank. | 670.51 ft. of 8 in. pipe |
| Whitman St. to Cottage St. | 1220.06 ft. of 8 in. pipe |
| Cottage St. to Hammond St. | 1208.28 ft. of 10 in. pipe |
| Madison St. | 353.81 ft. of 10 in. pipe |
| East Side Trunk Line | |

STORM SEWERS

| | |
|---------------------------------|------------------------|
| Lebanon St. | 165 ft. of 36 in. pipe |
| Cottage St. to Russell St. | 340 ft. of 18 in. pipe |
| Cottage St. to Russell St. | 50 ft. of 10 in. pipe |

STORM SEWERS

| STORM SEWERS | Village of Springvale |
|------------------------------------|---------------------------|
| Mill St. | 321.48 ft. of 18 in. pipe |
| Reed St. to Mousam River. | 530.55 ft. of 10 in. pipe |
| Bridge St. from Main St. to River | 515.23 ft. of 18 in. pipe |
| Rear of Augustus Grant's residence | 150 ft. of 36 in. pipe |
| Playground. | 554 ft. of 18 in. pipe |

Thus, 9243.61 feet of sanitary and storm sewers have been completed. The sanitary sewers provide sewerage facilities for 142 houses, and Y's were left for connections.

PARKS AND PLAYGROUNDS

Demolishing buildings on Willard Lot.
Building park on Willard Lot.
Demolishing buildings on Gowen Memorial Park.
Building Dam and clearing lot for winter skating.—Elizabeth-Benton Playground.
Clearing and grading lot—Springvale Playground.
Grading Edison School Playground.

STATE HIGHWAY

2742 feet of State Aid Highway No. 8.

GOODALL MEMORIAL HOSPITAL

Building road from ambulance entrance to the Alfred Road.

SEWING PROJECT

A group of women have been making garments for the needy. Among the articles made were 915 pairs of mittens, 297 pairs of trousers, 158 girls' winter coats, 918 women's and children's dresses, 218 baby's clothing.

TOWN HALL

Painting Interior.

PUBLIC LIBRARY

One Clerk.

NURSES

Two registered nurses have been employed to work among the needy of the town.

SANFORD WATER DISTRICT

Laying Water Mains.
One Draftsman.

CLERKS

One clerk for copying town records. One clerk for administration.

PUBLIC SCHOOLS

Repairs and painting interior.
Cleaners.

SANFORD AIRPORT

Addition and repairs to hangar.
Constructing runways.

REMOVING OF GYPSY AND BROWN TAIL MOTHS**REMOVING OF DEAD APPLE TREES****CANNING PROJECT**

\$8,000.00 was secured from Federal funds to straighten the "S" curve at Branch Brook between Sanford and Wells.

The largest number employed at any one time was 288 men and women, the least number employed was 130.

Summing up the whole proposition of Federal Relief, Sanford has expended \$20,971.78 to meet the Federal Government's allotment of \$103,721.81; it has furnished employment to men and women who had much prefer to earn their living rather than have it furnished to them by the town; and finally it has provided the town with many worthwhile projects at a very low cost. Many of these projects such as sewers, water mains, painting of public buildings, and state highway would have sooner or later become absolutely necessary, and the town would have been called upon to bear the entire expense.

The last set of Federal projects were submitted on August 28, 1934 and approved by the State Administrator. Up to the above date no project or projects were ever submitted to me for approval other than those appearing in the above list.

MYRON E. BENNETT,

Local Federal Administrator.

SUPPLEMENTAL REPORT

Personal Property Paid After Settlement \$145.13

The reason for the foregoing report and listing of Unpaid Taxes is in compliance with the following Statute:

Sec. 63. SELECTMEN AND TREASURER TO MAKE REPORTS; PRINTED REPORTS TO BE DISTRIBUTED BEFORE ANNUAL MEETING: ALL TOWN BOOKS TO BE OPEN FOR PUBLIC INSPECTION: PENALTY FOR REFUSAL OR NEGLECT. R. S. c4, P. 45. Persons charged with the expenditure of money of a town, shall, on or before the morning of each annual meeting, make a full, detailed written or printed report of all their financial transactions in behalf of the town during the municipal year immediately preceding, with a full account of the receipts and disbursements during that period, and to whom and for what purpose each item of the same was paid, with a statement in detail of the indebtedness and resources of the town; including a list of all unpaid taxes which have been committed to the treasurer or collector for collection, giving the names of all delinquent taxpayers and the amount due from each. Such reports, or like reports of town auditors, if printed, shall be distributed to the voters on or before the morning of the annual meeting, or, if not printed, shall be presented and read in open town meeting before the election of selectmen; and, whether written or printed, shall be kept deposited in the office of the selectmen, or if they have no office or usual place of business with the town clerk, with proper vouchers for the disbursements reported, where such reports and vouchers, and all the books of the town shall be open during the usual hours of business, to the inspection of voters; and if any town officer refuses or neglects to perform any requirement of this section, or refuses to allow any voter to examine such reports, vouchers, and town books, he shall be punished by a fine of fifty dollars for each refusal or neglect.

CLERK'S REPORT

The following remarks with reference to the collection of taxes for the year 1934 are made in connection with the reason shown above for the listing, etc., of delinquent tax payers. Your collector will, on January 1, 1935, be relieved of the offices of Clerk and Collector which he has held since March, 1926. There will be some Personal Property and Poll Taxes that will be outstanding on the above date, therefore, it appears only fair that some comment should be made with reference to the collection of these taxes. I feel that the use of law or any undue force will not avail much, except to put the delinquent tax payer in a worse position and possibly to force several to bankruptcy; so, regardless of the fact that I will be obliged to make these collections, I do not intend to use the law in most of the delinquent cases. However, there are several cases wherein the law appears to be the only recourse and IT WILL BE USED to make these collections.

I would at this time extend my appreciation to the voters of the Town of Sanford for the support given me during my tenure of office and I trust that I have given satisfaction worthy of the consideration they have shown me. I am both ready and willing to give any help or information that may be required or requested to my successor.

LINWOOD J. EMERY,

Tax Collector.

REPORT OF THE BOARD OF ENGINEERS SANFORD FIRE DEPARTMENT—1934

To the Municipal Officers of the Town of Sanford:

The Board of Engineers of Sanford Fire Department hereby submit their report for the ten months ending October 31, 1934.

This Department has responded to 210 alarms, 38 bells, 170 stills, and 2 house calls. Total value of property endangered, \$587,300.00. Total damage on property, \$5,545.98. Total insurance paid on property, \$5,045.98.

The Board of Engineers ask that when a box alarm is sent in, the person sending same remain at the box until the apparatus has arrived, as some time is lost in finding the fire at times.

The record of our department for the ten months plainly show that carelessness was the cause of nearly every fire. As usual, the largest number of alarms resulted from carelessness in not keeping chimneys clean. It often happens that old or improperly constructed chimneys develop cracks in that portion passing through the attic and thus become a continual menace.

It would be well for all property owners to bear in mind that a permanent record of inspections by the Fire Department is made, and these records are open for inspection. If you have a fire menace, get rid of it, and thus keep your record sheet clean.

The permanent men have made 1,250 inspections of business places, 192 inspection cards have been issued to property owners.

There has been installed in the Fire Station a Gamewell Rectifier system in place of the motor generator set for the charging of batteries, making a saving of at least 30% on current consumption and 50% on storage battery cost.

Your equipment at the Fire Station is in excellent condition, with the exception of the old Lippard Stewart, this truck has been in use since 1912 and is in bad shape, we recommend the purchase of a new chassis at a cost of \$700.00.

The thanks of the Board of Engineers is hereby extended to the permanent men for their efficient attendance to their respective duties during 1934, and also extend to the officers and members of the Department our sincere thanks for their loyalty to duty and services rendered, and in closing, we wish to express our constant appreciation for the cooperation of the Springvale Fire Department which is always ready to render their assistance.

Respectfully submitted,

VON E. GERRY, Chief

LINWOOD J. EMERY, 1st Ass't.

ROBERT RANKIN, 2nd Ass't.

REPORT OF CLERK OF SANFORD FIRE DEPARTMENT

To the Municipal Officers of the Town of Sanford, Maine.

I hereby submit the following report of the Sanford Fire Department for ten months ending October 31, 1934.

The Department has responded to 210 alarms, 38 bells, 170 stills, and 2 house calls.

| | |
|--|--------------|
| Total value of property endangered | \$587,300.00 |
| Total damage on property | 5,545.98 |
| Total insurance paid on property | 5,045.98 |
| Total feet of hose laid | 33,250 |
| Total gallons of chemical used | 1,764 |
| Total feet of ladders raised | 2,913 |
| Total miles apparatus traveled | 618 |

Respectfully submitted,

G. F. FERGUSON, Clerk.

THE ANNUAL REPORT OF THE BOARD OF ENGINEERS OF THE SPRINGVALE FIRE DEPARTMENT

To the Municipal Officers of the Town of Sanford:

The Board of Engineers of the Springvale Fire Department hereby submit their annual report for the year ending October 31, 1934.

This Department has answered an average number of calls, as the Clerk's report will show, and with the exception of two fires which had gained considerable headway before discovery, the fire loss has been kept to a very low figure.

The Fire Station and all of the equipment, with the exception of Chemical No. 1, is in excellent condition.

Again this year, we wish to bring to your attention the serious need for a new piece of apparatus to replace the old chemical truck. This truck is the most active piece which we have and it is necessary that it answers all calls, therefore it must be dependable. This truck was originally designed to carry three quarters of a ton and for thirteen years it has been carrying from two to three ton. This overloaded condition has put this truck practically beyond repair. It will not pass the official state brake tests and is a menace to traffic when on the road.

In our opinion this condition is very serious and should be remedied at once therefore, we strongly recommend the purchase of a 750 gallon pumping engine to replace this truck.

This past year we have installed copper oxide rectifiers to the fire alarm system to replace the old manually operated tungar charger. The installation of the rectifiers will reduce the maintenance costs of the fire alarm system about one hundred dollars per year and will also give far better results.

We wish to take this opportunity to express our thanks to the Board of Selectmen, and also to the officers and members of the Sanford Fire Department for their hearty cooperation. We also wish to express our gratitude to the members of this department for their unselfish loyalty.

Respectfully submitted,

CLYDE E. HARTFORD,
RAYMOND Y. LORD,
STANLEY G. TURNER.

REPORT OF THE CLERK OF THE SPRINGVALE FIRE DEPARTMENT

Springvale, Maine
October 31, 1934.

To the Municipal Officers of the Town of Sanford:

I hereby submit the following report of the Springvale Fire Department from January 1, 1934 to October 31, 1934.

The Company has responded to 97 alarms, consisting of 81 stills, 10 bells, and 3 out-of-town and 3 out-of-town house calls.

The Company has also made 654 inspections and held 6 drills.

| | |
|---|--------------|
| Total value of property endangered | \$298,900.00 |
| Total damage to property endangered | 17,808.05 |
| Total insurance paid on property endangered ... | 8,358.05 |
| Loss | 9,450.00 |
| Number of feet of hose laid | 10,500 |
| Number of feet of ladder raised | 2,517 |
| Number of gallons of chemical used | 1,877 |
| Number of gallons of Foamite used | 2½ |
| Number of miles apparatus traveled | 296.2 |

Respectfully submitted,

CARLTON P. BICKFORD,

Clerk,

SANFORD MUNICIPAL COURT

January 1, 1934 to October 29, 1934

| Safe doors open | 2 |
| Keyes found in store doors | 6 |
| Gas pumps unlocked | 5 |
| Night lodgers put up over night | 391 |

I feel that this Department could operate more efficiently with the addition of three more men. At the present time, there is only one man during the day covering both Sanford and Springvale.

I wish to take this opportunity to thank the Selectmen, permanent men of the Sanford and Springvale Fire Departments, local State Detective, local State Police and Deputy Sheriffs for their assistance and cooperation.

Respectfully submitted,

ERNEST L. CHADBOURNE,

Chief of Police.

REPORT OF THE SANFORD TOWN FARM

To the Selectmen of Sanford:

The following is a list of articles and produce on the farm as of October 31, 1934:

Two hundred twenty quarts and two hundred seventy-eight cans of fruits and vegetables.

One hundred bushels of potatoes.

Two barrels pumpkins.

Three barrels squash.

One barrel cabbage.

One barrel parsnips.

Eleven tons of hay and oats.

Twenty cords of fitted dry wood and 28 tons of coal.

One horse.

Two cows.

At the present time there are sixteen inmates:

Mary Springer, 79; Charlotte Harding, 57; Mary Liberty, 57; Rosa Dean, 22; Helen Dean, 9 months; Wilburnita Edrie Dean, 2; Lillian Allen, 58; Germaine Perreault, 22; Richard Perreault, 2 weeks; James Palmer, 83; Theodore Eustace, 72; John Robertson, 55; Walter Edgerly, 66; John Smith, 74; Willis Fogg, 74; James Cleveland, 65. Total number during the year, 20.

Respectfully submitted,

GEORGE S. LOWD,

Superintendent.

REPORT OF HEALTH OFFICER

To the Selectmen, Town of Sanford, Maine.
Gentlemen:

Your Health Officer herewith submits his report of health work from January 1, to October 31, 1934.

The health conditions of our town during the past ten months have been favorable.

We have not had an epidemic of any disease, yet, we have had several sporadic cases of the various communicable diseases, as follows:

| | |
|------------------------|----|
| Whooping Cough | 8 |
| Vincent's Angina | 1 |
| Scarlet Fever | 19 |
| Pneumonia | 16 |
| Influenza | 1 |
| Chicken Pox | 2 |
| Measles | 56 |
| Meningitis | 3 |
| Typhoid Fever | 4 |
| Mumps | 6 |
| Undulant Fever | 1 |
| Diphtheria | 4 |

There were no diseases that could be traced to the food, milk, water or ice supply.

Free vaccination was given with the assistance of Miss Tabor, the School Nurse, in the Town Hall, three days in March and three days in August to all that applied.

Quarantine of the communicable diseases have been maintained, fumigation and disinfection carried out when and where required to prevent further spread of the disease.

Forty-nine cultures were examined for the purpose of discovering "carriers" of disease germs.

During the year, all cows whose milk or cream is sold in Sanford have received the Tuberculin Test.

The dairies whose products are sold in town, have been frequently inspected and suggestions for sanitary improvement were given when advisable, which were complied with.

Many samples of milk and cream have been selected at random from the vehicles of the milk men and stores, and with a few exceptions were found satisfactory as to cleanliness and food value.

Occasional visits were made to hotels, restaurants, lunch wagons, stores, markets and barber shops for sanitary inspection.

There were several complaints of nuisances, which were promptly abated.

The garbage is collected once a week, and apparently satisfactory to all.

The incinerators and dumps are well taken care of.

With the assistance of Miss Tabor all school children are being examined physically and we hope to be finished before January 1, 1935.

As Town Physician, the writer has attended several cases of illness daily among the families of the needy unemployed.

In conclusion, I wish to extend my sincere thanks to the doctors, public health nurses and the citizens in general for their cooperation.

Very truly yours,

W. H. Kelly, M. D.,

Local Health Officer.

REPORT OF PARK COMMISSION FOR 1934

The present year has been a very busy one for the Park Department, for it has assumed the proportion of a major department in the affairs of the town, due to the fact that considerable new property has been made available in the two villages for strictly park and playground purposes.

At the annual town meeting held on December 4, 1933, the citizens voted to purchase several parcels of land for purely park and playground purposes. The most important of these was the Hosea Willard property adjacent to the town square. During the early spring this was made a Federal Emergency Relief project and under the supervision of this commission and the ERA Administrator for Sanford, Major Myron E. Bennett, the buildings were razed, and the material salvaged, the proceeds reverting to the park. Construction of the present layout was carried through to completion by this same crew.

Several small adjoining parcels of land in Springvale Village, in the rear of the Main Street property of the E. E. Wentworth Estate, were purchased by vote of the town and the development of this into a playground has been steadily progressing as an ERA project.

The property at the rear of the High School and extending easterly to the Mousam River, was purchased by vote of the town from the Fred J. Allen Estate for park purposes, but no development has been made during the current year due to lack of funds.

The Elizabeth-Benton Playground was opened on July 2 and closed on September 1. There was an average of 125 children present daily under the supervision of Hillman O. Fallon, with Miss Louise Mallinson as assistant. Games and athletic sports were carried out each day, and under Miss Mallinson's direction instruction was given in woodcraft, bird study, and the allied subjects. The lower or westerly end of the playground is being developed as a skating rink by the ERA. A concrete dam and retaining walls have been built and the growth and turf removed. The foundation for two tennis courts has also been built on the upper end adjacent to Kimball Street.

The Edward H. Gowen Memorial Park is being developed according to a carefully made plan. The buildings on this property were razed and lumber and materials salvaged, the proceeds of same reverting to the general fund for the development of the property. A stone retaining wall is being built forming a terrace overlooking the entire property, and giving a magnificent view of one of the most beautiful spots in the town. Paths are being built and there are many other features planned that will make available the real beauty of this park to the inhabitants of the community.

There has been a great deal of effort made to obtain tennis courts, and we are reasonably certain that these can be built in the spring of the coming year.

There is much to be done in future development of the various parks of the town. Much of it will be slow in accomplishment, but we are greatly indebted to the Emergency Relief Administration and the wise supervision of the local administrator for the tremendous amount of constructive work that has been done during the past year. There is need of proper care of these various properties in order to maintain their usefulness.

There is much that should be done to improve the condition of the shade trees bordering the streets of the town, but this of necessity can be done but gradually.

Respectfully submitted,

RALPH B. EMERY,

HARRY STOTT,

F. EVERETT NUTTER,

Park Commission.

AUDITOR'S REPORT

During the year 1934, to October 31, the same system of preparing the weekly warrants, auditing the bills and payrolls before payment has been continued. A summary of each week's orders issued by the Selectmen and paid by the Town Treasurer has been published in the Sanford Tribune. Several times during the year a statement showing the Appropriations, Reserves and Income, Total Amount Expended and Balance of Appropriations has been published.

The same system of handling the orders for the Relief of Poor has been continued, orders issued by the Selectmen being required for groceries, rent, clothing and fuel.

The Tax Collector's records have been checked at regular periods during the year and the collections for the fiscal year, to October 31, and for past years proven.

The records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector have been checked with my records for the past ten months and are, I believe, correct.

At this time, I wish to express my appreciation for the hearty cooperation which each department of the Town of Sanford has always given me.

Respectfully submitted,

MARGARET M. SHAW,
Auditor.

Sanford, Maine

November 17, 1934

REPORT OF SELECTMEN, ASSESSORS AND OVERSEERS OF THE POOR

Citizens and Taxpayers of Sanford:

Your Selectmen, Assessors and Overseers of the Poor respectfully submit a brief story of the activities that have absorbed our attention during the past ten months.

That part of the administration of town affairs coming under the heading of Welfare and Pensions, is, and seems likely to be for some time to come, a major problem. Remunerative labor, not charity or dole, is what is most needed to bring about a permanent solution of this distressing problem.

For the ten month period covered by this report, the total cost to the town for food, rent, clothing, fuel, board and care of children in state institutions, medical attendance, etc., has been \$51,296.61. November and December expenses in this department will undoubtedly be heavier than any previous two months, since local industries are far from being on full time schedules.

The amount of money spent for relieving distress by the town does not complete the picture by any means, since we have received and distributed liberal quantities of food and clothing furnished by the Federal Government and for which our thanks are respectfully extended. Labor employed upon local ERA projects has also relieved our taxpayers of an almost unbearable burden.

The money paid out in this department must not be considered a total loss, however, for never before has the town received so much in the way of labor performed by those receiving town aid. Our road commissioners have received more labor on road work than ever before, have been enabled to cut more bushes than ever before, and the town wood yard has been furnished with approximately 1,400 cords of wood chopped by those receiving aid. In fact, whenever and wherever possible, the Overseers of the Poor have required work for assistance rendered by the town.

Valuation and Taxation

Valuation of real estate and personal property for taxation purposes showed a further decline in 1934, and though there appears to be a slowing up in the shrinkage process, it appears to us as likely to continue for some time to come.

In 1929, the year when prosperity seemed to have reached its peak, Sanford's total valuation amounted to \$11,629,654.00, while the figures for 1934 were \$9,950,730.00. These figures show that taxable values have declined in the five year period a total of \$1,741,924.00, and were we to figure taxes upon

this amount at the current rate of \$45.00 per \$1,000.00 of valuation, it will be seen that Sanford's taxpayers are actually contributing approximately \$78,000.00 less in taxes than formerly.

In spite of this fact it is becoming more and more difficult yearly for real estate to meet the burden demanded of it, and it appears plain that a broader base must eventually be found if we are to maintain the various functions and services demanded by society.

Why there will be less taxable property in 1935 may be seen when it is remembered that the town has purchased the Willard Lot, the Allen Lot, the Springvale Playground Lots, the Downs Lot, the Gendron Lot, for parks and playgrounds, and that many buildings are being demolished including the Sanford Hotel, the old Lincoln School, the old Catholic Church at Springvale, and probably twenty or more houses in Sanford and Springvale. The above mentioned will reduce the tax base possibly \$30,000. The town has found it necessary to have about sixty deeds of property recorded at Alfred with a further valuation of approximately \$20,000.00, so that it is easy to see that these facts must be faced when making up a budget for 1935.

Streets and Sewers

Another section of third class road leading from High Street to the highway leading from South Sanford to Alfred has been completed this year, a distance of 2,983 feet. This completes the road and when the surface has been treated with tar, it will be another splendid road to Alfred. Continuing a policy established in 1933 many real estate tax payers were given opportunity to work out their taxes on this job.

The State Aid Highway started last year near Butler's Bridge has been continued this year and good progress has been made toward completing the work. A total of 4,742 feet is now done leaving only 580 feet to be built to reach Route Number 8, this job was done as far as possible by citizens given a chance to work out real estate taxes.

The so-called "Harry Howes" road has been improved a distance of 1,562 feet in accordance with a vote of the town.

The Selectmen favor a continuation of the policy of improving rural roads as rapidly as possible under present conditions, since when these roads are properly constructed and of regulation width, they are easier to keep open in winter, and if accepted by the State Highway Commission, aid may be had in a financial way from the State, and money will be saved yearly on repairing washouts and cutting bushes.

In connection with the subject of roads and road building we call attention to the purchase by the Highway Department this year of a Reliance Rock and Sand Screening outfit. This has been removed from Lebanon where it was located and set up at the town stone crusher on the Berwick Road. This outfit which cost originally \$3,700.00 and was only used on one large road job, was sold to the town for \$700.00. The cost of removing and setting up added \$267.00, bringing the total cost to the town up to only \$967.00, so that the town has a splendid crushing and screening plant worth \$5,000.00 or more.

Unusual and unavoidable expenditure of money for Winter Highways was made necessary by the heavy snow fall of the late winter months, causing large overdrafts in this department.

We here call attention to the fact that snow removal is an item that must be taken care of. U. S. Government regulations require towns and cities to keep roads open for delivery of mail; the School Department is insistent that children shall have the right to attend school; farmers have a right to demand that they get into town for supplies and sell their milk and farm produce; physicians ask that roads be kept open that they may visit patients. When it is considered that in the Sanford district there are 173 miles of streets and roads, approximately one-third as many more in the Springvale district, and when it is remembered that some 38 miles of road in the Sanford district are country roads, it ought to be plain that necessary equipment should and must be provided to keep the roads open in a reasonable manner.

Lack of proper equipment to cope with the unusually heavy fall of snow the latter part of the winter necessitated enaging the Sanford Mills equipment and also that of Mr. Pillsbury to some extent, and even this was inadequate to do the job. Public clamor was so great that a meeting of the Finance Committee was called by the Selectmen and the situation gone over and by their advice a tractor and snow plow was purchased for use in the emergency.

Heavy rains caused the Highway Department an unusually large expense in repairing damages caused by washouts—in one case it cost \$1,361.00 to repair roads. School Street has undergone a great improvement this season, the deep gutters filled and treated with tar making a wider street and this improvement has been completed at an opportune time in connection with the widening of the Square and Washington Street.

The removal of the buildings at the Gowen Memorial Park, the stable of which has been heretofore used by the Highway Department for storage of road equipment and sand for sanding streets, has made it necessary for the town to build

another building to take place of this one, and one is being constructed at the town gravel pit on the North Berwick Road. This building is very conveniently located in close proximity to the gravel pit and is in size, 40 feet by 80 feet, with driveway in center making it very convenient for loading in all kinds of weather.

An improvement at the Municipal Garage worth mentioning consists of an addition 24 feet wide the entire length of the building which was made necessary in part to provide for the new tractor and snow plow, and possible in part by removal of the old building at the Springvale Incinerator lot, a section of this to be used for road equipment and a part for storage of sand.

During the past summer a storm sewer was constructed on Auburn Street in Springvale, jointly by the highway department and sewer department, with the labor furnished almost entirely from the Welfare rolls. This sewer will take care of an annual overflow from the lowlands in that vicinity and carry it into Chapman Brook.

Probably more bushes were cut during the past season than ever before, this work too, was accomplished by workmen from Welfare rolls with proper supervision by the Highway Department.

Many manholes and catch basins have been constructed in both villages the past year to improve the sewer system.

The Town Farm buildings have been greatly improved this year by erection of dormer windows on each side of the long ell which houses the men's ward, this addition makes room for two additional beds, makes rooms light and more sanitary and is greatly appreciated by the inmates. Six rooms were given a thorough renovation and we recommend an appropriation for renovation of twelve more rooms and for painting the outside of the entire buildings.

The Selectmen have had the old town hall at Springvale painted and new windows installed making a long needed improvement and one which seems to have met with the approval of the public.

Sixty-six new election booths to conform with election laws have been purchased this year, and arrangements for storage of these has been made at the Municipal Garage.

All old deeds to town property, 240 in number, have been copied this year, and assembled in a suitable binder and indexed, making an improvement in town records greatly needed.

Likewise all town by-laws and ordinances and building codes have been copied, indexed and assembled in a suitable binder.

We recommend the purchase of a suitable plan book for use of the engineering department of the town.

The rebuilding of the Power Station dam has just been completed according to a vote of the town, made necessary because of the power company no longer made use of the power at this point, and did not care to rebuild it. It was rapidly falling into decay and had caused a lowering of the water approximately five feet so that it did not sufficiently cover a septic tank near the old mill above.

The Selectmen recommend an appropriation for painting all woodwork on the Sanford Town Hall the coming season.

Considerable confusion and misunderstanding has been caused this year because of the conflicting provisions of the building code which seems to provide that the Inspector of Buildings should also be wire inspector. There is also misunderstanding in regard to fees to be charged for the issue of building permits.

We feel that by a vote of the town this matter should be cleared up once for all time.

We suggest that it would possibly be to the advantage of the town if the building code should provide for the appointment of a Wire Inspector whose duty it would be to be town electrician and superintendent of the fire and police alarm systems, also to maintain all the wiring in the municipal owned buildings as well as to inspect any new wiring or wiring alterations and receive a fixed compensation from the town with all fees returnable to the town.

We recommend a small appropriation to enable the Selectmen to appoint an Inspector of Oil, Gasoline, etc., in accordance with a new state law. If an Inspector is appointed it will be necessary that he be furnished suitable instruments to test these commodities according to the law.

In conclusion we realize that it is impossible to touch upon all of the various activities of the town, many of these will be adequately covered in the reports of the various departments in their own way and we trust to the satisfaction of all.

It has been said that "The main product of a town is the happy life of the people who live in it rather than the trainloads of industrial products which it may fabricate." With this thought in mind, it is a mental tonic to drop for a time the daily grind of wrestling with welfare problems and other

troubles and to think of what may lie ahead. We certainly hope that the worst is over, that a new day is dawning when our people will get work with remuneration commensurate to their domestic requirements. We greatly value this opportunity to discuss some of the features of our town affairs. We realize that the Selectmen have possibly made mistakes the past year both of omission and commission, but unintentional, we assure you. Our fundamental principle has been to do the right and just thing by all.

We desire to express our sincere thanks to all departments of the town for their cooperation, also the Finance Committee and other citizens for valuable advice and to the faithful, untiring efforts of the office force, Marion W. Roberts, Alice Chadbourne, Myrtle V. Fletcher, and the auditor, Margaret M. Shaw.

Very respectfully yours,

ROSCOE C. BUTLER,

CHAS. G. ROBERTS,

MYRON E. BENNETT,

Selectmen, Assessors and Overseers of the Poor.

ANNUAL REPORT

of the

Sanford School Department

For the Ten Month Period Ending October 31, 1934

SCHOOL COMMITTEE FOR 1934

John V. Tucker, Chairman, term expires March, 1935.

Saul Shalit, term expires March, 1936.

Phidelem S. Demers, term expires, December 31, 1936.

Superintendent of Schools and Secretary of the School Committee, James A. Hamlin; residence, Main Street. Telephone, Office, 265; Residence, 308-M. Office hours 4 to 5 P. M.; Saturdays, 10 to 11 A. M.; while the schools are in session.

Office Clerk, Millicent A. Harmon, residence, 16 Edmund Street, Springvale. Office hours, 8.30 to 11.30 A. M.; 1.15 to 5 P. M.; Saturdays, 8.45 to 11.30 A. M.

EDUCATION**REPORT OF THE SUPERINTENDING SCHOOL
COMMITTEE AND PROPOSED
SCHOOL BUDGET**

To the Citizens of the Town of Sanford:

Your School Committee beg leave to submit the following report concerning the public schools of Sanford for the year 1934.

The problem of overcrowded rooms and inability to seat pupils has been constantly with us during the past year. We realize that the only permanent and satisfactory solution is more school rooms in the southerly end of the town, but we cannot provide these by simply waving a wand. We were obliged to meet the increased enrollment with the budget and the facilities that we had this year.

The School Committee individually and collectively have studied the situation, talked the difficulties over with the parties concerned, and with groups like the Parent-Teachers' Associations.

We decided that the best immediate solution was to reopen the Lincoln School and to take enough pupils from the overcrowded rooms in Sanford Village to Springvale in two buses; one starting from South Sanford and going through the East Side of the Town and the other starting from the North Berwick line and going to Springvale by the way of Main Street. We all appreciate the way parents have cooperated to make the plan as good as possible.

Reopening this building has increased our teaching force by four, our janitors, by one, the conveyance by one thousand dollars, besides the extra expenses connected with a building like fuel, water, lights, etc.

On account of the increased enrollment at the High School, the faculty has been increased, but the total amount of cost is kept nearly the same. In several cases we have spent less than was planned at the beginning of the year, and in other cases more, but we have tried to do the most we could for the children of Sanford with the money given us.

We greatly appreciate the help given the children of Sanford from the Lucy Emery Fund.

Although the enrollment problem has been acute during the past year, the prospects are that it will be still more so during the year to come. The High School enrollment should increase greatly.

We would recommend that a special committee be elected by the Town to work with the School Committee and report back to the Town as to the locality, kind of building, and the expense that should be considered by the Town to meet the present situation.

This budget is made out to run the schools just as they are now—all plans for changes and expansion will be taken up with the Finance Committee.

We recommend the following budget:

HIGH SCHOOL

| | | |
|----------------|-------------|--------------------|
| Teachers | \$25,745.76 | |
| Janitors | 2,155.00 | |
| Fuel | 2,500.00 | |
| Overlay | 500.00 | |
| | | <u>\$30,900.76</u> |

Estimated Receipts

| | | |
|-------------------------------|-------------|--------------------|
| Tuition | \$ 2,500.00 | |
| Physical Education | 800.00 | |
| State Aid | 3,500.00 | |
| | | <u>\$ 6,800.00</u> |
| Necessary Appropriation | \$24,000.00 | |

COMMON SCHOOLS

| | | |
|------------------|-------------|--------------------|
| Teachers | \$48,322.00 | |
| Janitors | 5,394.40 | |
| Conveyance | 4,966.25 | |
| Fuel | 3,000.00 | |
| Overlay | 500.00 | |
| | | <u>\$62,182.65</u> |

Estimated Receipts

| | | |
|-------------------------------|-------------|--|
| State Aid | \$15,000.00 | |
| Necessary Appropriation | \$47,000.00 | |

TEXT BOOKS AND SUPPLIES

| | | |
|-----------------------------------|-------------|--|
| 1934 Estimated Expenditures | \$ 8,457.57 | |
| Necessary Appropriation | \$ 7,800.00 | |

REPAIRS

| | | |
|-----------------------------------|-------------|--|
| 1934 Estimated Expenditures | \$ 5,980.57 | |
| Necessary Appropriation | \$ 6,000.00 | |

EDUCATION**INCIDENTALS**

| | |
|-----------------------------------|-------------|
| 1934 Estimated Expenditures | \$ 1,200.00 |
| Necessary Appropriation | \$ 1,400.00 |

INDUSTRIAL EDUCATION

| | |
|-----------------------------------|-------------|
| 1934 Estimated Expenditures | \$11,575.86 |
| Estimated State Aid | \$ 6,000.00 |
| Necessary Appropriation | \$ 5,500.00 |

EVENING SCHOOL

| | |
|-------------------------------|-------------|
| Necessary Appropriation | \$ 1,250.00 |
| Total Appropriation | \$92,950.00 |

(Signed)

JOHN V. TUCKER,

SAUL SHALIT,

PHIDELEM S. DEMERS.

EDUCATION

Superintendent of Schools

To the Superintending School Committee of the Town of Sanford:

I herewith submit to you and to the citizens of the Town of Sanford, the following report concerning your public schools, this being the thirty-sixth in the series of annual reports from the Superintendent of this town.

The problem of congestion was acute last year. As the time of promotion came near it became evident that all the pupils could not be seated the next fall in the school rooms in the Sanford end of the town. The school officials could see three solutions. There are four good class rooms on the third floor of the Longfellow School, but there is a town ordinance forbidding their use, and no one felt he would want his child on the third floor of a wooden building. So this solution was abandoned. Last year for the sake of economy one eighth grade from Springvale was sent to the High School Building. Many complaints were made about this method, so that the school officials met with the parents of the pupils from the various buildings. A very frank discussion of the advisability of sending three more eighth grades to the High School Building was held and compared with the idea of reopening the Lincoln School. After carefully considering the situation the School Committee decided to reopen this school. They fully realized that this was simply an emergency measure, and that it could not fully satisfy the parents affected any more than the arrangement satisfied the school officials.

The schools of Sanford are yet too crowded, but we could not have operated and taken care of these enrolled at the Lincoln building. The increase in enrollment at the High School of nearly one hundred this past fall, and the probability that there will be as large an increase next fall makes it appear that the decision was wise, as there would be no spare room at the High School next fall.

Our school expenditures changed from the set plan more than usual last year. Mr. Grindle was obliged to give up his work early in the year on account of ill health, and Mrs. Laurence Allen was employed as a substitute, but later was obliged to give up her work. Miss Fowler gave up her work in Physical Education with the girls and took up her regular work in Mathematics and Sylvia W. Gates was employed to take up the work with the girls and help in the English Department. Later Elizabeth Willard was promoted from a practice teacher to a regular position to take the place of an English substitute.

EDUCATION

These changes were made without greatly increasing the expenditures on account of the difference in the pay given substitutes and that given the heads of departments.

We also made a decided saving from our estimated expenditure in the matter of furniture. We provided for the purchase of enough high school desks to seat the eighth grade, provided it was finally decided to send them to the High School. This purchase would amount to nearly \$1,400. We had a number of low grade movable desks on hand so were obliged to spend only \$400 for furniture.

When we found that the High School enrollment was nearly 100 larger than last year and it was pointed out to us that the work could not be well done without more help, we used part of this money saved to engage Mr. Robert F. Kingsbury to help in Science and Mathematics, and also help with the boys' sports.

Reopening the Lincoln School has increased the list of school employees by four teachers and one janitor, and also means an extra expense of \$27.50 a week for conveyance.

For several years it has been almost impossible for a well trained teacher without experience to get started in school work. After considerable discussion the School Board decided to require the same amount of training as in former years, but as an emergency measure, to hire a few teachers without experience.

We feel that this policy has not injured the school system. Through marriage, resignation, and the opening of a new building, several new teachers have been employed and are doing good work.

For the first time, the revenue from the Lucy Emery Estate has been given to the School Committee and will be hereafter given to the Committee on the first day of June of each year. From this fund a piano has been purchased for the Edison School, help has been given in securing equipment for the school band and electric lights have been put into the South Sanford School.

The largest repair work was at the Lincoln School which was badly damaged last winter by a freeze-up in the roof drainage system. Although this building was built in 1923 and had been closed for two years, the total bill for repairing and renovating was less than one-fourth the amount we feared it might be.

The unusual severity of the weather caused a big increase in the total bills. This was especially true at the High School. Few people realize that there are nearly as many cubic feet

EDUCATION

to be heated in this building as there are in the five grade buildings.

We all realize that there are many things about all our buildings that need improving. As we mentioned in the Town Report last year, the conditions in all basements, toilets, locker rooms and dressing rooms could be greatly improved. Much outside work could well be done on nearly every building, but we have felt that the needs of the pupils should come before the needs of the buildings, and have only made the most necessary repairs.

We should not feel that it was right to close this report without expressing our appreciation of the unusually fine spirit of cooperation shown by the parents of the pupils who are conveyed to Springvale by the two busses. We know that many of them do not like the arrangement, but they have helped make the best of a bad situation as an emergency measure.

We feel sure that some steps should be taken to secure a permanent solution of this problem of congestion and hope that a committee will be selected at this coming Town Meeting to work with the School Committee and report whether it is advisable to add to the grade rooms or to build a Junior High School.

We would express our appreciation to all who have cooperated for the welfare of the schools during the past year.

Respectfully submitted,

JAMES A. HAMLIN,

Superintendent of Schools.

EDUCATION**NO SCHOOL SIGNALS**

The No School Signal will not be used except in cases where there can be no doubt about its advisability. On stormy mornings parents are urged to use their own judgment about sending their children, as one street may be nearly impassable while others are all right.

Signals:

- 3 blasts blown at 6.45—No School for the High School.
- 3 blasts blown at 7.45—No School for the Grades for the forenoon session.
- 4 blasts blown at 7.45—No School for the Sub-Primary, 1st, 2nd and 3rd Grades for the forenoon session.
- 3 blasts blown at 11.30—No School for the Grades during the afternoon session.
- 4 blasts blown at 11.30—No School for the Sub-Primary, 1st, 2nd and 3rd Grades during the afternoon session.

EDUCATION**REPORT OF THE HIGH SCHOOL PRINCIPAL**

To the Superintendent of Schools:

We graduated eighty-three pupils in June and admitted 171 to the Freshman Class. This brought the enrollment at the opening of the fall term up to 461. At the present time (November 6, 1934,) it is 445.

There have been two changes in the teaching force—Miss Nathalie Preston succeeds Miss Sally Blaisdell in the Home Economics Course, and Mr. Robert Kingsbury was added to the faculty to take care of the increase in numbers in the Science and Mathematics classes.

The attendance has been unusually good this year, and indications point to a still larger entering class next year.

There have been no changes in studies offered except in the Industrial Arts Course. Here we have made changes that we hope will greatly extend the usefulness of the course by cooperation with the mills and by additional courses in wood-work.

I have also made arrangements whereby I meet all the boys in school in small groups for frequent conferences on Vocational Guidance. This is a phase of school work that I have long felt was much needed.

Many things have been left undone owing to the unsettled conditions, and I find that I can make no recommendations until we can know more about the appropriations that the Town is willing to vote for High School education.

Very truly yours,

GEORGE C. PURINGTON,

Principal.

EDUCATION**REPORT OF DIRECTOR
OF VOCATIONAL EDUCATION**

To the Superintendent of Schools:

I herewith submit my fifteenth annual report as Director of Vocational Education.

Conditions in our community and in our world have changed a great deal and will undoubtedly change more. Our school systems remained static for a long time and have just recently started to change to meet the changed conditions of life. They must change more if they wish to survive. Places in life that we trained for or attempted to train for are woefully over-crowded. We have attempted to train about eighty per cent of our young people for positions that existed for about ten per cent of the people. Consequently our graduates have gone from our schools maladjusted to the life that they had to live.

More and more the schools will be called upon to train our girls and boys for the life that they will have to live. Subjects that were considered as sacred in our curriculums will be weighed and found to have little or no value in the work-a-day world. We will be called upon first—to train our young people to earn a living. After that has been accomplished, we can train for a more gracious living. But first and last we must prepare these young people to stand upon their own feet in a working world.

Recognizing this, we have completely reorganized our industrial and vocational courses. They will more fully meet the needs of the day. These courses have the approval of the Federal and State officials and have been approved by the dominant industries of the town.

The mills have promised their cooperation in making these courses vital in Sanford, as they should be. Forty per cent of the boys in Sanford High School are taking this course.

Limited funds make our progress uncertain and halting. No real progress can be made until we can expand to include the training of all young people in their chosen life work.

Our evening school is large this year along vocational lines.

Americanization classes are small, as can be expected because of limited immigration. The vocational classes are large and of great variety, as more of the town's adults use the classes as opportunity classes. Opportunity to improve along the line of their present employment or to prepare for a hoped-for future job.

Respectfully submitted,

LESLIE W. MacKAY,

Director of Vocational Education.

EDUCATION**REPORT OF THE DIRECTOR OF
HOME ECONOMICS**

To the Superintendent of Schools:

I herewith submit my report of the Home Economics Department of Sanford High School.

There have been no changes in the course of study during the past year, but due to the rapidly changing economic conditions the subject matter within the course has changed considerably. Much more stress has been placed on the budget for the family, clothing budgets for individuals, health, economical meal planning, better buying, care of children, family relationships, and vocational guidance.

The Play School Project and home projects have been continued. Miss Laura Tabor gave the Red Cross Course in Home Care of the Sick and fourteen girls received the American Red Cross Certificates.

It seems reasonable to predict that there will continue to be many occupations for women which will require the technical training to be found in the Home Economics field. There will also be more and more need for training individuals to live rich, full lives in proper adjustment to their surroundings. In larger schools classes for boys in certain phases of home economics are being organized and in the near future there will probably be a rapid increase in these classes and in the number of girls taking the course. We must be ready to meet these demands. The large number of Freshmen girls entering the Home Economics Course this fall indicated more interest than for some years previous.

We were very sorry to lose from our department, Miss Sarah Blaisdell, who was offered a position as head of a department in one of the Connecticut schools. She had proven herself a most valuable person not only to the department but to the school and the community. Miss Nathalie Preston, a graduate from Farmington Normal School, and with two years teaching experience came with high recommendations in September and is carrying on the work very successfully.

Respectfully submitted,

BLANCHE C. PHILBRICK,

Director of Home Economics.

EDUCATION

REPORT OF SCHOOL NURSING ACTIVITIES

January 1934—October 1934

The School Health service includes (1) All things done for a child to protect his health, (2) Individual health teaching so as to make the child responsible for his own health, and (3) Education of and suggestions to the parents and teachers in regard to child health, and home and community hygiene.

From January 1934 to July 1934 the school health program continued as started in September, 1933. The starting point of the work was the routine health examinations given the first of the year in cooperation with the Health Officer. Parents were urged to obtain correction of any physical defect so that the child might experience physical soundness.

The findings in the health examinations in September, 1934 for children in the Public Schools are as follows:

| | |
|-----------------------------------|-----|
| Faulty vision | 37 |
| Enlarged tonsils | 65 |
| Defective teeth | 306 |
| 10 lbs. or more underweight | 125 |
| Hard of hearing | 6 |

The examinations in the Parochial Schools are not complete at the present writing.

If the families are unable to pay for these corrections, arrangements are made in other ways. The Women's Board and Auxiliary of the hospital made it possible for thirty children to have their tonsils removed. Five children have been given eye-glasses through a fund held by the Public Health Association.

Ninety-three children had Cod Liver Oil Last winter which was supplied by the Federal Government. This group includes the undernourished, underweight and tuberculosis contacts. The Searchlight Club of Sanford asks the school nurse to help in arranging for free milk to be given through their Milk Fund to needy children who are below normal physically. Fifty-two children began receiving the milk in October to continue through the winter and this number will be increased. Last winter the milk was supplied by the Federal Government, but usually the Searchlight Club carry on this worthwhile project in the Public Schools of Sanford.

The Sixth and Seventh Grades of the Hamlin School were given six classes in First Aid last winter. Twelve girls in the Junior Home Economics Group received certificates last June from the Red Cross for completion of a thirty-hour course in Home Hygiene and Care of the Sick. This same course is started again this year for the present Home Economics group.

EDUCATION

From January to April the children in the Fourth and Fifth Grades were weighed each month and monthly weight charts sent home. This group was chosen from the school population because of the large number of underweights. Improvement was noted. Weighing conferences are held each Tuesday and 4,628 school children have attended. Two hundred eighty-seven babies have attended, also.

Ten children were taken to Special Clinics in Portland on advice of the family physician.

Applications made out and sent for the admittance of two children to the Pownal State School for the feeble-minded. A pre-school child was found to be deaf and an application was sent in for her admittance to the School for the Deaf in Portland. She will go as soon as she reaches school age.

Through the cooperation of local Shriners, arrangements were made for a crippled child to be admitted to the Shriner's Hospital in Springfield.

Forty-two children suspected of being hard of hearing were tested with the Audiometer last May and special care advised. The hard of hearing child experiences great difficulty if not followed carefully.

Assistance was given the Health Officer in a Vaccination Clinic at the Hamlin School with ten in attendance and one in Sanford with 105 attending.

Toxoid Clinics are being urged for the prevention of diphtheria. Four hundred and three children attended Dental Clinics last year which were held with the local dentists in attendance. The School Nurse has asked the Maine Public Health Association for a Chest Clinic and this will make possible a finding of any child with any type of tuberculosis.

Eight Girl Scouts were given tests in First Aid. Three Boy Scouts were given tests in Public Health. Twelve talks were given to different organizations concerning the school nursing work.

Thirty-four children were recommended for exclusion from school and for doctor's care because of signs on contagion.

A Teacher's Certificate was obtained by the School Nurse in March.

| | |
|--|-----|
| Total Visits to School Rooms | 817 |
| Total Visits to Homes of Ill Children | 146 |
| Total Visits to Homes for Health Education ... | 468 |
| Total Office Visits | 209 |

All School Health Programs should be carried on so that each child is given his right for the greatest opportunity for growth, development, and social efficiency, and that has been the object of school nursing for the children in Sanford and Springvale.

Respectfully submitted,

LAURA E. TABOR,
School Nurse.

LIST OF TEACHERS, OCTOBER, 1934

| School | Grade | Name | Training | Election | No. Years Experience |

FEDERAL WORKS RELIEF PROJECTS REPORT

The Federal Works Relief Projects reported up to November 1, 1934, showed the following summary:

| | | |
|--|-------------|--------------|
| Total Amount Appropriated by the Town | \$19,977.82 | |
| Total Amount Contributed by the Government | | \$103,721.81 |
| From November 1, 1934 to December 15, 1935: | | |
| Total Amount Appropriated by the Town | \$48,168.97 | |
| Total Amount Contributed by the Government | | \$102,154.46 |
| | <hr/> | |
| | \$68,146.79 | \$205,876.27 |
| Total Amount Expended by the Town. | \$55,570.24 | |
| Total Amount Expended by the Government | | \$179,909.39 |
| | <hr/> | |
| Total Balance Unexpended by the Town | \$12,576.55 | |
| Total Balance Unexpended by the Government | | \$ 25,966.88 |

From the above summary it may be observed that, from November 23, 1933 to December 15, 1935, there has been expended on Relief Works Projects the sum of \$235,479.63, 69% of which was contributed by the Government and 31% by the Town. In other words, the Town by expending \$55,570.24 has had its tangible assets increased by nearly a quarter of a million dollars. The major portion of this Relief Work has been expended on the public sewer system. More than four miles of sewer mains have been constructed. The work has been done in accordance with the plans and specifications of Robert C. Wheeler, Sanitary Engineer.

Details of the sewer constructions are as follows:

Sanitary Sewers

| | | |
|-----------------------------|---------|--------------------|
| West Side Trunk Line | 4835. | ft. of 20 in. pipe |
| East Side Trunk Line | 2591.30 | ft. of 24 in. pipe |
| High Street Extension | 240.35 | ft. of 8 in. pipe |
| Home Street | 450. | ft. of 8 in. pipe |
| Moulton Court | 157.5 | ft. of 8 in. pipe |
| Bowdoin Street | 88. | ft. of 8 in. pipe |
| Yale Street | 167. | ft. of 8 in. pipe |
| Vale Street | 225. | ft. of 8 in. pipe |
| Joffree Street | 300. | ft. of 8 in. pipe |
| Verona Street | 240. | ft. of 8 in. pipe |

FEDERAL PROJECTS

| | | |
|--|-----------------|--------------------|
| Butler Street | 541. | ft. of 8 in. pipe |
| Butler Street | 77.4 | ft. of 10 in. pipe |
| Merrill Street | 236.1 | ft. of 10 in. pipe |
| Main Street, Frost Street to R. R. Bridge | 562.50 | ft. of 18 in. pipe |
| | <u>10711.15</u> | |

Storm Sewers

| | | |
|------------------------------|----------------|--------------------|
| Birch Log Brook | 200.35 | ft. of 30 in. pipe |
| Bradeen Street | 837. | ft. of 10 in. pipe |
| Bradeen Street | 238. | ft. of 15 in. pipe |
| Oak Street, Springvale | 190. | ft. of 18 in. pipe |
| | <u>1465.35</u> | |

| | | |
|-----------------------------|-----------------|------|
| Total Sanitary Sewers | 10711.15 | feet |
| Total Storm Sewers | 1465.35 | feet |
| Previously Reported: | | |
| Sanitary Sewers | 6617.35 | feet |
| Storm Sewers | 2626.26 | feet |
| Grand Total | <u>21420.11</u> | feet |

Besides the sewer construction, projects have been approved and work done on the following:

Elizabeth Benton Playground

A retaining wall has been constructed on three sides and a Page Woven Wire fence erected thereon; two Tennis Courts have been completed; a walk from Kimball Street to Roberts Street and the foundation for a Field House have been built.

Springvale Playground

A retaining wall and a Page Woven Wire fence were constructed around the entire lot. Five thousand one hundred cubic yards of sand and loam were required for grading. Two Tennis Courts have been completed on this project.

Springvale Fire Department

At the request of the Chief of the Springvale Fire Department, an automobile entrance to the basement of the Fire Station was built, also a wash stand for the apparatus.

**Demolishing Wooden Buildings and
Repairing Brick Building**

Mr. William N. Campbell purchased the property adjoining the High School and formerly occupied by the American

FEDERAL PROJECTS

Specialty Company and presented the entire property to the Town of Sanford. It is stipulated in the deed that if the Thomas W. Cole Post, American Legion, desired to occupy the brick building, the Town should put the building in suitable condition and allow the Legion free use of same.

If the Legion should, at some future date, decide to vacate the premises, the Town may use the building for whatever purpose the voters may decide.

The wooden buildings, formerly on the lot have been demolished and the brick building has been partly repaired.

Painting Buildings

The buildings at the Town Farm and the wood trim on the Sanford Town Hall have been given two coats of paint.

Sewing Project

A sewing project giving employment to eleven women for eighteen weeks produced a large quantity of much needed clothing for those on relief. A total of 1,621 garments and 238 pairs of mittens were made.

Canning Project

Thirty-four thousand cans of fruits and vegetables have been put up.

Public Nurses

Two registered nurses have been provided throughout the year for health service whenever it was required in any family on the relief list. The nurses have made 4,193 visits.

Sanitary sewers have been completed on Lavin Court, Errol Street, Beulah Street, Vaness Street, Whitman Street, Lavin Court to Septec Tank, Madison Street, Vale Street, Yale Street, Joffre Street, Verona Street, Merrill Street, Butler Street, Home Street, Moulton Court, the East Side Trunk Line (this line runs from the proposed Disposal Plant to the Maine Alpaca Mill, a distance of 17,000 feet), is 15% completed, the West Side Trunk Line (this line runs from the proposed Disposal Plant to the Chapman Brook, a distance of 12,600 feet), is 38% completed. All of the above construction has been completed in accordance with the plans and specifications made by Robert C. Wheeler in 1928 and on file in the Selectmen's office, with one exception. Mr. Wheeler's plans call for an 18 inch main from Washington Street to the Chapman Brook, this main has been increased to 20 inches to take care of the extra load that comes from the street catch basins.

FEDERAL PROJECTS

The engineer estimated that it would cost \$104,979.16 to construct all of the above sewers. The actual total cost of the above construction is \$65,725.91 or \$39,253.25 under the engineer's estimate. However, in fairness to the engineer, it should be stated that his labor cost was figured on the basis of fifty cents an hour for labor, whereas, the laborers were paid under FERA thirty-five cents an hour and under the WPA they received thirty-three and eleven-thirteenths cents an hour.

Making full allowance for the difference in the actual labor cost and the labor cost as figured by the engineer, the total cost on all of the above work would be \$7,706.00 under the engineer's estimate.

It should also be stated that the Federal Government contributed sixty-nine per cent of the total cost of the above projects.

MYRON E. BENNETT,

Local Federal Administrator.

REPORT OF SELECTMEN, ASSESSORS AND OVERSEERS OF THE POOR

To the Inhabitants of the Town of Sanford:

Your Selectmen, Assessors and Overseers of the Poor respectfully submit their report for the year 1935.

Charities and Pensions

The Overseers of the Poor and their assistants, upon whose shoulders rests the burden of looking after the human needs of those less fortunate, find the task demands the best efforts of all of us. This problem is one that demands the definite and whole-hearted cooperation of all citizens and organizations interested in the preservation of our town. In spite of signs of better economic conditions in some localities, so far as Sanford is concerned there does not appear any definite indication that the burden of care for the poor will be any less, for several reasons which may be briefly pointed out.

The depression is now in its seventh year. Many who formerly had a small bank account or some insurance, or in some instances relatives able to assist, have long since exhausted these recourses. Others have been out of employment so long that there is no longer reason to believe that they will ever be absorbed in gainful employment again. Previous to the World War we never had a soldiers' relief problem; now we raise something like \$9,000 yearly for that item alone. Another little known fact, seldom thought of perhaps, is that Sanford has thirty-seven orphaned children for which it must care. Some of these children are being cared for by the State at our expense, others in private homes and institutions, at a total cost in 1935 of \$4,709.07.

We want to emphasize the fact that the task we have been doing is a broader one than merely relief work. The public must realize that looking after human needs consists of nursing, hospitalization, child welfare and the like. Aside from the necessary work of investigation of all relief cases as to actual necessities, the work entails a great amount of labor in the way of making purchases.

During the year 1935 we have been obliged to take nine patients to the Hebron Sanitarium in order to protect others from the danger of contracting tuberculosis.

Fuel has been supplied to the needy in the way of wood which has been chopped by a crew that would otherwise have been on aid, and the necessary yarding and hauling has been done to a large extent by those needing work to pay taxes.

The Poor Department has been called upon to meet unusual expense during the past year due to a case of small-pox and one of diphtheria, each of which required the services of special nurses.

Curtailment of Government aid in work on projects has added several thousand dollars to our already heavy expenses, and where formerly generous supplies of clothing were being received, none is now forthcoming. Some food is being supplied twice monthly by a truck out of Biddeford.

Rents are advancing along with food costs; in many instances twenty per cent or more.

We call attention to the Trafton block, so-called, located on Mechanic Street, and upon which the town has received no taxes since 1927, the total amount of which was around \$3,200. The Selectmen thought it advisable to take over this property and get it in condition for occupancy. It was found necessary to install new plumbing and new wiring, remodel the interior, at an expense of only \$2,409.11. It is now in condition to be rented, or sold and returned to the list of taxable property.

The Overseers of the Poor have adopted a system of requiring all those able to work to do some useful work for the town in order to partially pay for food, fuel, and clothing received. Since April 20 to the close of the year, December 31, a total of 11,874½ man-hours of labor has resulted, which would amount to \$4,519.02. This labor has been of great assistance to the road commissioners in their road work, screening sand, applying tarvia, cutting bushes, and crushing stone.

Health and Sanitation

Our Department of Health was placed in an unfortunate position during the summer months on account of the discovery of millions of roaches at the Sanford incinerator plant. This condition was undoubtedly brought about by the inability to burn a large portion of the refuse and garbage brought to the plant. It was necessary to employ the services of an exterminating company from Springfield, Massachusetts, to rid the place of this dangerous pest. More of the garbage and waste material must be burnt or thoroughly sterilized if permanent protection is secured. The Selectmen recommend an enlarged plant as soon as the town's financial condition will warrant. This recommendation has been brought to the attention of the Advisory Council and the voters, and it was deemed advisable to appropriate a small sum of money for repairs of a temporary nature and the employment of extra men to operate the existing plant more hours per day.

Roads and Bridges

Perhaps the most notable happenings in the matter of road repair during the past year has been, or is being brought about, along Main Street between Sanford and Springvale. Early in the year the York Utilities Company was requested to remove the tracks along Main Street, and after a hearing before the Utilities Commission at Augusta, necessary author-

ity and permission was obtained to bring about this result and since that time sewer construction has been followed by road repairs. We are hopeful that eventually this project will have been completed and an improved road result.

During the late summer the Selectmen were notified by the State that it was necessary that the Hay Brook Bridge, which is a dividing line between Sanford and Alfred, be rebuilt. As a result it was necessary to bring this matter to the attention of a special town meeting and obtain an appropriation of \$1,752.75 to pay Sanford's share of this expense.

Perhaps no one improvement has caused greater satisfaction during 1935, especially to Springvale residents, than the rebuilding of the dam between the two shoe factories at a cost of \$2,046.62. We believe this will result in better fire protection, improved sanitary conditions at this point, as well as furnishing a much needed receptacle for snow removed by the road commissioner.

Aside from the regular work in the northerly district our road commissioner reports the following new construction work in accordance with special appropriations voted at the last town meeting:

Deering Neighborhood Road—450 feet rock base—Expenditure \$400.00.

Deering Neighborhood Road, past Carpenter's and Hooper's—450 feet rock base—Expenditure \$350.00.

Mt. Hope Road—350 feet rock base—Expenditure \$400.00.

Road, Shaw's Ridge to Ridley Bros.—700 feet grading.

Road, Bedell's to Walnut Hill—400 feet grading.

Littlefield Neighborhood Road—200 feet graveling.

State Aid Road No. 6 was completed this year, a distance of 1,760 feet at a cost of \$5,474.81. This is the road leading past the Springvale Depot toward Alfred Gore.

During the past year the highway department, southerly district, has tried to carry on its work in a manner satisfactory to all citizens. In addition to the usual maintenance and repair work, the following streets and roads have been graded, gravelled, and, in some instances, treated with asphalt.

| | |
|---|---|
| Pine St. | 1,000 ft. Graded and gravelled |
| Vale St. | 350 ft. Graded and gravelled |
| Frost St. | 1,800 ft. Graded, gravelled and surface treated |
| St. Louis St. .. | 1,285 ft. Graded and gravelled |
| Preble St. | 1,000 ft. Graded and gravelled |
| Grove Ave. | 475 ft. Graded, gravelled and surface treated |
| Wilson St. | 310 ft. Graded and gravelled |
| State St. Ct. .. | 310 ft. Graded and gravelled |
| Middle St. | 700 ft. Graded and gravelled |
| Harry Howes Rd. | 1,320 ft. Graded and gravelled |
| From North Berwick Road toward Mt. Hope | 750 ft. Graded and gravelled |

3rd Class Road
(Shaw's Ridge) 3,125 ft. Graded and gravelled
State Aid Rd.
No. 8 (School
St. Ext.) 1,000 ft. Graded and gravelled

During the fall the storehouse and sand shed has been painted with a rust-resisting paint which improves the appearance of the building greatly.

The bushes have been cut on all roads, at a cost of \$1,518.00 in the southerly district. In preparation for winter 535 yards of sand have been screened, salted and stored in the sand shed. This makes it possible during the winter to obtain sand for sidewalks and roads which is free from frozen lumps and rocks, without having to break through several inches of frost.

Last year a stone crushing plant was bought and set up at a cost of \$967.00. This plant has brought in a revenue to the highway account, besides supplying stone for the general use of that department.

As a result of the large snowstorm of last January, all snow plowing equipment worked continually for four days and four nights. The Diesel Tractor ran 23 out of every 24 hours, at a cost of less than 25c per hour for fuel and oil. This is a great saving over the former tractor since the old one burned gasoline at the rate of more than 10 gallons per hour,

The Selectmen wish to express thanks for all aid and co-operation shown them during the year. We commend in highest terms the willing and unselfish efforts of our office force, including Marion W. Roberts, Alice Chadbourne and Myrtle Fletcher.

Respectfully submitted,

ROSCOE C. BUTLER,

CHARLES G. ROBERTS,

Selectmen, Assessors and
Overseers of the Poor.

RECOMMENDATIONS

The Selectmen recommend:

Perfecting, passing and legalizing ordinances necessary to permit our police force to have adequate control of parking of cars and trucks at all times.

We recommend, as soon as financial conditions warrant, an enlarged incinerator plant.

We favor amendment of town ordinances to permit an easing up of building restrictions in some instances and tightening up in other localities.

We favor having our representatives in the Legislature make an effort to have the law relating to the distribution of profits from the sale of liquor and of the issue of licenses in the state changed to permit the town to have a percentage of the net profits from such sales to help maintain its poor or police department, or to help provide for old age pensions.

We favor an amendment to our state laws to permit Sanford to print and distribute an annual report not later than March 15th, annually. According to present confused condition of Maine Laws it is impossible to print and distribute a report covering a full year and have it ready for the annual town meeting, the first Monday in December, when our fiscal year closes December 31st and it takes at least six weeks to prepare and have the report printed.

We recommend a change in the State Laws as the same apply to Sanford to permit using the same kind of a check list at State and National elections as at our regular town meetings.

The Selectmen recommend the continuation of the policy of appropriating moderate sums of money yearly until such time as our rural roads have been improved, widened and surface treated until finally completed to other town lines in the belief that such a policy is one of economy, in that, such roads are much easier to maintain both as to summer maintenance and winter snow removal, and in view of the further fact that rural roads must be kept open so that rural scholars may be transported, rural mail carriers may make their deliveries promptly and that the residents may transport their farm produce and milk to market and make their necessary purchases.

Your Selectmen believe that what Sanford needs above all else at this time is more payrolls, either supplied by already existing industries or new industries, to supply work for at least three hundred families.

When it is remembered that the 64 men now employed on the WPA Projects, and that over two hundred families are receiving relief, and that in June approximately eighty young ladies and gentlemen will be graduated from our High School, it is easy to visualize conditions unless industry can absorb more and more of the unemployed.

If Sanford is to maintain its place in the sun; if we are able to meet promptly and in full all of the services which we so much desire and have been used to having; if we are to maintain the standards of our schools; continue to maintain and improve our highways, our splendid fire companies; keep up and complete our park system; look after the health of the children, aged and poor; and maintain our public buildings as in the past; it will require the wholehearted and united effort of all Sanford men and women.

The First Town Meeting—1768

The Last Old Fashioned Town Meeting—1935

Our town meeting held in December being the last one under the old order of things, it may be of interest to Sanford citizens to recall the first meeting held after the act of incorporation of our town.

Records obtained from the Secretary of the Commonwealth of Massachusetts show that an Act was introduced in the Massachusetts Legislature to incorporate a tract of land eight miles square, called Phillipstown, into a town by the name of Sanford. This Act was introduced in 1767 and passed its several readings and was finally enacted in February 27, 1768.

The Act empowered Benjamin Chadbourne, Esq., a Justice of the Peace, to issue his warrant as directed to John Stanyan, Yoeman and inholder, on the 30th day of March, 1768 for the first town meeting. Unfortunately, the record of this meeting was not preserved or became lost, but it is certain that Benjamin Harmon, Naptali Harmon and John Stanyan were chosen for Selectmen and it seems that among the first acts of these men was to draft a petition to the Legislature asking that the town be exempt from state taxes that year, citing among other things that the inhabitants were poor, had poor roads, and further that they wanted to settle a minister of the gospel.

The first town meeting of which we do have a record shows that it was held March 22, 1769 and that Benjamin Harmon was chosen Moderator; Samuel Willard, Town Clerk; and that Jonathan Johnson, William Bennett and Samuel Willard were chosen Selectmen, Assessors and Overseers of the Poor. The meeting was adjourned until March 27th, and at that time they voted to raise \$50.00 to support the gospel and hire a minister, for three months.

A census of York County taken in 1764, or about four years previous to the incorporation of Sanford, shows that York County had a white population of 11,145 and 215 negroes which as will be noted is considerably less than the population of Sanford today. The population of Phillipstown (Sanford) at that time was 150. Other towns in the County and their population are as follows: York, 2,277; Berwick, 2,374; Biddeford, 627; Lebanon, 200; Buxton, 225; Kittery, 2,338; Arundel (Kennebunkport), 833; Pepperelltown (Saco), 538.

In passing from the old form to the new it may be well to remember that the same type of people still live in Sanford, and that we will get precisely out of Sanford, what, by our united and wholehearted efforts, we put into Sanford, and no more.

AUDITOR'S REPORT

To the Selectmen of the Town of Sanford, Maine:

During the year 1935, the system of preparing the weekly warrants, auditing the bills and payrolls before payment has been continued. A summary of each week's orders issued by the Selectmen and paid by the Town Treasurer has been published in the Sanford Tribune. Once during the year a statement showing the Appropriations, Reserves and Income, Total Amount Expended and Balance of Appropriations was published.

The system of handling the Relief of Poor has been continued, orders issued by the Selectmen being required for groceries, rent, clothing and fuel.

The Tax Collector's records have been checked at regular periods during the year and the collections for the fiscal year and for the past years proven.

The records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector have been checked with my records and are, I believe, correct.

At this time, I wish to express my appreciation for the hearty cooperation which each department of the Town of Sanford has always given me.

Respectfully submitted,

MARGARET M. SHAW,

Auditor.

Sanford, Maine,
February 18, 1936.

REPORT OF THE BOARD OF ENGINEERS SANFORD FIRE DEPARTMENT, 1935

Sanford, Maine,
December 31, 1935.

To the Honorable Board of Selectmen,
Town of Sanford, Maine:

The Engineers of Sanford Fire Department render the following report for the year 1935:

This department has responded to 53 bell and 175 still alarms, also held six fire drills, a total of 234 calls for 1935. The apparatus has been increased by the addition of Dodge Forest Fire Truck with 164 gallon water tank and Oberdoffer Booster pump. By the addition of this piece of apparatus the department has practically discontinued the use of soda and acid chemicals for chimney fires and other uses, and it is the intention to equip the Fox Ladder with booster pump and entirely discontinue chemicals, with the exception of pony tanks.

We wish to extend to the permanent firemen our appreciation for the services rendered by them and the condition in which they kept the station and apparatus. We would also extend to the call firemen our appreciation for their services.

This department has added to the alarm system an air whistle which now places all this system within the department; this replaces the steam whistle of Sanford Mills which was in use for thirty or more years and for which use the Sanford Mills received no compensation. This service is commendable and the Engineers extend to Sanford Mills their appreciation for this service.

We wish to thank the Springvale Fire Department for their cooperation and assistance when requested.

Respectfully submitted,

VON E. GERRY, Chief

LINWOOD J. EMERY, 1st Asst.

ROBERT RANKIN, 2nd Asst.

Board of Engineers,
Sanford Fire Department.

**REPORT OF CLERK OF SANFORD
FIRE DEPARTMENT**

Sanford, Maine,
January 7, 1936.

To the Municipal Officers of the Town of Sanford, Maine:

I hereby submit the following report of the Sanford Fire Department for the year 1935.

The Department has responded to 234 calls, 53 bell, 175 still, and 6 fire drills.

| | |
|--|--------------|
| Total Value of Property Endangered | \$725,400.00 |
| Total Damage to Property | 8,321.78 |
| Total Insurance Paid | 7,626.06 |
| Total Feet of Hose Laid | 26,560 |
| Total Gallons of Chemical Used | 174 |
| Total Feet of Ladders Raised | 4,382 |
| Total Miles Apparatus Traveled | 561 |

Respectfully submitted,

GEORGE F. FERGUSON,

Clerk.

REPORT OF THE BOARD OF ENGINEERS SPRINGVALE FIRE DEPARTMENT, 1935

Sanford, Maine,
January 25, 1936.

To the Municipal Officers of the Town of Sanford:

The Board of Engineers of the Springvale Fire Department hereby submit their annual report for the year ending December 31, 1935.

This department has answered an average number of calls, and by early discovery of the fires and prompt response by the department the fire loss has been kept at a very low figure.

Our program of inspections and drills have been continued with excellent success and are now a regular part of our routine.

The fire station and all equipment is in an excellent condition and will require only a small expenditure to maintain its present condition for the coming year.

The new Seagrave 600-gallon-per-minute pumper which was purchased this past year is a great asset to the equipment of this department. This piece of apparatus is completely modern in every way. It carries 1,400 feet of 2½ inch hose, 200 feet three-quarter inch booster hose, 100 gallons of water and also a complete line of small equipment. The pump will deliver 600 gallons per minute from suction or 800 gallons from a hydrant. We were also able to obtain with this piece of apparatus several pieces of small equipment which were badly needed.

During the past year we have completed the forest fire truck. This truck has been built and equipped by the permanent men using mostly salvaged material. This truck is for forest fire work and fires in the rural districts. It carries the following equipment: 1,000 feet 1½ inch hose, 200 feet three-quarter inch hose, one 40-gallon-per-minute portable pump, 40 feet of ladder, shovels, sprinkling cans, pump tanks, 30 feet two-inch suction hose and all necessary small equipment for this type of work. It also carries 100 gallons water and is equipped with a 75-gallon-per-minute rotary pump which can be supplied with water from the tank or from suction.

Owing to the limited amount of money available this outfit has been in process for two years but now that it is completed it is worth many times actual cost.

Your Board of Engineers wish to make the following recommendations:

That an ordinance be enacted governing location and erection of storage tanks for gasoline and inflammable liquids and that the authority to supervise and enforce this ordinance be given the fire departments;

That the ordinance pertaining to fire zones be revised to more definitely locate its boundaries and also that some of its boundaries be relocated;

That automatic signalling devices such as the duo-alarm system be installed in all schools. This device automatically and instantly calls the fire department to the building should a fire occur. The cost of these installations should be added to the school department budget and one building equipped each year. We would also suggest that the most hazardous buildings be equipped first, especially those of the grade schools. We do not wish to cause undue alarm but some of the school buildings are of very hazardous construction.

In closing we wish to express our sincere thanks to the officers and men of this department who have so unselfishly and loyally devoted their time to the service and we wish also to thank the following groups for their hearty cooperation during the past year: The Municipal Officers, the Officers and Men of the Sanford Fire Department, and the Citizens of Springvale.

Respectfully submitted,

CLYDE E. HARTFORD,
STANLEY G. TURNER,
WINFIELD C. TRAFTON.

REPORT OF CLERK OF SPRINGVALE FIRE DEPARTMENT

Springvale, Maine,
December 31, 1935.

To the Municipal Officers of the Town of Sanford:

I hereby submit the following report of the Springvale Fire Department from November 1, 1934 to December 1, 1935

The Department has responded to 120 alarms, consisting of 99 stills, 10 bells, 8 out-of-town and 3 house calls.

The Department has also made 858 inspections and held 7 drills.

| | |
|---|--------------|
| Total Value of Property Endangered . . . | \$331,600.00 |
| Total Damage to Property Endangered . . . | 3,803.00 |
| Total Insurance Paid on Property endangered | 3,725.00 |
| Loss | 78.00 |
| Number of Feet of Hose Laid | 1,350 |
| Number of Feet of Ladder Raised | 2,318 |
| Number of Gallons of Chemical Used | 1,342 ½ |
| Number of Gallons of Foamite Used | 7 ½ |
| Number of Miles Apparatus Traveled | 263.2 |
| Number of Hours Pumping Engine Worked | 4 hrs. |

It will be noted from this report that there was a great reduction in number of gallons of chemical used during the year 1935, due to the fact that the use of chemical has been discarded and replaced with water from booster tank, thus eliminating the expense of soda and acid.

Respectfully submitted,

CARLTON P. BICKFORD,
Clerk.

REPORT OF THE SANFORD-SPRINGVALE POLICE DEPARTMENT

To the Citizens of the Town of Sanford:

Your Police Department herewith submit their report for the year 1935.

Your attention is called to the marked increase in the number of arrests and convictions for the year 1935 as compared with the arrests and convictions in the previous years. This increase is due in part to added responsibilities placed on the Police Department through the legalized sale of beer and intoxicating liquors. Because of this condition we feel that more officers are needed.

Parking should be regulated on several streets, especially Main, School, Lebanon, Berwick, Winter, and Allen. Conditions at the present time are acute and with added summer traffic we feel that perhaps a public parking place would help relieve congestion.

We should like to suggest at this time that a committee be appointed by the Selectmen—perhaps one member from each district—to cooperate with the Police Commission in drawing up some new and revising some old town ordinances pertaining to control of traffic and parking, and this committee to report their findings and make recommendations to be submitted at some regular or special meeting of the Town Meeting Members.

We would also like to recommend to the Selectmen at this time that blinkers located at the corner of Roberts and Main, Lebanon and Main, Winter and Main, Brook and Cottage, Ridgeway and Oxford, be removed. Most of the intersections where blinkers are now located are controlled by stop signs.

JAMES McKEON,

Chief of Police.

LLOYD W. BATCHELDER,
CHARLES S. PIERCE,
THEODORE BERNIER,

Police Commissioners.

REPORT OF THE SANFORD TOWN FARM

To the Selectmen of Sanford:

The following is a list of articles and produce on the farm as of December 31, 1935:

Two hundred twenty-five quarts and two hundred fifty cans of fruits and vegetables.

Ten bushels of potatoes.

One barrel squash and pumpkins.

One barrel of cabbage.

Two-thirds barrel parsnips.

One barrel carrots.

Nine tons hay and oats.

Eighteen cords of fitted dry wood and twenty tons of coal.

Seven bags grain.

One horse.

Two cows.

Forty hens.

At the present time there are: Mary Springer, 80; Charlotte Harding, 58; Mary Liberty, 58; James Palmer, 84; John Robertson, 56; Walter Edgerly, 67; Willis Fogg, 75; Joseph Manning, 52. Total number, during the year, twenty-six.

Respectfully submitted,

GEORGE S. LOWD,

Superintendent.

REPORT OF HEALTH OFFICER

Sanford, Maine,
January 1, 1936.

To the Selectmen, Town of Sanford, Maine,
Gentlemen:

Your Health Officer herewith submits his report of health work from January 1, 1935 to January 1, 1936.

Early in the year with the assistance of Miss Laura E. Tabor, the school nurse, the toxoid treatment for the immunization of diphtheria was administered—with the consent of the parents—to 1,850 school children, including several of the teachers, without any extra expense to the town.

Also, during August and September vaccination for the prevention of smallpox was given to more than 1,000 children and adults, with the aid of the school nurse.

Quarantine of communicable diseases has been maintained and fumigation and disinfection carried out when and where required to prevent further spread of the disease.

One hundred thirty-five cultures were examined for the purpose of discovering "carriers" of disease germs.

There were no diseases that could be traced to the food, milk, water, or ice supply.

Communicable diseases reported as follows:

| | |
|---------------------------|-----|
| Whooping Cough | 16 |
| Measles | 130 |
| Chickenpox | 23 |
| Pneumonia | 30 |
| Scarlet Fever | 6 |
| Diphtheria | 14 |
| Tuberculosis | 2 |
| Meningitis (T. B.) | 1 |
| Undulant Fever | 1 |
| Mumps | 17 |
| Typhoid Fever | 4 |
| Smallpox | 1 |
| Infantile Paralysis | 7 |

Occasional visits were made to hotels, restaurants, lunch-wagons, stores, markets and barber shops for sanitary inspection

During the first part of the year, all cows whose milk or cream is sold in Sanford have received the Tuberculin Test.

The dairies whose products are sold in town, have been frequently inspected and suggestions for sanitary improvement were given when advisable, which were complied with.

Many samples of milk and cream have been selected at random from the vehicles of the milkmen and stores, and with few exceptions were found satisfactory as to cleanliness and food value.

The garbage is collected once a week, and apparently satisfactory to all.

There were several complaints of nuisances, which were promptly abated.

With the assistance of the school nurse all children in the public and parochial grade schools have received a physical examination, and where defects were found, the parents were notified, with a request that they solicit medical aid for the child.

As town physician, the writer has attended several cases of illness daily among the families on "relief".

In conclusion, I wish to extend my sincere thanks to the school nurse, public health nurses, doctors and the citizens in general for their cooperation.

Very truly yours,

W. H. KELLY,
Local Health Officer.

REPORT OF PARK COMMISSION

The major activities of the Park Commission during the year 1935 centered around the Elizabeth-Benton Playground in Sanford and the Springvale playground.

A swimming pool was constructed on the Elizabeth-Benton Playground and proved to be a great asset during the summer with an average of 150 children per day using the pool. In addition to this an equal number were using the apparatus and playing the organized games under the direction of the supervisors. Two tennis courts were built in each playground, being constructed of a crushed rock base and surfaced with bituminous asphalt. These courts were entirely enclosed with a high fence making them as nearly perfect as it is possible to do. Almost the entire properties of these two playgrounds were fenced in with a 4-foot Page iron fence making it much safer for the children who use these areas, and greater protection for the properties when not in use.

The tremendous amount of construction and development in parks and playgrounds, which has been accomplished during the past two years, is almost entirely due to the initiative of Major Myron E. Bennett and was made possible through the FERA, which furnished practically all the labor and a large portion of materials. Had it been necessary to do this construction and development under ordinary conditions it would have taken years to accomplish what we have been able to do during the past two years.

A project was made out and submitted to the Public Works Administration for the purpose of building a field service house on each playground and to complete construction on the Gowen Park. Due to the fact that this project is still pending with the Government, no construction whatever has been done on the Gowen Park. Your Commission is still hopeful that these projects will be granted by the Administration.

A new activity of your Commission this fall was the preservation of the town's shade trees. The services of a trained expert was obtained and a crew of about 12 local men worked under him as long as the weather permitted. Owing to the severity of the weather it was necessary to discontinue this work immediately after Christmas. There still remains several weeks work on these trees before the entire town is covered. We find that the shade trees in the two villages are in critical condition. This is especially true of the maples, which have been practically destroyed by borers. About the most that could be done at the present time was to remove dead wood, treat the trees for borers, treat what cavities that were practical, and in many cases remove the entire tree. This

program should be continued every year and we hope some time to be able to make replacements with new trees, where it is necessary to remove the old ones. In order to accomplish as much of this work as possible while trained men were available, the general appropriation was overdrawn.

Your Commission plans for the coming year to carry on the program of development according to the plans in their possession and to improve the organized play program.

Respectfully submitted,

F. EVERETT NUTTER,

HARRY STOTT,

RALPH B. EMERY, Chairman,

Park Commission.

REPORT OF HISTORICAL COMMITTEE

To the Selectmen of Sanford:

I herewith submit my report of the Historical Committee of Sanford for the year 1935.

During the year the early records of the first church of Sanford have been arranged and bound in book form for a permanent record, also arrangements have been made with the owners of the original F. C. Philpot negatives for a series of albums, each to contain about twenty-five protographs of scenes and old residences of Sanford and vicinity within the past fifty years. There has also been some work done in locating members of old families for various organizations.

Your committee is hampered in their work by not having a suitable place in which to keep records, etc. We have had many offerings of old papers, books, and pictures, if and when there is a suitable place provided to keep them in good condition.

Respectfully submitted,

FRED L. LIBBY,

Chairman.

REPORT OF BUILDING COMMITTEE

The Committee appointed by the town at the last regular Town Meeting to investigate the crowded condition in the schools of Sanford have carefully studied the situation and have discussed varied solutions with the school officials.

We wish to express our deep regret that we were deprived of the services of Mrs. Josephine Lord and desire to express our sorrow for this loss and to extend our deepest sympathy to her family.

Your Committee feel that the most satisfactory permanent solution would be an elementary building for all grades on the East Side of the Town. We found many advantages would result from a building of this kind both from the point of view of instruction and location. But a building of this size would cost nearly \$80,000. Doubtless some Federal Aid could be obtained for a building of this character, but your Committee felt that the voters would not approve the expenditure of so large a sum of money at this time on account of the financial condition of the Town. We feel that more improvements are being made in building construction than in any other line. So we advise that a committee be continued in service to study locations and the best methods of construction, so that the citizens of the easterly part of the Town will gain, rather than lose, by the delay.

As a temporary measure to meet the immediate need, your Committee feel that it is advisable to finish the top floor of the Lincoln School and to convey enough more pupils to relieve the congestion in the southerly part of the Town. A considerable part of the material needed is now in the building and this work which could be done during the coming winter would give four additional rooms. We estimate that it would cost about \$10,000 to finish the top floor of the Lincoln building. Besides doing this, your Committee feel that a modern two-room school should be built at South Sanford to replace the one-room crowded school now in use.

This would be a permanent improvement and would decrease the cost of conveyance. We estimate that this would also cost about \$10,000.

Steps have been taken to obtain Federal Aid for these two projects provided they are approved by the Town, and an article will be submitted to the voters at the regular Town Meeting for their decision in regard to this report.

If Federal Aid is obtained we estimate that the Town would have to raise about \$15,000 to complete these two projects.

—
WILLIAM S. NUTTER,
BERTRAM E. STRITCH,
THEODORE BERNIER,
ADRIEL THOMPSON.

ANNUAL REPORT

Town Clerk and Tax Collector

1935

To the Citizens of the Town of Sanford:

Your Town Clerk and Tax Collector renders the following Report for the Year 1935:

REPORT OF VITAL STATISTICS

BIRTHS

Three hundred and seventy-nine (379) births have been recorded as received in the office of the Town Clerk during the year 1935.

This shows an increase of sixty-six (66) births as compared with the year 1934.

Of this number, one hundred and seventy-five (175) were of the male sex, and two hundred and four (204) were of the female sex.

The number each month is shown below:

| | 1935 | 1934 |
|-----------------|-----------|-----------|
| January | 34 | 32 |
| February | 29 | 22 |
| March | 28 | 24 |
| April | 25 | 34 |
| May | 33 | 25 |
| June | 30 | 23 |
| July | 31 | 21 |
| August | 38 | 30 |
| September | 28 | 37 |
| October | 33 | 25 |
| November | 21 | 23 |
| December | 21 | 17 |
| | <hr/> 379 | <hr/> 313 |

MARRIAGES

One hundred and ninety-four (194) marriages were recorded in the office of the Town Clerk for the year 1935, being an increase of twenty-eight (28) as compared with the year 1935.

The number each month is as follows:

| | 1935 | 1934 |
|-----------------|-------|-------|
| January | 8 | 10 |
| February | 7 | 11 |
| March | 11 | 6 |
| April | 13 | 12 |
| May | 21 | 10 |
| June | 19 | 18 |
| July | 15 | 12 |
| August | 23 | 16 |
| September | 16 | 23 |
| October | 19 | 18 |
| November | 23 | 18 |
| December | 19 | 12 |
| | <hr/> | <hr/> |
| | 194 | 166 |

DEATHS

Two hundred and twelve (212) deaths were recorded as having occurred within the town in 1935, being an increase of forty-two (42) as compared with the year 1934.

Of this number, one hundred and eight (108) were of the male sex, and one hundred and four (104) were of the female sex.

One hundred and forty (140) were buried within the town, and forty-five (45) were taken outside for burial. In addition to this, twenty-seven (27) were brought in from outside for burial.

The number for each month is shown below:

| | 1935 | 1934 |
|-----------------|-------|-------|
| January | 19 | 14 |
| February | 18 | 9 |
| March | 18 | 12 |
| April | 21 | 13 |

| | <hr/> | <hr/> |
| | 212 | 170 |

TAX COLLECTOR'S REPORT**DOG LICENSES**

Seven hundred and seventy (770) licenses were issued during the year 1935, for which the sum of one thousand and sixty-three dollars (\$1,063.00) was received and paid to the Town Treasurer.

The following licenses were granted:

| | |
|---|------------|
| Five hundred and forty-eight (548) male dogs | \$ 548.00 |
| One hundred and fifty-five (155) spaded female dogs | 155.00 |
| Sixty-two (62) female dogs | 310.00 |
| Five (5) kennel licenses (10 dogs each) | 50.00 |
| | <hr/> |
| | \$1,063.00 |
| Paid Treasurer | \$1,063.00 |

FEES AND LICENSES

| | |
|---|-----------|
| Received Account of Fees and Licenses for 1935 | \$ 596.60 |
| Paid Treasurer | \$ 596.60 |

SUPPLEMENTARY TAXES, 1935

| | |
|---|-----------|
| Received from Supplementary Taxes | \$ 326.77 |
| Paid Treasurer | \$ 326.77 |

INTEREST

| | |
|---|-----------|
| Received Account of Interest Past Due Taxes | \$ 725.21 |
| Paid Treasurer | \$ 725.21 |

TAX COLLECTOR'S REPORT**1935**

The 1935 Commitment of Poll Taxes reached the total sum of \$12,357.00; the Real Estate and Personal Property Commitment \$480,977.20; Excise Tax Commitment \$15,000.00 making a total Commitment of \$508,334.20, being an increase of \$33,455.37 over the 1934 Commitment.

The Collections this year have been fair in comparison with the prior years. \$445,062.02 of the total commitment has been paid to the Treasurer as of January 1, 1936, not including abatements and taxes that were withdrawn from taxation by the 1933 tax liens. We have tried to help the property owners by giving them credit on their past due taxes rather than accept them on this year's taxes. I can offer no

TAX COLLECTOR'S REPORT

suggestions other than the fact that until work is again on a more permanent basis, collections of all taxes will be difficult and recourse to the law will, in most cases, hinder rather than help.

Partial payments have been and are still being collected in any amount that the property owner feels that he can afford. The real pinch comes when the interest is added and many tax payers feel that, notwithstanding the fact that this interest is the result of the vote of the town meeting, they should not be taxed for it when they are overdue on their tax payment. This office will assist the taxpayer in any way that it can in reference to partial payment or otherwise.

ARCHIE C. MICHAUD,
Collector of Taxes.

AUTOMOBILE EXCISE TAX

The commitment for Excise Tax for 1935 was \$15,000.00, being the same amount as in 1934. The amount of \$16,198.25 has been collected and paid to the Treasurer for the year 1935, this being \$602.73 more than 1934. There were 3,934 motor vehicles taxed in Sanford for 1935, this being a gain of 200 motor vehicles over the year 1934.

SECTION 63 OF CHAPTER 5, REVISED STATUTES OF MANE

Selectmen and Treasurer to make reports; printed reports to be distributed before annual meeting; all town books to be open for public inspection; penalty for refusal or neglect. R. S. c. 4, 45.

Persons charged with the expenditure of the money of a town, shall on or before the morning of each annual meeting, make a full, detailed written or printed report of all their

TAX COLLECTOR'S REPORT

financial transactions in behalf of the town during the municipal year immediately preceding, with a full account of the receipts and disbursements during that period, and to whom and for what purpose each item of the same was paid, with a statement in detail of the indebtedness and resources of the town; including a list of all unpaid taxes which have been committed to the treasurer or collector for collection, giving the names of all delinquent taxpayers and the amount due from each. Such reports, or like reports of town auditors, if printed, shall be distributed to the voters on or before the morning of the annual meeting, or, if not printed, shall be presented and read in open town meeting before the election of selectmen; and, whether written or printed, shall be kept deposited in the office of the selectmen, or if they have no office or usual place of business, with the town clerk, with proper vouchers for the disbursements reported, where such reports and vouchers, and all the books of the town shall be open during the usual hours of business to the inspection of votes; and if any town officer refuses or neglects to perform any requirement of this section, or refuses to allow any voter to examine such reports, vouchers, and town books, he shall be punished by a fine of fifty dollars for each refusal or neglect.

POLL TAX ACCOUNT, 1935

TAX COLLECTOR'S REPORT

Town Clerk and Tax Collector to the Citizens of the Town of Sanford:

The following remarks, with reference to the Town Clerk and Tax Collector's office for the year 1935, are made in connection with reasons shown for listing delinquent taxpayers.

You will notice an increase this year in every account that I have to handle, namely: vital statistics, recording, excise tax, licenses and fees, dog licenses, supplementary, polls, real estate, and personal taxes. Out of a commitment of \$480,977.20 of real estate and personal taxes, it is safe to assume at the present time that of this amount, approximately \$45,000.00 will have to be taken care of by the Tax Lien Law which was adopted by the town in the year 1933. This amount shows a decrease of property taken over by the town in prior years.

In connection with the collection of poll taxes, I believe it is my duty to call the attention of poll taxpayers to the new law enacted by the Eighty-Sixth and Eighty-Seventh Legislature. The law as adopted reads as follows: Chapter 139, Section 33-A Operators' licenses issued, only when poll tax has been paid. To facilitate the administration of this act, the secretary of state shall cause to be placed on the application blank for an operators' license the following question: "Have you paid your poll tax for the previous year?"

I wish to state, at this time, that there are some that have been issued operators' licenses without first paying their poll tax and it may cause them difficulties in the future.

On June 28, 1935 at a special town meeting, we adopted the Representative Form of Government, which means more recording in the office of the Town Clerk. The town has been divided in seven districts and three polling places, which means the posting of seven warrants and seven sets of check lists for a municipal election and the former method and former check lists used for a state primary and election.

As the industries of the town are working on various shifts, I have kept my office open during the noon hour for the convenience of the citizens.

At this time, I wish to express my appreciation for the hearty cooperation by the citizens of the town of Sanford given me in my first year in public office also each department of the town, and Mr. Emery, my predecessor.

ARCHIE C. MICHAUD,

Town Clerk and Tax Collector.

SANFORD HIGH SCHOOL

**ANNUAL REPORT OF THE
SANFORD SCHOOL DEPARTMENT
For the Year Ending December 31, 1935**

SCHOOL COMMITTEE FOR 1935

Saul Shalit, Chairman, term expires March, 1936.

Phidelem S. Demers, term expires December 31, 1936.

John V. Tucker, term expires December 31, 1937.

Superintendent of Schools and Secretary of the School Committee, James A. Hamlin; residence, Main Street. Telephone, Office, 265; residence, 308-M. Office hours 4 to 5 P. M.; Saturdays, 10 to 11 A. M.; while the schools are in session.

Office Clerk, Millicent A. Harmon, residence, 16 Edmund Street, Springvale. Office hours 8:30 to 11:30 A. M.; 1:15 to 5 P. M.; Saturdays 9 to 11:30 A. M.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of the Town of Sanford:

Your Superintending School Committee submit the following report of their work connected with the public schools of Sanford for the year 1935.

A casual observer might feel that all the School Board has to do, is to watch the procession go by. It is always easy to see the attractive, easy side of the other fellow's work. There is a most attractive side to our work and we have thoroughly enjoyed working with and for the young people of this community and with those whom we have elected to train and guide them and for whom we must accept the responsibility.

We quote from Dr. Almack of Stanford University, "No public official has a greater opportunity for public service and can do more to control the destiny of the state and the happiness and efficiency of its people than an interested School Board member." The magnitude of the business of education brings its perplexing problems.

The average expenditure for every pupil attending American public schools is about \$100. Based on this average your School Committee would be entrusted with the expenditure of nearly a quarter of a million dollars. While the cost in Sanford is considerably below the national average, the school budget is a large item of local expenditure.

The amount of State and Federal aid depends largely upon the care and thought used in meeting the requirements to give this aid. We have again been able to help the schools from the proceeds of the Lucy Emery Fund. Every village building now has a piano. As these are used, we are confident that the thoughtfulness and generosity of Mrs. Emery will remain fresh in the minds of both pupils and teachers.

Of even more value than the cold financial side of the work, is the more intricate human side of acting as a sympathetic buffer between nearly 100 employes who are constantly on the pay roll and about 5,000 parents and many times that number of taxpayers.

To meet the problems that are presented to a school official, one needs all the sympathy, love and experience of a wise parent, the professional insight and knowledge of a doctor, the shrewdness and acumen of a lawyer, the financial foresight of a banker, all combined with a passion for the clean, all-round development of youth that should characterize the Christian minister or priest. A School Board member meets the problems of the architect, the mason, the plumber, the carpenter, and the painter, as well as those of the psychologist and the psychiatrist.

EDUCATION

We do not wish to emphasize the difficulty, but rather the seriousness of the work of the Board. Ill advised harshness may ruin the entire life of a pupil or teacher, while lack of firmness may destroy the efficiency of an entire system.

Our social and industrial conditions have changed so rapidly that a school system that was adequate to meet the needs of yesterday, is utterly helpless to meet the conditions today.

In meeting and in some degree solving these perplexing problems your Committee has been fortunate in receiving fine cooperation.

We especially wish to acknowledge the assistance given us by the Special Committee appointed by the town to study the congested condition of the schools. On account of the recommendation of this committee, composed of William Nutter, Theodore Bernier, Bertram Stritch, Adriel Thompson, and the late Mrs. Josephine Lord, funds were raised at the last Town Meeting to match the WPA Aid that has been granted the town by the federal government, so that we can finish four rooms in the Lincoln Building and build a modern two-room school building at South Sanford.

Your Committee has given much attention to the problem of providing clean, sanitary conditions for school work. We value very highly the preventative clinics that have been held during the past year and feel sure that this work, together with the milk for needy children, that has been provided through the generosity of the two women's clubs and the efforts of other public minded citizens, will prove extremely valuable to the homes of Sanford.

In all of its decisions your Board has been governed by one motive—the best interests of the children of Sanford, and in the accomplishment of this purpose we request your help and cooperation.

We would call your attention to the detailed report of expenditures, needs and accomplishments that accompany this report.

Your Board wishes to express its deep regret for the sickness of one of its valued members. At the time of preparing this report John V. Tucker, who has had more years of service than any other member of the Board, is seriously ill at the Henrietta D. Goodall Memorial Hospital.

We have missed his help, and trust he may soon be again working with us.

Respectfully submitted,

SAUL SHALIT,
PHIDELEM S. DEMERS,
JOHN V. TUCKER.

EDUCATION**REPORT OF SUPERINTENDENT
OF SCHOOLS**

To the Superintending School Committee of the Town of
Sanford:

I herewith submit to you and to the citizens of Sanford the following report concerning your public schools for the fiscal year ending December 31, 1935, this being the thirty-seventh in the series of annual reports from the Superintendent of Schools of this town.

The past year has been full of problems and perplexities for both teachers and school officials. All the school rooms have been overcrowded and the new families that have moved to town have brought difficulties that at times seemed impossible to handle.

There were many desirable things that we know would benefit the pupils of Sanford which we could not do for lack of funds, and the unavoidable congestion of our school rooms.

The truly wonderful cooperation of the teachers who have with fortitude adopted Milton's advice, "It is your duty, mine and everyone's, not to see what were good if it might be, but seeing what is, learn to make that good," and the careful planning and cooperation of the School Committee, the patience and help of the parents, and the assistance of so many citizens have made it a year of progress in spite of the difficulties.

Several capable teachers left us during the year but the new teachers have proved efficient and faithful. We feel that the teaching staff is a credit to the town and meets well the high standard that Sanford expects and requires.

Sanford can well take pride that the students in the Freshman Class at Bates last year won the President's cup for obtaining the highest rank for any school in New England. This is an unusual honor, not only for the pupils who did such outstanding work and for their parents who did so much to give them the requisite character and ambition, but also for the credit reflected upon the spirit of the whole town and the kind of instruction which they received, not only in the high school, but also throughout their whole school course.

The increased enrollment has obliged us to make larger expenditures, especially for books and desks.

EDUCATION

The fact that we were unable to accommodate the pupils in the school buildings in the southerly end of the town compelled us to convey two full bus loads of pupils to Springvale. We have succeeded fairly well in selecting locations where the children would have to walk a long distance if they were not conveyed, so that both parents and pupils have generally been satisfied. Next year the number that will have to be conveyed will be greatly increased. The prospects of even partially satisfying many who will have to change their place of schooling, present a difficult problem. We will do our very best to solve these problems for the greatest good of the greatest number, and in their solution we earnestly request your advice, patience and cooperation.

We appreciate the efforts and help of the committee appointed by the town to study the congested condition of the schools. While it was decided to provide temporary relief at this time, I wish every citizen would remember their most important conclusion, namely, that the only satisfactory solution will be a good grade building on the east side of the river. This same conclusion was given the citizens of Sanford by your Superintending School Committee in their annual report for the year 1928.

Your school officials realize that unadjustable desks should be changed, ceilings should be repaired, school grounds should be improved, and many other unsatisfactory conditions should be remedied. Yet we feel that it is our duty to take the money given us by the town and to expend the amount allotted us so that it will do the most good to the children of Sanford.

The most important factor of any school system is a happy, efficient and contented group of teachers. They can be neither contented nor efficient when they feel that they are working alone. The home, the church, and the community are real co-workers in any successful scheme of education. You can help the work done for your children, if you let the teachers know that you value the importance of their efforts and are interested in providing them satisfactory working conditions, adequate salaries, and opportunities for normal social life in the community.

The teachers are more interested in making their pupils clean, decent, self-respecting men and women than they are in teaching any subject in the curriculum. This is the biggest, most important work in any community and they cannot do this without active thoughtful and heartfelt cooperation from the entire community.

EDUCATION

I feel that this is an S. O. S. call that is needed more at present than at any time in the world history. If our children are ever to gain the true value of the finer things of life and are to learn that character, refinement and a square deal to the other fellow are of more value than material gain, all factors of education must work together.

No child can be expected to realize that immediate and temporary pleasure is not always the best choice. Real happiness is a true aim of education and its price is often giving up temporary enjoyment. This lesson of real temperance in all lines can never be successfully taught without the heartiest assistance from the best elements of the community. How many are willing to put as much time, interest and money into training a child as will be expended in training a hunting dog?

Few towns have had as thorough a health program as Sanford has enjoyed this past year. The preventative and informational work followed by a new but efficient Physical Education program at the High School and completed by the supervised playground program of the Park Department makes a combination that is bearing results in healthier and happier boys and girls.

It has given me much pleasure to observe the rapidly improving spirit and morale at the high school during the last few months. The faculty are devoting more thought and care to the needs of the individual pupil who needs guidance and encouragement, and the students are showing that they realize that the high school is their school and cannot be a good one unless they do their part. Doubtless the principal of the high school will explain how the home room councils, and the various clubs such as the "S" Club, the Stamp Club, and other clubs connected with the work of the school or the interests of the pupils, have assisted in securing this result.

In closing we would express our thanks to all who have helped solve the difficulties of the past year and would beg a continuance of your cooperation during the coming year.

Respectfully submitted,

JAMES A. HAMLIN,
Superintendent of Schools.

EDUCATION**CALENDAR 1936**

Winter term, December 30, 1935 to February 21, 1936. Eight weeks. Vacation one week.

Spring term, March 2, 1936 to April 17, 1936. Seven weeks. Vacation one week.

Summer term, April 27, 1936 to June 19, 1936. Eight weeks. High School. April 27, 1936 to June 12, 1936 Grade Schools. Seven weeks.

Fall term, September 8, 1936 to December 18, 1936. Fifteen weeks. Vacation one week.
Holidays:

The schools have the following holidays:

New Year's Day, January 1.

Patriot's Day, April 19.

Memorial Day, May 31.

Armistice Day, November 11.

Two days at Thanksgiving.

ENROLLMENT DECEMBER, 1935

EDUCATION**NO SCHOOL SIGNALS**

The No School Signal will not be used except in cases where there can be no doubt about its advisability. On stormy mornings parents are urged to use their own judgment about sending their children, as one street may be nearly impassable while others are all right.
Signals:

- 4 blasts blown at 6:45—No school for the High School.
- 4 blasts blown at 7:45—No school for the Grades for the forenoon session.
- 4 blasts blown at 11:30—No school for the Grades during the afternoon session.

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I beg to submit herewith my report of the Sanford High School. There have been few changes in the teaching force or in the courses of instruction during the past year. Mr. Robley Wilson took the place of Miss Edith Lenfest, in charge of the Latin department. Mrs. Estella Clarke continued as a substitute teacher for Miss Maude Preble, who is still unable to teach. Mr. Harvey Johnson was added to the faculty as a teacher of French and Mathematics.

I feel that the work of the school is progressing in a satisfactory manner, although many improvements could be made. May I suggest that one of the first things to be done is a serious consideration of the restoration of teachers' pay. There is an implied contract and a moral obligation on the part of the community which should place this issue very much in the foreground. Teaching is a profession and can neither be paid, nor considered, as a wage job. The teachers came to Sanford on a minimum salary with the understanding that if their work was satisfactory they would receive yearly increases up to a certain amount that seemed reasonable. These increases were in the nature of payments for work well done. When the crisis came in the town's affairs they voluntarily reduced the expense of instruction to the town by a donation of salary, followed by sharp cuts which in almost every case have taken away all of the advance that they have ever received for work well done. If their rewards were deserved, it seems to me that there is this implied contract and moral obligation on the part of the town which remains unsettled.

I also call to your attention two matters connected with the administration of the school that seems most worthy of notice. The first is the growth in numbers and interest of the Parent-Teachers' Association. The officers and committees are working most effectively this year to produce programs that will be interesting and worthwhile for both parents and teachers.

It seems almost superfluous to comment upon the good that such an organization can do when properly conducted. Those of us who are actively engaged in the school work can give the town only such education as it wants. We may know of things that would be far better, but we are helpless to bring those things to pass without the hearty and whole souled cooperation of the citizens of the town, among whom we should look to the parents for first aid.

EDUCATION

The second concerns the growth of Student Government and the participation of the students in the conduct of the school. This is a subject that we have been approaching for several years; one that needs to be handled with extreme care and judgment; one which I regard as vitally important in character training and citizen building. The work this year has consisted in the development of a home room congress composed of representatives of each of the home rooms, who meet periodically to discuss problems for the good of the school. The home rooms themselves are organized for frequent assemblies under a president and a secretary-treasurer.

It is not possible in the limited scope of this report to discuss problems at length but I will mention in passing the formation of the Student Activity Association by which we hope that all activities have been placed upon a self-supporting basis through the taxation of the pupils by themselves of a weekly amount that will in all probability care for the needs of the athletic association, musical clubs, school paper, and such organizations.

This plan has been borrowed after careful investigation from the Rochester, Laconia, Franklin, Portsmouth, and other New Hampshire high schools.

May I take this opportunity in closing to thank you and the school officials for the hearty cooperation that you have extended to the faculty during another rather trying year.

Respectfully submitted,

GEORGE C. PURINGTON,
Principal.

EDUCATION

REPORT OF SCHOOL NURSE

To the Superintendent of Schools:

The promotion of health teaching is so important a part of the school curriculum that health has been made one of the first objectives in education by the National Education Association.

To make our school children health conscious and to find defects needing correction, assistance was given the Health Officer in an examination of children in the public and parochial schools. The results found are as follows:

Public Schools:

| | |
|------------------------------------|-----|
| Faulty Vision | 92 |
| Enlarged Tonsils | 101 |
| Defective Teeth | 344 |
| Ten Pounds or More Underweight ... | 159 |
| Hard of Hearing | 7 |

Parochial Schools:

| | |
|------------------------------------|-----|
| Faulty Vision | 71 |
| Enlarged Tonsils | 126 |
| Defective Teeth | 432 |
| Ten Pounds or More Underweight ... | 92 |
| Hard of Hearing | 2 |

Notices were sent home to the parents urging correction of these defects.

Following corrections were done last year:

| | |
|----------------------------------|-----|
| Children Obtaining Glasses | 32 |
| Tonsils Removed | 71 |
| Teeth Cared for | 438 |

Lack of family finances, rather than lack of cooperation, is the usual reason for not securing a correction of a child's defect.

Arrangements were made and assistance given to the Health Officer at Clinics where children were given toxoid for prevention of diphtheria. One thousand eight hundred and forty had the toxoid treatment. Clinics for small-pox vaccination were held and 1,001 were vaccinated. Again, this year, the Women's Board of the Henrietta D. Goodall Memorial Hospital and Women's Auxiliary sponsored Tonsil Clinics and 19 children were cared for on recommendation.

EDUCATION

Dental Clinics were held by local dentists and attended by the School Nurse. Three hundred and thirteen children were given care, of which number 228 had extractions done, 71 had fillings and 71 had their teeth cleaned.

During cold weather the physically impaired children are helped by one-half pint of milk given daily at recess time. The Searchlight Club of Sanford and the Springvale Woman's Club help in this project by sponsoring a fund for distribution of free milk.

Classes in Home Hygiene and Care of the Sick have been held with the Junior Class of Home Economics Students at the High School. Also, assistance was given the Health Officer and Physical Education Directors during physical examination of girls attending high school.

The mental as well as physical health of children must be considered for an adequate program. Recognizing that we have a number of problem children in our schools, a state psychiatrist spent two days in the community giving this group special examinations. Following is a report of her work:

| | |
|--|----|
| Number Examined | 20 |
| Recommended to State School for Instruction and Care | 9 |
| Number with Superior Intelligence ... | 3 |
| Ones Needing Special Attention and Care in Home and School | 8 |

I hope that, eventually, these problem children will be recognized as needing special attention in a class of their own with their own teacher. This would relieve a class room teacher for more time with other children and would give the underprivileged child a fair chance to do work adapted to his ability.

Another group of children receiving special attention were the tuberculous and ones exposed to tuberculosis. Constant visits are assential to these families requiring them to carry out the doctor's orders. The treatment is monotonous and families need stimulation by a professional person. Plans were made for a Chest Clinic to be held in 1936 under the direction of the Bureau of Institutional Service of the State.

Arrangements were made for two crippled children to attend a hospital and their deformities were corrected. A survey was made for the County Health Officer of the number and type of crippled children in this community.

EDUCATION

Weighing conferences were held and 2,811 children attended.

Assistance was given the classroom teacher, whenever requested, in making contact between the school and home for some specific condition pertaining to a child. Also, when requested, assistance was given in carrying on a health program in the class room. First Aid treatments were given in schools and office and children referred to their family doctor.

Twenty-two talks concerning the School Health Program were given to various organizations in town.

I hope in the future more work can be done with the hard of hearing child and ones with speech defects. Also, a definite program with pre-school children is advisable.

Following is the total number of visits for the year:

| | |
|-------------------------------------|-------|
| Visits to School Rooms | 1,058 |
| Home Visits to Ill Children | 209 |
| Home visits for Health Education .. | 408 |
| Office Visits | 306 |

In conclusion, the school nursing program in Sanford has been developed to meet the needs of the individual child, in school, home and community.

Respectfully submitted,

LAURA E. TABOR, R. N.,

School Nurse.

EDUCATION**REPORT OF DIRECTOR
OF VOCATIONAL EDUCATION**

To the Superintendent of Schools:

I herewith submit my sixteenth annual report as Director of Vocational Education.

So many of our high school students are selecting the practical courses in preference to the academic that it appears that our problem in the very near future will be the equipment and maintenance of additional shops. About 44 per cent of the total number of boys in school are taking the vocational course.

We are prepared to offer instruction in woodworking, drafting and textiles. Our future development should be along the lines of machine shop and printing. By offering instruction along these lines, we would be enabled to reach and hold the interest of additional boys who are not interested in the courses now offered. Most of these boys are now taking the general course and graduate with no vocational instruction. These boys do not intend to go farther in school and should be receiving instruction along the lines of work for which they are fitted as preparation for a life of work.

Although we cannot prophecy as to what employment may be available for our graduates, nor what jobs may be eliminated by new manufacturing methods, we do know certain fundamentals will persist. The complex civilization that we have reared will still need the products of our woodworking shops, drafting rooms, machine shops, textile establishments and printing plants.

I therefore recommend that we offer instruction in these additional subjects in the hope of reaching more boys and providing them with the means of earning a living and becoming useful citizens.

Respectfully submitted,

LESLIE W. MacKAY,

Director of Vocational Education.

EDUCATION

REPORT OF DIRECTOR OF HOME ECONOMICS

To the Superintendent of Schools:

I herewith submit my report of the Home Economics Department of Sanford High School.

The work in home economics has been carried on this year to satisfy the state and federal requirements, and so far as possible, to give the girls training in subjects that will be of greatest value to them in whatever their life work may be.

The course of study as outlined in previous reports has not been changed. It includes study of foods and clothing, personal and family budgets, child care, health, laundering, home decoration, science related to the home and family relationships. Realizing the need for practice as well as study in these subjects, home projects for the three upper classes are outlined and completed as far as possible. The home is the logical place for much of this practice and we urge the parents to cooperate with the department as much as possible.

One new course in food study was offered as an elective, last September, to Junior and Senior boys. Eight boys were interested and have been taking the work with very good results. Much interest has been shown in this special class. There are certain problems pertaining to home life in which boys as well as girls should receive training. Many schools in the West and Mid-Western States have regular courses in home economics that boys are pursuing. Maine now has several schools where these subjects are offered to boys and the results are quite as good as those of the girls.

In connection with the home nursing course, Miss Laura Tabor gave the Red Cross Course in Home Care of the Sick. Eighteen girls have been taking the course and expect to receive the American Red Cross certificates.

The home economics course is elective and while it is recommended that girls take it the entire four years, girls from the Junior and Senior classes may elect certain subjects. In order to receive home economics diplomas, the four years prescribed course must be satisfactorily completed. During the entire course last year 77 girls were enrolled and nine graduated. In September, 18 Freshmen elected the course.

EDUCATION

Several recommendations were made last year for additional quipment in the foods laboratory, but little was done. We are extremely grateful to the Cumberland Light and Power Company for their kindness in equipping the range and electric plates with new and fast heating units. In the sewing laboratory the sewing machines were repaired and one new machine and two electric irons were added. A small amount of equipment was also purchased for use in the Play School.

Much credit is due Miss Phyllis Johnson whose preparatory work in the grades in Home Economics is excellent.

Miss Nathalie Preston, a graduate of Farmington Normal School, who has studied two summers at Cornell University Summer School, has had full charge of the Play School, a project conducted for eight weeks in the fall term, in connection with the child care course. Miss Preston's work as an assistant in the department has been very successful. She has proven herself not only a valuable teacher to the girls, but also a friend to them and to all who come in contact with her.

Respectfully submitted,

BLANCHE, C. PHILBRICK,

Director of Home Economics.

LIST OF TEACHERS

| School | Grade | Name | Training | Plac- tion | No. Years Exper- ience |
|-------------|------------|---------------------|---|---------------|---------------------------------|
